## ANNOUNCEMENT

The Sixth Biennial Polymer Symposium, sponsored by the Division of Polymer Chemistry of the American Chemical Society will be held on June 12-15, 1972. The host will be the Macromolecular Research Center, University of Michigan, Ann Arbor.

The University of Michigan may readily be reached from Detroit Metropolitan Airport, which provides frequent limousine service directly to the campus. Housing will be available both in dormitories on campus and in several hotels within walking distance of the lecture auditorium. Ample parking space on campus will also be available at reasonable rates.

The registration fee for the entire conference will be \$20.00 for American Chemical Society Members, \$25.00 for nonmembers, and \$3.00 for students; the single-day fee for non-students will be \$8.00. These fees will cover both the technical sessions and a social mixer scheduled for the evening of June 12th. Registration forms and detailed information will be mailed in April to all members of the American Chemical Society Divisions of Polymer Chemistry, Rubber Chemistry, and Organic Coatings and Plastics. Those interested in attending who will not be covered by these mailings can obtain the same materials by writing The University of Michigan, Extension Service Conference Department, 412 Maynard Street, Ann Arbor, Michigan 48104.

The program, which covers a wide range of topics in polymer science, is given below.

JUNE 12th

### Monday Morning

1. Welcome from University of Michigan  
A.G. Norman, Vice President for Research
2. Conformation of Rigid Polyamides  
C.G. Overberger, University of Michigan

3. Selection Criteria for the Use of Plastics in Automobiles  
W. Burlant, Ford Motor Company

#### Monday Afternoon

1. Association of Macromolecules in Dilute Solution  
H.G. Elias, Midland Macromolecular Institute
2. X-Ray Evidence for Order in Amorphous Polymers  
W.O. Statton, University of Utah
3. Structure and Order in Amorphous Polyethylene Terephthalate,  
Polystyrene, and Natural Rubber  
G.S.Y. Yeh, University of Michigan

#### Monday Evening

Mixer—Michigan Union, 8:00 P.M.

JUNE 13th

#### Tuesday Morning

1. Electrodeposition of Water-Dispersed Paints  
W.B. Brown and G.A. Campbell, General Motors
2. Sulfonium Polymer Chemistry  
T. Alfrey and Associates, Dow Chemical Company

#### Tuesday Evening

1. Structure-Property Relationships in Semi-Conducting  
Polymers  
M. Litt and J.W. Summers, Case Western Reserve  
University
2. New Aspects of Chloral Polymerization  
O. Vogl, University of Massachusetts

JUNE 14th

Wednesday Morning

1. Synthesis and Characterization of Macrocyclic Dimethylsiloxanes  
J.F. Hampton, R.R. Boundy, and J.F. Hyde, Dow-Corning
2. Interpenetrating Polymer Networks  
K. Frisch, University of Detroit and  
H. Frisch, New York State University at Albany

Wednesday Evening

1. Light Scattering from Solid Polymer Blends  
J. Kinsinger, Michigan State University
2. Physical Chemistry of Glassy Polymer Blends  
A. Shultz, General Electric Company

JUNE 15th

Thursday Morning

1. Rubber-Modified Glassy Polymers  
C.B. Bucknall, Cranfield Institute of Technology
2. Polymer Modification of Portland Cement Systems  
H.L. Wagner, Drexel Institute of Technology

Symposium Chairman: J.K. Stille, University of Iowa

Program Chairman: R.F. Boyer, Dow Chemical Company

Arrangements Chairman: J.E. Mark, University of Michigan
