

The European Society for Biomaterials
4th WORLD BIOMATERIALS CONGRESS
24–28 APRIL, 1992
ICC BERLIN

Constituent societies:

Canadian Biomaterials Society
Japanese Society for Biomaterials
European Society for Biomaterials
Society for Biomaterials USA

Main topics:

Advances in basic research, clinical application, development and evaluation of biomaterials. Workshops on synthetic ligaments, small diameter vascular prosthesis, dental implants, biohybrid organs, biosensors and implantable electronic components, heart valves, intraocular devices, bio-derived materials, new bone cements, and ethical issues in biomaterials research and practice.

Important dates:

Deadline for submission of Abstracts — 30 September 1991
Deadline for registration at the reduced rate — 15 January 1992

Official language:

All lectures will be given in English only. There will be no simultaneous translation.
