## ERRATUM

### SYNTHESES OF LITHIUM OLIGOETHER PHENYLSULFONATES (CORRECTION)

Wu XU, Zhenghua DENG, Xiaozheng ZHANG, Guoxiang WAN\*  
*Chengdu Institute of Organic Chemistry, Chinese Academy of Sciences,

We are very sorry having made some mistakes in the above titled paper which has been published in "Macromolecular Reports, A32 (Suppl. 8), 1207~1211, 1995" because of our unforgivable negligence in our work. In this paper, these mistakes are being corrected.

The existing forms of lithium p-(methoxy oligo(ethyleneoxy)) phenylsulfonates (III) at room temperature synthesized in step 3. 3 should be as follows:

III a(n=2); white, easily hygroscopic solid.

III b(n=7. 2); pale yellow-brown, hygroscopic, much viscous liquid.

III c(n=11. 8); pale brown, hygroscopic, viscous solid.
