

CONTENTS BY KEYWORD

Adsorption	Polyelectrolyte adsorption and rheological behavior of ITO nanoparticles in ethanol with ammonium polyacrylate as a surfactant N. Chen <i>et al.</i>	4133
Amorphous materials	Swelling of acetylated wood in organic solvents E. Obataya <i>et al.</i>	4113
Cellular materials	Effects of density and strain rate on properties of syntactic foams E. Woldesenbet <i>et al.</i>	4009
Ceramics	Effect of addition of Cr on the sintering of TiB ₂ ceramics Y. S. Kang <i>et al.</i>	4153
Characterization method	Removal of metallic impurities from zirconium by hydrogen plasma arc melting J.-W. Lim <i>et al.</i>	4109
	Organic contaminants removal by N ₂ O plasma treatment D. K. Kim <i>et al.</i>	4137
Coatings	Effect of the particle size of nanosilica on the performance of epoxy/silica composite coatings J. Yuan <i>et al.</i>	3927
	Reactive thermal spraying of TiC-Fe composite coating by using asphalt as carbonaceous precursor H. Liu <i>et al.</i>	4149
Composite materials	Effects of density and strain rate on properties of syntactic foams E. Woldesenbet <i>et al.</i>	4009
	Reactive thermal spraying of TiC-Fe composite coating by using asphalt as carbonaceous precursor H. Liu <i>et al.</i>	4149
Corrosion and oxidation	Corrosion resistance evaluation of the UNS S31803 duplex stainless steels aged at low temperatures (350 to 550°C) using DLEPR tests S. S. M. Tavares <i>et al.</i>	4025
Crystal growth	Cd ₂ P ₂ Se ₆ nanolenses formed at a water–air interface D. Kang <i>et al.</i>	4097
	On the structure of ZnI ₂ P. Arun	4141
Defects	Removal of metallic impurities from zirconium by hydrogen plasma arc melting J.-W. Lim <i>et al.</i>	4109
Deformation and fracture	Effects of nano-sized α_2 (Ti ₃ Al) particles on quasi-static and dynamic deformation behavior of Ti-6Al-4V alloy with bimodal microstructure D.-G. Lee <i>et al.</i>	4077
Diffusion	Microstructural and electrical resistance analysis of laser-processed SiC substrates for wide bandgap semiconductor materials I. A. Salama <i>et al.</i>	3969
Elastic properties	New pyrochlore type semiconducting ceramic oxides: Ca ₃ Ce _{3-<i>x</i>} Bi _{<i>x</i>} Ti ₇ Nb ₂ O _{26.5} (<i>x</i> = 0.5, 1.0, 2.0, or 3.0)—structure, microstructure and electrical properties P. P. Rao <i>et al.</i>	4085
Electrical properties	Microstructural and electrical resistance analysis of laser-processed SiC substrates for wide bandgap semiconductor materials I. A. Salama <i>et al.</i>	3969
Electron beam techniques	Cd ₂ P ₂ Se ₆ nanolenses formed at a water–air interface D. Kang <i>et al.</i>	4097
Electronic materials	Sol–gel synthesis and green luminescence of nanocrystalline Zn ₂ SiO ₄ :Mn phosphor M. S. Kwon <i>et al.</i>	4089
Fiber technologies	Swelling of acetylated wood in organic solvents E. Obataya <i>et al.</i>	4113
Fracture	A stochastic model of damage accumulation in complex microstructures V. Cannillo <i>et al.</i>	3993
	Fracture behaviour of notched and un-notched powder metallurgical (P/M) green compacts C. C. Degnan <i>et al.</i>	4117
Gas phase transport	β -Ga ₂ O ₃ nanorods crossing perpendicularly each other on MgO (100) substrate S. Kohiki <i>et al.</i>	4145
Laser processing	Fusion zone purification of metal containing oxide inclusions via laser welding M. L. Hu <i>et al.</i>	4125
Mechanical properties	Influence of milling media on the microstructure and mechanical properties of mechanically milled and sintered aluminium J. Cintas <i>et al.</i>	3911
	Sintering of a boron-doped injection moulded 17-4PH stainless steel H. Ö. Gülsoy <i>et al.</i>	4101
Metals and alloys	Corrosion resistance evaluation of the UNS S31803 duplex stainless steels aged at low temperatures (350 to 550°C) using DLEPR tests S. S. M. Tavares <i>et al.</i>	4025
	Sintering of a boron-doped injection moulded 17-4PH stainless steel H. Ö. Gülsoy <i>et al.</i>	4101
	Removal of metallic impurities from zirconium by hydrogen plasma arc melting J.-W. Lim <i>et al.</i>	4109
	Fusion zone purification of metal containing oxide inclusions via laser welding M. L. Hu <i>et al.</i>	4125
Microstructure	Influence of milling media on the microstructure and mechanical properties of mechanically milled and sintered aluminium J. Cintas <i>et al.</i>	3911
	A stochastic model of damage accumulation in complex microstructures V. Cannillo <i>et al.</i>	3993
	Effects of nano-sized α_2 (Ti ₃ Al) particles on quasi-static and dynamic deformation behavior of Ti-6Al-4V alloy with bimodal microstructure D.-G. Lee <i>et al.</i>	4077
	New pyrochlore type semiconducting ceramic oxides: Ca ₃ Ce _{3-<i>x</i>} Bi _{<i>x</i>} Ti ₇ Nb ₂ O _{26.5} (<i>x</i> = 0.5, 1.0, 2.0, or 3.0)—structure, microstructure and electrical properties P. P. Rao <i>et al.</i>	4085
	Sintering of a boron-doped injection moulded 17-4PH stainless steel H. Ö. Gülsoy <i>et al.</i>	4101
	β -Ga ₂ O ₃ nanorods crossing perpendicularly each other on MgO (100) substrate S. Kohiki <i>et al.</i>	4145

(Continued)

Modelling	A stochastic model of damage accumulation in complex microstructures V. Cannillo <i>et al.</i>	3993
Moulding	Sintering of a boron-doped injection moulded 17-4PH stainless steel H. Ö. Gülsoy <i>et al.</i>	4101
Nanocomposites	Effect of the particle size of nanosilica on the performance of epoxy/silica composite coatings J. Yuan <i>et al.</i>	3927
	Biodegradable aliphatic polyester-poly (epichlorohydrin) blend/organoclay nanocomposites; synthesis and rheological characterization C. H. Lee <i>et al.</i>	3981
Nanomaterials	Studies of Fe-doped SiO ₂ /TiO ₂ composite nanoparticles prepared by sol-gel-hydrothermal method Z. Li <i>et al.</i>	3939
	Sol-gel synthesis and green luminescence of nanocrystalline Zn ₂ SiO ₄ :Mn phosphor M. S. Kwon <i>et al.</i>	4089
	Cd ₂ P ₂ Se ₆ nanolenses formed at a water-air interface D. Kang <i>et al.</i>	4097
	Polyelectrolyte adsorption and rheological behavior of ITO nanoparticles in ethanol with ammonium polyacrylate as a surfactant N. Chen <i>et al.</i>	4133
	β -Ga ₂ O ₃ nanorods crossing perpendicularly each other on MgO (100) substrate S. Kohiki <i>et al.</i>	4145
Nondestructive testing	Sintering of a boron-doped injection moulded 17-4PH stainless steel H. Ö. Gülsoy <i>et al.</i>	4101
Optical materials and properties	Sol-gel synthesis and green luminescence of nanocrystalline Zn ₂ SiO ₄ :Mn phosphor M. S. Kwon <i>et al.</i>	4089
	Synthesis of a new green-emitting phosphor based on lanthanum oxycarbonate (La ₂ O ₂ CO ₃ -II) T. Masui <i>et al.</i>	4121
	Refractive elements produced in photopolymer layers F. T. O'Neill <i>et al.</i>	4129
Organic compounds	Swelling of acetylated wood in organic solvents E. Obataya <i>et al.</i>	4113
Phase transformations	Corrosion resistance evaluation of the UNS S31803 duplex stainless steels aged at low temperatures (350 to 550°C) using DLEPR tests S. S. M. Tavares <i>et al.</i>	4025
Polymers	Biodegradable aliphatic polyester-poly (epichlorohydrin) blend/organoclay nanocomposites; synthesis and rheological characterization C. H. Lee <i>et al.</i>	3981
	Refractive elements produced in photopolymer layers F. T. O'Neill <i>et al.</i>	4129
Porosity	Effects of density and strain rate on properties of syntactic foams E. Woldeesenbet <i>et al.</i>	4009
Powder technology	Influence of milling media on the microstructure and mechanical properties of mechanically milled and sintered aluminium J. Cintas <i>et al.</i>	3911
	Studies of Fe-doped SiO ₂ /TiO ₂ composite nanoparticles prepared by sol-gel-hydrothermal method Z. Li <i>et al.</i>	3939
	Sintering of a boron-doped injection moulded 17-4PH stainless steel H. Ö. Gülsoy <i>et al.</i>	4101
	Fracture behaviour of notched and un-notched powder metallurgical (P/M) green compacts C. C. Degnan <i>et al.</i>	4117
	Synthesis of a new green-emitting phosphor based on lanthanum oxycarbonate (La ₂ O ₂ CO ₃ -II) T. Masui <i>et al.</i>	4121
Semiconductors	Microstructural and electrical resistance analysis of laser-processed SiC substrates for wide bandgap semiconductor materials I. A. Salama <i>et al.</i>	3969
	New pyrochlore type semiconducting ceramic oxides: Ca ₃ Ce _{3-x} Bi _x Ti ₇ Nb ₂ O _{26.5} (x = 0.5, 1.0, 2.0, or 3.0)—structure, microstructure and electrical properties P. P. Rao <i>et al.</i>	4085
	Organic contaminants removal by N ₂ O plasma treatment D. K. Kim <i>et al.</i>	4137
Sintering	Sintering of a boron-doped injection moulded 17-4PH stainless steel H. Ö. Gülsoy <i>et al.</i>	4101
	Effect of addition of Cr on the sintering of TiB ₂ ceramics Y. S. Kang <i>et al.</i>	4153
Sol-gel preparation	Studies of Fe-doped SiO ₂ /TiO ₂ composite nanoparticles prepared by sol-gel-hydrothermal method Z. Li <i>et al.</i>	3939
	Sol-gel synthesis and green luminescence of nanocrystalline Zn ₂ SiO ₄ :Mn phosphor M. S. Kwon <i>et al.</i>	4089
Surfaces	Refractive elements produced in photopolymer layers F. T. O'Neill <i>et al.</i>	4129
	Organic contaminants removal by N ₂ O plasma treatment D. K. Kim <i>et al.</i>	4137
Surfactant	Polyelectrolyte adsorption and rheological behavior of ITO nanoparticles in ethanol with ammonium polyacrylate as a surfactant N. Chen <i>et al.</i>	4133
Viscoelasticity	Biodegradable aliphatic polyester-poly (epichlorohydrin) blend/organoclay nanocomposites; synthesis and rheological characterization C. H. Lee <i>et al.</i>	3981
Wear	Reactive thermal spraying of TiC-Fe composite coating by using asphalt as carbonaceous precursor H. Liu <i>et al.</i>	4149
X-ray techniques	New pyrochlore type semiconducting ceramic oxides: Ca ₃ Ce _{3-x} Bi _x Ti ₇ Nb ₂ O _{26.5} (x = 0.5, 1.0, 2.0, or 3.0)—structure, microstructure and electrical properties P. P. Rao <i>et al.</i>	4085
