Ceramics	Investigation on the electrophoretic deposition of a FGM piezoelectric monomorph actuator Y. H. Chen <i>et al.</i> 2803 Hydro-abrasive erosion of refractory ceramics A. W. Momber <i>et al.</i> 2861
Characterization methods	Characterisation of K, Na, and Li birnessites prepared by oxidation with H ₂ O ₂ in a basic medium. Ion exchange properties and study of the calcined products O. Prieto <i>et al.</i> 2815 Zinc hydroxystannate-coated metal hydroxide fire retardants: Fire performance and substrate-coating interactions P. R. Hornsby <i>et al.</i> 2893
Coagulation	Coagulation/phase separation process in the silica/inorganic salt systems (1)— observation of state transformation— K. Imaizumi <i>et al.</i> 2979
Coatings	Zinc hydroxystannate-coated metal hydroxide fire retardants: Fire performance and substrate-coating interactions P. R. Hornsby <i>et al.</i> 2893
Corrosion and oxidation	Impedance spectroscopy in reinforced concrete: Procedure for monitoring steel corrosion Part 1 <i>Development of the experimental device</i> O. Poupard <i>et al.</i> 2845
Electrical properties	Impedance spectroscopy in reinforced concrete: Procedure for monitoring steel corrosion Part 1 <i>Development of the experimental device</i> O. Poupard <i>et al.</i> 2845
Fracture	Hydro-abrasive erosion of refractory ceramics A. W. Momber <i>et al.</i> 2861
Intercalation	Characterisation of K, Na, and Li birnessites prepared by oxidation with H ₂ O ₂ in a basic medium. Ion exchange properties and study of the calcined products O. Prieto <i>et al.</i> 2815
Kinetics	Reaction-induced phase separation in an epoxy/low molecular weight solvent system ... E. Soulé <i>et al.</i> 2809
Multilayer structure	Investigation on the electrophoretic deposition of a FGM piezoelectric monomorph actuator Y. H. Chen <i>et al.</i> 2803
Nondestructive testing	Impedance spectroscopy in reinforced concrete: Procedure for monitoring steel corrosion Part 1 <i>Development of the experimental device</i> O. Poupard <i>et al.</i> 2845
Phase separation	Coagulation/phase separation process in the silica/inorganic salt systems (1)— observation of state transformation— K. Imaizumi <i>et al.</i> 2979
Piezoelectric materials	Investigation on the electrophoretic deposition of a FGM piezoelectric monomorph actuator Y. H. Chen <i>et al.</i> 2803
Polymers	Reaction-induced phase separation in an epoxy/low molecular weight solvent system ... E. Soulé <i>et al.</i> 2809 Zinc hydroxystannate-coated metal hydroxide fire retardants: Fire performance and substrate-coating interactions P. R. Hornsby <i>et al.</i> 2893
Porosity	Reaction-induced phase separation in an epoxy/low molecular weight solvent system ... E. Soulé <i>et al.</i> 2809
Porous	Coagulation/phase separation process in the silica/inorganic salt systems (1)— observation of state transformation— K. Imaizumi <i>et al.</i> 2979
Thermal properties	Characterisation of K, Na, and Li birnessites prepared by oxidation with H ₂ O ₂ in a basic medium. Ion exchange properties and study of the calcined products O. Prieto <i>et al.</i> 2815
Wear	Hydro-abrasive erosion of refractory ceramics A. W. Momber <i>et al.</i> 2861
