

CONTENTS BY KEYWORD

Ceramics	The mechanical properties of tubular solid oxide fuel cells N. M. Sammes <i>et al.</i>	4811
	Grain orientation and anisotropy in the physical properties of SrBi ₂ (Nb _{1-x} V _x) ₂ O ₉ (0 ≤ x ≤ 0.3) ceramics B. H. Venkataraman <i>et al.</i>	4895
Characterization methods	Preformed sol-gel synthesis and characterization of YAIO ₃ P. A. Tanner <i>et al.</i>	4857
Composite materials	Effect of reduced pressure on oxidation and thermal stability of polycarbosilane-derived SiC fibers T. Shimoo <i>et al.</i>	4973
Corrosion and oxidation	Mechano-electrochemical effect between erosion and corrosion J. Xie <i>et al.</i>	4849
	Effect of reduced pressure on oxidation and thermal stability of polycarbosilane-derived SiC fibers T. Shimoo <i>et al.</i>	4973
Defects	Defect-free sintering of two material powder injection molded components Part I <i>Experimental investigations</i> D. F. Heaney <i>et al.</i>	4869
	Defect-free sintering of two material powder injection molded components Part II <i>Model</i> P. Suri <i>et al.</i>	4875
	The influence of interfacial dislocation arrangements in a fourth generation single crystal TMS-138 superalloy on creep properties J. X. Zhang <i>et al.</i>	4883
Deformation and fracture	Direct observation of the deformation of isolated huge spherulites in isotactic polypropylene K.-H. Nitta <i>et al.</i>	4889
Electrochemistry	Comparison of indium purification between vacuum refining and electrowinning M.-S. Lee <i>et al.</i>	4843
	Mechano-electrochemical effect between erosion and corrosion J. Xie <i>et al.</i>	4849
	An investigation about thin films of poly[2-methoxy-5-(2'-ethyl-hexyloxy) phenylene vinylene] (MEH-PPV) prepared by Langmuir-Schaefer technique M. K. Ram <i>et al.</i>	4951
Electronic materials	Preformed sol-gel synthesis and characterization of YAIO ₃ P. A. Tanner <i>et al.</i>	4857
Ferroelectrics	Grain orientation and anisotropy in the physical properties of SrBi ₂ (Nb _{1-x} V _x) ₂ O ₉ (0 ≤ x ≤ 0.3) ceramics B. H. Venkataraman <i>et al.</i>	4895
Fiber technologies	Effect of reduced pressure on oxidation and thermal stability of polycarbosilane-derived SiC fibers T. Shimoo <i>et al.</i>	4973
Functionally graded materials	Defect-free sintering of two material powder injection molded components Part I <i>Experimental investigations</i> D. F. Heaney <i>et al.</i>	4869
Kinetics	Comparison of indium purification between vacuum refining and electrowinning M.-S. Lee <i>et al.</i>	4843
