ERRATA

In the article "Dietary diacylglycerol suppresses high fat and high sucrose diet-induced body fat accumulation in C57BL/6J mice" by Takatoshi Murase et al., published in the March 2001 issue of the *Journal of Lipid Research* (Volume 42, pages 372-378), the first two sentences in the Materials and Methods section, under the heading "Test oils", should now read: "TG oil was prepared by mixing soybean, rapeseed, and safflower oil. The DG-rich oil was prepared by esterifying glycerol with fatty acids from rapeseed oil (Tsuno Food Industrial Co., Ltd., Wakayama, Japan) by the method of Birgitte et al. (20, 24)."
