Letter to the Editor

Dear Editor:

This letter is a follow-up of my conversation with you on August 30, 1993, about the correction of the news item (Circle 23) published in the *Journal of Materials Engineering and Performance*, Vol. 2, No. 2 [April 1993], p. 151. The diamond research work cited in the item was done when I was Associate Professor at North Carolina State University and not by NASA George C. Marshall Space Center, as implied in the item.

Dr. Jogender Singh

Editor's note: While the JMEP editorial staff make every effort to present the facts correctly, we occasionally err. Our apology to Dr. Singh. Although the reader service inquiry has expired on this particular item, we felt it imperative to set the record straight. Readers who are still interested in the process described in the item may want to contact Dr. Singh directly at—now—the George C. Marshall Space Flight Center, Marshall Space Flight Center, AL 35812, USA; 205/544-2121.

The Time Has Come...

...to send for the latest copy of the free Consumer Information Catalog.

It lists more than 200 free or low-cost government publications on topics like money, food, jobs, children, cars, health, and federal benefits.

Don't waste another minute, send today for the latest free Catalog and a free sample booklet. Send your name and address to:

**Consumer
Information Center
