## POSITIONS WANTED

Many engineers and scientists previously employed in the aerospace and other high-tech research and industrial sectors are now finding themselves sidelined by budget cutbacks and corporate downsizing. "POSITIONS WANTED" will be run free for those ASM members who are **currently unemployed and actively seeking work**. See box below for non-member rates. We will devote up to two pages per issue to "POSITIONS WANTED," on a first-come, first-served basis. Each ad will be run once, but résumés will be kept on file for six months. Send us your résumé and a 50-word synopsis of what you would like in the ad. We'll assign a box number for confidentiality, reword the ad if needed, and provide your résumé to those who inquire. Send your résumé and synopsis to: Managing Editor/Box 23, Journal of Materials Engineering and Performance, ASM International, Materials Park, OH 44073-0002, USA.

Reprints of technical articles in this journal may be ordered using the Reprint Order Form on page 763

**Materials Scientist Metallurgist:** Ph.D. Background in physical/processing metallurgy, with 22 years experience in development, failure analysis, obtaining technical parameters by experimental modelling of heat treatment processes for multicomponents and alloys in nonequilibrium state, properties as function of temperature, kinetic processes in alloys, unusual phase transformations, rapid solidification; hands-on. Location/salary open.

Location/salary open.

**Box 10931**

## Moving ?

For uninterrupted service, please notify us at least six weeks before moving. Send your old mailing label from the front of this journal together with your new address to:

Journal of Materials Engineering and Performance  
Attn: Reader Service Dept.  
ASM International®  
Materials Park, OH 44073-0002

Telephone: 216-338-5151  
Fax: 216-338-4634
