Corrigendum

Corrigendum to “Enhancing foam drainage using foam fractionation column with spiral internal for separation of sodium dodecyl sulfate” [J. Hazard. Mater. 192 (2011) 1900–1904]

Quan-Wen Yang, Zhao-Liang Wu*, Yan-Li Zhao, Ye Wang, Rui Li

Department of Bioengineering, Hebei University of Technology, Tianjin 300130, PR China

The use of spirals to enhance the drainage of foam in a column of circular section to intensify the foam fractionation process was the idea of Dr. Paul Stevenson of the University of Auckland. Here again, we thank Dr. Paul Stevenson for his correct guide to our research work.
