

## ERRATUM

Volume **123**, Number 2, Series A (1996), in Article No. 0232, “Analytical Coherence-Transfer Functions for the General AMX Spin System under Isotropic Mixing,” by Oliver Schedletsky and Steffen J. Glaser, pages 174–180: On page 176 in Table 2 (d) the coefficients  $c_1$  and  $c_2$  for the transfer from  $A = I_{iz}$  to  $B = I_{iy}I_{jx} - I_{ix}I_{jy}$ , should read  $c_1 = -\frac{1}{6} [1 + 2/\sqrt{3} \sin(2\varphi_{(ki)j})]$  and  $c_2 = -\frac{1}{6} [1 - 2/\sqrt{3} \sin(2\varphi_{(ki)j})]$ . The corrections do not affect any of the other results given in the paper. The authors thank Dipl. Chem. Raimund Marx for bringing the typographical errors to our attention.

This erratum is Article ID jmre.1998.1654.
