

CONTENTS BY KEYWORD

Adhesion	Plate model to evaluate interfacial adhesion of anisotropy thin film in CSN test X. Zheng <i>et al.</i>	4013
	Electrostatic assisted formation of porous ceramic film G. Li <i>et al.</i>	4067
Amorphous materials	Devitrification of Al-Ni-Rare Earth amorphous alloys L. Battezzati <i>et al.</i>	3927
	Role of minor alloying additions in formation of bulk metallic glasses: A Review Z. P. Lu <i>et al.</i>	3965
	Geothermal waste: An alternative replacement material of Portland cement L. Y. Gómez-Zamorano <i>et al.</i>	4021
Anisotropy	Plate model to evaluate interfacial adhesion of anisotropy thin film in CSN test X. Zheng <i>et al.</i>	4013
Annealing	Fission tracks in solids—production mechanisms and natural origins R. L. Fleischer	3901
Biomaterials	Novel coating technique for preparation of hydroxyapatite/Ti composite Y. Liu <i>et al.</i>	4031
Blends	Geothermal waste: An alternative replacement material of Portland cement L. Y. Gómez-Zamorano <i>et al.</i>	4021
	Influence of heat treatment on toughening of polyethylene-octene copolymer (POE)/poly(ethylene terephthalate) (PET) blends C. Jun <i>et al.</i>	4049
Catalysts	Effect of aging temperature on CeO ₂ formation in homogeneous precipitation M. Ozawa	4035
Ceramics	Effect of aging temperature on CeO ₂ formation in homogeneous precipitation M. Ozawa	4035
	New zirconium hydroxide G. Y. Guo <i>et al.</i>	4039
	Preparation and characterization of YBa ₂ Cu ₃ O _{7-x} superconductor by means of a novel method combining sol-gel and combustion synthesis techniques C.-H. Peng <i>et al.</i>	4057
	Role of templating agents on the growth morphology of AlPO ₄ L. C. Pathak <i>et al.</i>	4069
Coatings	Novel coating technique for preparation of hydroxyapatite/Ti composite Y. Liu <i>et al.</i>	4031
	Electrodeposition and mechanical properties of Ni-La ₂ O ₃ nanocomposites Y.-J. Xue <i>et al.</i>	4063
	Electrostatic assisted formation of porous ceramic film G. Li <i>et al.</i>	4067
Composite materials	A review of directionally solidified intermetallic composites for high-temperature structural applications H. Bei <i>et al.</i>	3975
	Novel coating technique for preparation of hydroxyapatite/Ti composite Y. Liu <i>et al.</i>	4031
	Influence of heat treatment on toughening of polyethylene-octene copolymer (POE)/poly(ethylene terephthalate) (PET) blends C. Jun <i>et al.</i>	4049
	Electrodeposition and mechanical properties of Ni-La ₂ O ₃ nanocomposites Y.-J. Xue <i>et al.</i>	4063
	Creep behavior of MoSi ₂ and MoSi ₂ + SiC composite P. Hvizdoš <i>et al.</i>	4073
Computer simulations	Influence of residual stresses in the performance of cold-drawn pearlitic wires M. Elices	3889
Crystal growth	Role of templating agents on the growth morphology of AlPO ₄ L. C. Pathak <i>et al.</i>	4069
Crystallization	Role of minor alloying additions in formation of bulk metallic glasses: A Review Z. P. Lu <i>et al.</i>	3965
Defects	Fission tracks in solids—production mechanisms and natural origins R. L. Fleischer	3901
Diffusion	Reliability of the diffusion-multiple approach for phase diagram mapping J.-C. Zhao	3913
Electronic materials	High photoconductivity properties of perylene polyimide containing triarylamine unit H. Niu <i>et al.</i>	4053
Filter	Electrostatic assisted formation of porous ceramic film G. Li <i>et al.</i>	4067
Glasses	Fission tracks in solids—production mechanisms and natural origins R. L. Fleischer	3901
Hardness	Electrodeposition and mechanical properties of Ni-La ₂ O ₃ nanocomposites Y.-J. Xue <i>et al.</i>	4063
Heat treatment	Grain-size dependent austenite-ferrite phase transformation behavior in pure iron Y. C. Liu	4009
	Phase diagram on the system SnO ₂ -V ₂ O ₅ -MoO ₃ Y. Ivanova <i>et al.</i>	4037
Infrared spectroscopy	New zirconium hydroxide G. Y. Guo <i>et al.</i>	4039
Interfaces	Grain-size dependent austenite-ferrite phase transformation behavior in pure iron Y. C. Liu	4009
Intermetallic alloys and compounds	A review of directionally solidified intermetallic composites for high-temperature structural applications H. Bei <i>et al.</i>	3975
Mechanical properties	Influence of residual stresses in the performance of cold-drawn pearlitic wires M. Elices	3889
	Geothermal waste: An alternative replacement material of Portland cement L. Y. Gómez-Zamorano <i>et al.</i>	4021
	Creep behavior of MoSi ₂ and MoSi ₂ + SiC composite P. Hvizdoš <i>et al.</i>	4073

(Continued)

Metals and alloys	Reliability of the diffusion-multiple approach for phase diagram mapping J.-C. Zhao	3913
Microstructure	A review of directionally solidified intermetallic composites for high-temperature structural applications H. Bei <i>et al.</i>	3975
	Creep behavior of MoSi ₂ and MoSi ₂ + SiC composite P. Hvizdoš <i>et al.</i>	4073
Mineral	Fission tracks in solids—production mechanisms and natural origins R. L. Fleischer	3901
Nanocomposites	Electrodeposition and mechanical properties of Ni–La ₂ O ₃ nanocomposites Y.-J. Xue <i>et al.</i>	4063
Nanomaterials	Effect of drying rate on mesoporous silica morphology templated from PEO-PPO-PEO block copolymer assemblies L. Pei <i>et al.</i>	4045
Optical materials and properties	Optical properties of Rh6G:C337 dye mixture in the sol-gel silica matrix D. W. Choi <i>et al.</i>	4017
Organic compounds	Optical properties of Rh6G:C337 dye mixture in the sol-gel silica matrix D. W. Choi <i>et al.</i>	4017
Phase diagrams	Reliability of the diffusion-multiple approach for phase diagram mapping J.-C. Zhao	3913
	Phase diagram on the system SnO ₂ –V ₂ O ₅ –MoO ₃ Y. Ivanova <i>et al.</i>	4037
Phase transformations	Devitrification of Al-Ni-Rare Earth amorphous alloys L. Battezzati <i>et al.</i>	3927
	Grain-size dependent austenite–ferrite phase transformation behavior in pure iron Y. C. Liu	4009
	Phase diagram on the system SnO ₂ –V ₂ O ₅ –MoO ₃ Y. Ivanova <i>et al.</i>	4037
Photoreactive materials	High photoconductivity properties of perylene polyimide containing triarylamine unit H. Niu <i>et al.</i>	4053
Polymers	Influence of heat treatment on toughening of polyethylene-octene copolymer (POE)/poly(ethylene terephthalate) (PET) blends C. Jun <i>et al.</i>	4049
	High photoconductivity properties of perylene polyimide containing triarylamine unit H. Niu <i>et al.</i>	4053
Porosity	Role of templating agents on the growth morphology of AlPO ₄ L. C. Pathak <i>et al.</i>	4069
Powder technology	Effect of aging temperature on CeO ₂ formation in homogeneous precipitation M. Ozawa	4035
Sol-gel preparation	Optical properties of Rh6G:C337 dye mixture in the sol-gel silica matrix D. W. Choi <i>et al.</i>	4017
	Effect of drying rate on mesoporous silica morphology templated from PEO-PPO-PEO block copolymer assemblies L. Pei <i>et al.</i>	4045
	Preparation and characterization of YBa ₂ Cu ₃ O _{7-x} superconductor by means of a novel method combining sol–gel and combustion synthesis techniques C.-H. Peng <i>et al.</i>	4057
Solidification	Devitrification of Al-Ni-Rare Earth amorphous alloys L. Battezzati <i>et al.</i>	3927
Superconductors	Preparation and characterization of YBa ₂ Cu ₃ O _{7-x} superconductor by means of a novel method combining sol–gel and combustion synthesis techniques C.-H. Peng <i>et al.</i>	4057
Surfaces	Electrodeposition and mechanical properties of Ni–La ₂ O ₃ nanocomposites Y.-J. Xue <i>et al.</i>	4063
Surfactant	Effect of drying rate on mesoporous silica morphology templated from PEO-PPO-PEO block copolymer assemblies L. Pei <i>et al.</i>	4045
	Role of templating agents on the growth morphology of AlPO ₄ L. C. Pathak <i>et al.</i>	4069
Thermal properties	Role of minor alloying additions in formation of bulk metallic glasses: A Review Z. P. Lu <i>et al.</i>	3965
	New zirconium hydroxide G. Y. Guo <i>et al.</i>	4039
Thin and thick film coatings	Plate model to evaluate interfacial adhesion of anisotropy thin film in CSN test X. Zheng <i>et al.</i>	4013
X-ray techniques	Influence of residual stresses in the performance of cold-drawn pearlitic wires M. Elices	3889
	Electrodeposition and mechanical properties of Ni–La ₂ O ₃ nanocomposites Y.-J. Xue <i>et al.</i>	4063
