

# CONTENTS BY KEYWORD

---

<b>Adsorption</b>	Studies on divalent ion uptake of transition metal cations by calcite through crystallization and cation exchange process ..... S. A. El-Korashy <b>1709</b>
	Preparation of composite TiO <sub>2</sub> -zeolite sheets using a papermaking technique and their application to environmental improvement ..... H. Ichiura <i>et al.</i> <b>1611</b>
	Part II <i>Effect of zeolite coexisting in the composite sheet on NO<sub>x</sub> removal</i> ..... H. Ichiura <i>et al.</i> <b>1611</b>
<b>Ceramics</b>	Relation of microstructural and compositional features to the electrical properties in degraded thermal barrier coating systems ..... S.-H. Song <i>et al.</i> <b>1661</b>
<b>Chemical vapour deposition</b>	Reactor length-scale modeling of chemical vapor deposition of carbon nanotubes ..... M. Grujicic <i>et al.</i> <b>1819</b>
<b>Coatings</b>	Relation of microstructural and compositional features to the electrical properties in degraded thermal barrier coating systems ..... S.-H. Song <i>et al.</i> <b>1661</b>
	Multiple film cracking in film/substrate systems with residual stresses and unidirectional loading ..... C. H. Hsueh <i>et al.</i> <b>1809</b>
<b>Composite materials</b>	Lamb wave evaluation and localization of transverse cracks in cross-ply laminates ..... N. Toyama <i>et al.</i> <b>1765</b>
	On enhancing the interfacial chemistry of a simulated AA2014-SiC <sub>p</sub> composite material ..... W. F. Caley <i>et al.</i> <b>1755</b>
	Preparation of TiO <sub>2</sub> -polymer hybrid microcapsules ..... H. Strohm <i>et al.</i> <b>1605</b>
	Oxidation behaviour of SiC-platelets and particulates-reinforced Al <sub>2</sub> O <sub>3</sub> /ZrO <sub>2</sub> matrix composites ..... W. M. N. Nour <i>et al.</i> <b>1673</b>
	Preparation of composite TiO <sub>2</sub> -zeolite sheets using a papermaking technique and their application to environmental improvement ..... H. Ichiura <i>et al.</i> <b>1611</b>
	Part II <i>Effect of zeolite coexisting in the composite sheet on NO<sub>x</sub> removal</i> ..... H. Ichiura <i>et al.</i> <b>1611</b>
<b>Corrosion and oxidation</b>	Relation of microstructural and compositional features to the electrical properties in degraded thermal barrier coating systems ..... S.-H. Song <i>et al.</i> <b>1661</b>
	Oxidation behavior and mechanical properties of low-oxygen SiC fibers prepared by vacuum heat-treatment of electron-beam-cured poly(carbosilane) precursor ..... T. Shimoo <i>et al.</i> <b>1653</b>
<b>Crystallization</b>	Studies on divalent ion uptake of transition metal cations by calcite through crystallization and cation exchange process ..... S. A. El-Korashy <b>1709</b>
<b>Deposition techniques</b>	Preparation of TiO <sub>2</sub> -polymer hybrid microcapsules ..... H. Strohm <i>et al.</i> <b>1605</b>
<b>Fatigue</b>	The effect of poling treatment and crystal structure of PZT on fracture toughness and fatigue resistance ..... W.-P. Tai <i>et al.</i> <b>1787</b>
<b>Fiber technologies</b>	Oxidation behavior and mechanical properties of low-oxygen SiC fibers prepared by vacuum heat-treatment of electron-beam-cured poly(carbosilane) precursor ..... T. Shimoo <i>et al.</i> <b>1653</b>
<b>Filter</b>	A multiplanar model for the pore radius distribution in isotropic near-planar stochastic fibre networks ..... W. W. Sampson <b>1617</b>
<b>Fracture</b>	Multiple film cracking in film/substrate systems with residual stresses and unidirectional loading ..... C. H. Hsueh <i>et al.</i> <b>1809</b>
	The effect of poling treatment and crystal structure of PZT on fracture toughness and fatigue resistance ..... W.-P. Tai <i>et al.</i> <b>1787</b>
<b>Heat treatment</b>	Oxidation behavior and mechanical properties of low-oxygen SiC fibers prepared by vacuum heat-treatment of electron-beam-cured poly(carbosilane) precursor ..... T. Shimoo <i>et al.</i> <b>1653</b>
<b>Kinetics</b>	Oxidation behaviour of SiC-platelets and particulates-reinforced Al <sub>2</sub> O <sub>3</sub> /ZrO <sub>2</sub> matrix composites ..... W. M. N. Nour <i>et al.</i> <b>1673</b>
<b>Metals and alloys</b>	On enhancing the interfacial chemistry of a simulated AA2014-SiC <sub>p</sub> composite material ..... W. F. Caley <i>et al.</i> <b>1755</b>
<b>Mineral</b>	Studies on divalent ion uptake of transition metal cations by calcite through crystallization and cation exchange process ..... S. A. El-Korashy <b>1709</b>
<b>Mineralization</b>	Preparation of TiO <sub>2</sub> -polymer hybrid microcapsules ..... H. Strohm <i>et al.</i> <b>1605</b>
<b>Modelling</b>	Multiple film cracking in film/substrate systems with residual stresses and unidirectional loading ..... C. H. Hsueh <i>et al.</i> <b>1809</b>
	A multiplanar model for the pore radius distribution in isotropic near-planar stochastic fibre networks ..... W. W. Sampson <b>1617</b>
<b>Nanocomposites</b>	Synthesis of nanocomposite thin films containing Ag-Au alloy colloids for wavelength tunability ..... G. Suyal <i>et al.</i> <b>1645</b>

(Continued)

<b>Nanomaterials</b>	Reactor length-scale modeling of chemical vapor deposition of carbon nanotubes ... M. Grujicic <i>et al.</i>	<b>1819</b>
<b>Nondestructive testing</b>	Lamb wave evaluation and localization of transverse cracks in cross-ply laminates ... N. Toyama <i>et al.</i>	<b>1765</b>
<b>Optical materials and properties</b>	Synthesis of nanocomposite thin films containing Ag-Au alloy colloids for wavelength tunability .....	G. Suyal <i>et al.</i> <b>1645</b>
<b>Piezoelectric materials</b>	The effect of poling treatment and crystal structure of PZT on fracture toughness and fatigue resistance .....	W.-P. Tai <i>et al.</i> <b>1787</b>
<b>Porosity</b>	A multiplanar model for the pore radius distribution in isotropic near-planar stochastic fibre networks .....	W. W. Sampson <b>1617</b>
<b>Powder technology</b>	On enhancing the interfacial chemistry of a simulated AA2014-SiC <sub>p</sub> composite material .....	W. F. Caley <i>et al.</i> <b>1755</b>
<b>Sol-gel preparation</b>	Synthesis of nanocomposite thin films containing Ag-Au alloy colloids for wavelength tunability .....	G. Suyal <i>et al.</i> <b>1645</b>
