INCLUSION SCIENCE

The D. Reidel Publishing Company is proud to announce the launch of a major series of monographs to accompany its *Journal of Inclusion Phenomena*. The monographs, to be published in the series Inclusion Science, will deal in depth with the same topics as are covered in the journal, namely:

- Ion Transport through Inclusion Compound Membranes;
- Cyclodextrins and their Uses in Industry;
- Enzyme Modelling and Artificial Enzyme Systems;
- Inclusion Polymerisation;
- Intercalates in Biological and Nonbiological Systems;
- Chromatography;
- Zeolites.

*Editorial Board:*

J. L. ATWOOD, University of Alabama, U.S.A.

J. E. D. DAVIES, University of Lancaster, U.K.

T. IWAMOTO, University of Tokyo, Japan

N. N. LI, UOP Inc., Illinois, U.S.A.

J. LIPKOWSKI, Academy of Sciences, Poland

D. D. MacNICOL, University of Glasgow, Scotland

W. SAENGER, Free University, Berlin

The first book in the series, to be published in early 1987, will be the definitive work by J. SZEJTLI:

CYCLODEXTRIN TECHNOLOGY

In this masterly survey, the acknowledged expert on cyclodextrins, Professor J. Szejtli of Chinoin Pharmaceutical Company, Budapest, gives a comprehensive and detailed account of the most up-to-date aspects of the multitude of uses to which cyclodextrins can be put in all facets of research, development and production.

*Brief Table of Contents:*

Chapter 1: Chemistry, Production, Analysis, Metabolism, Biological Effects of Cyclodextrins, Derivatisation, and Polymerisation;

Chapter 2: Inclusion Effects in Solution, Preparation and Characterisation of Inclusion Complexes in Solid and Solution Phase;

Chapter 3: Application of Cyclodextrins in the Pharmaceutical Industry;

Chapter 4: Cyclodextrins in Foods and Toiletries;

Chapter 5: Cyclodextrins in Cosmetics and Pesticides;

Chapter 6: Cyclodextrins in Organic Synthesis, Biotechnology, and in Separation Processes;

Chapter 7: Cyclodextrins in Analytical Chemistry and in Diagnostic Systems

Price to be announced.
