
ADDENDUM

Journal of Lipid Research, Volume 9, Number 3, May, 1968, page 397.

At the end of his article the author requests insertion of the following.

After the publication of the above Note, an earlier description of a ferric chloride spray for the detection of free sterols on thin-layer chromatograms came to my attention (J. R. Claude. 1966. *J. Chromatog.* **23**: 267). My estimate of the sensitivity of this reagent, while more precise than Claude's, is in good agreement with his.
