

CONTENTS BY KEYWORD

Annealing	Intermediate annealing of pure aluminum during cyclic equal channel angular pressings J.-Y. Chang <i>et al.</i>	2613
Ceramics	Ceramization process of polyvinylsilane as a precursor for SiC-based material A. Idesaki <i>et al.</i>	2591
	Fabrication of highly dense Ti ₃ SiC ₂ ceramics by pressureless sintering of mechanically alloyed elemental powders J.-F. Li <i>et al.</i>	2661
Characterization methods	Preparation of nm-sized BaTiO ₃ particles using a new 2-step thermal decomposition of barium titanyl oxalate S. Wada <i>et al.</i>	2655
Chemical vapour deposition	Metalorganic chemical vapor deposition of SrRuO ₃ thin film and its characterization H.-C. Lee <i>et al.</i>	2633
Composite materials	Fabrication of highly dense Ti ₃ SiC ₂ ceramics by pressureless sintering of mechanically alloyed elemental powders J.-F. Li <i>et al.</i>	2661
	Innovative processing and mechanical properties of high temperature syntactic foams based on a thermoplastic/thermoset matrix T. Fine <i>et al.</i>	2709
Corrosion and oxidation	The effect of excimer laser surface treatment on the pitting corrosion fatigue behaviour of aluminium alloy 7075 C. P. Chan <i>et al.</i>	2689
Crystal growth	Topotactic crystallisation of calcite under hydrothermal conditions J. Ovenstone <i>et al.</i>	2743
Crystallization	Topotactic crystallisation of calcite under hydrothermal conditions J. Ovenstone <i>et al.</i>	2743
Deposition techniques	Effect of deposition inhomogeneity on the Ohm resistance of thin electroless copper layers M. Radoeva <i>et al.</i>	2703
Diffusion	Effect of plasma ion implantation on the hydrogen embrittlement of Cu strengthened HSLA-100 steel A. Kumar <i>et al.</i>	2667
Electrical properties	Effect of deposition inhomogeneity on the Ohm resistance of thin electroless copper layers M. Radoeva <i>et al.</i>	2703
Electronic materials	Metalorganic chemical vapor deposition of SrRuO ₃ thin film and its characterization H.-C. Lee <i>et al.</i>	2633
	Effect of deposition inhomogeneity on the Ohm resistance of thin electroless copper layers M. Radoeva <i>et al.</i>	2703
Electronic properties	Preparation of nm-sized BaTiO ₃ particles using a new 2-step thermal decomposition of barium titanyl oxalate S. WADA <i>et al.</i>	2655
Fatigue	The effect of excimer laser surface treatment on the pitting corrosion fatigue behaviour of aluminium alloy 7075 C. P. Chan <i>et al.</i>	2689
Fracture	Effect of plasma ion implantation on the hydrogen embrittlement of Cu strengthened HSLA-100 steel A. Kumar <i>et al.</i>	2667
Friction	Effect of solvent and cosolvent on friction welding properties between part of PMMA with PVC C. B. Lin <i>et al.</i>	2563
Laser processing	The effect of excimer laser surface treatment on the pitting corrosion fatigue behaviour of aluminium alloy 7075 C. P. Chan <i>et al.</i>	2689
Magnetic materials	Structure and magnetic properties of nano-structured heterogeneous Au–Co alloys V. Y. Zenou <i>et al.</i>	2679
Mechanical properties	Intermediate annealing of pure aluminum during cyclic equal channel angular pressings J.-Y. Chang <i>et al.</i>	2613
	Innovative processing and mechanical properties of high temperature syntactic foams based on a thermoplastic/thermoset matrix T. Fine <i>et al.</i>	2709
Microstructure	Intermediate annealing of pure aluminum during cyclic equal channel angular pressings J.-Y. Chang <i>et al.</i>	2613
	Metalorganic chemical vapor deposition of SrRuO ₃ thin film and its characterization H.-C. Lee <i>et al.</i>	2633
	Structure and magnetic properties of nano-structured heterogeneous Au–Co alloys V. Y. Zenou <i>et al.</i>	2679
Mineralization	Ceramization process of polyvinylsilane as a precursor for SiC-based material A. Idesaki <i>et al.</i>	2591
Nanomaterials	Preparation of nm-sized BaTiO ₃ particles using a new 2-step thermal decomposition of barium titanyl oxalate S. Wada <i>et al.</i>	2655
Plasma deposition	Effect of plasma ion implantation on the hydrogen embrittlement of Cu strengthened HSLA-100 steel A. Kumar <i>et al.</i>	2667

PMMA	Effect of solvent and cosolvent on friction welding properties between part of PMMA with PVC.....	C. B. Lin <i>et al.</i>	2563
Polymers	Ceramization process of polyvinylsilane as a precursor for SiC-based material.....	A. Idesaki <i>et al.</i>	2591
	Innovative processing and mechanical properties of high temperature syntactic foams based on a thermoplastic/thermoset matrix.....	T. Fine <i>et al.</i>	2709
Powder technology	Topotactic crystallisation of calcite under hydrothermal conditions.....	J. Ovenstone <i>et al.</i>	2743
PVC	Effect of solvent and cosolvent on friction welding properties between part of PMMA with PVC.....	C. B. Lin <i>et al.</i>	2563
Rapidly solidified materials	Structure and magnetic properties of nano-structured heterogeneous Au–Co alloys.....	V. Y. Zenou <i>et al.</i>	2679
Sintering	Fabrication of highly dense Ti ₃ SiC ₂ ceramics by pressureless sintering of mechanically alloyed elemental powders.....	J.-F. Li <i>et al.</i>	2661
Solvent	Effect of solvent and cosolvent on friction welding properties between part of PMMA with PVC.....	C. B. Lin <i>et al.</i>	2563
Thin and thick film coatings	Effect of deposition inhomogeneity on the Ohm resistance of thin electroless copper layers.....	M. RADOEVA <i>et al.</i>	2703
Welding	Effect of solvent and cosolvent on friction welding properties between part of PMMA with PVC.....	C. B. Lin <i>et al.</i>	2563
