

CONTENTS BY KEYWORD

Bonding	Effective thermal conductivity and effective thermal diffusivity of $\text{Se}_{100-x}\text{Zn}_x$ chalcogenide system N. S. Saxena <i>et al.</i>	523
Ceramics	Dynamic fatigue of alumina J. H. Selverian	495
	Preparation and dielectric properties of $\text{Sr}_5\text{LnSn}_3\text{Nb}_7\text{O}_{30}$ (Ln = Nd, La) ceramics H. Zhang <i>et al.</i>	515
	Preparation, structural, and dielectric properties of $\text{Ba}_5\text{YZnM}_9\text{O}_{30}$ (M = Nb, Ta) ceramics L. Fang <i>et al.</i>	533
Composite materials	Melt flow properties of polypropylene/EPDM/glass bead ternary composites J.-Z. Liang	329
	Effect of thermomagnetic treatment on microstructure and tensile properties of aluminum borate whisker reinforced aluminum composite containing Fe_3O_4 particles G. Li <i>et al.</i>	511
Crystal growth	Effect of excess PbO and sintering temperature on the templated grain growth of $\text{Pb}(\text{Mg}_{1/3}\text{Nb}_{2/3})_{0.67}\text{Ti}_{0.33}\text{O}_3$ polycrystals L. Zhao <i>et al.</i>	449
Crystallization	Flow stress of Ni-rich NiTi thin films F. Meng <i>et al.</i>	537
Defects	Effective thermal conductivity and effective thermal diffusivity of $\text{Se}_{100-x}\text{Zn}_x$ chalcogenide system N. S. Saxena <i>et al.</i>	523
Deposition techniques	Galvanic-fabrication of CdS microstructures using nuclear track filter membranes S. K. Chakarvarti <i>et al.</i>	503
	Synthesis and characterization of ion-crafted nano/micro field ion emitters S. Kumar <i>et al.</i>	525
Electrical properties	Structural and dielectric properties of ferroelectric $\text{Sr}_4\text{R}_2\text{Ti}_4\text{Nb}_6\text{O}_{30}$ (R = Sm and Nd) ceramics H. Zhang <i>et al.</i>	529
Electronic materials	Preparation and dielectric properties of $\text{Sr}_5\text{LnSn}_3\text{Nb}_7\text{O}_{30}$ (Ln = Nd, La) ceramics H. Zhang <i>et al.</i>	515
	Structural and dielectric properties of ferroelectric $\text{Sr}_4\text{R}_2\text{Ti}_4\text{Nb}_6\text{O}_{30}$ (R = Sm and Nd) ceramics H. Zhang <i>et al.</i>	529
	Preparation, structural, and dielectric properties of $\text{Ba}_5\text{YZnM}_9\text{O}_{30}$ (M = Nb, Ta) ceramics L. Fang <i>et al.</i>	533
Fatigue	Predicting fatigue S-N (stress-number of cycles to fail) behavior of reinforced plastics using fracture mechanics theory M. G. Wyzgoski <i>et al.</i>	295
	Dynamic fatigue of alumina J. H. Selverian	495
Fiber technologies	Effect of strain rate on the mechanical behaviors of SiC fiber W. Huang <i>et al.</i>	465
Filter	Galvanic-fabrication of CdS microstructures using nuclear track filter membranes S. K. Chakarvarti <i>et al.</i>	503
	Synthesis and characterization of ion-crafted nano/micro field ion emitters S. Kumar <i>et al.</i>	525
Fracture	Predicting fatigue S-N (stress-number of cycles to fail) behavior of reinforced plastics using fracture mechanics theory M. G. Wyzgoski <i>et al.</i>	295
	Dynamic fatigue of alumina J. H. Selverian	495
Glasses	Effective thermal conductivity and effective thermal diffusivity of $\text{Se}_{100-x}\text{Zn}_x$ chalcogenide system N. S. Saxena <i>et al.</i>	523
Heat treatment	Flow stress of Ni-rich NiTi thin films F. Meng <i>et al.</i>	537
Laser processing	Microscopic spheroidal particles obtained by laser cutting E. D. Cabanillas <i>et al.</i>	519
Magnetic materials	Effect of thermomagnetic treatment on microstructure and tensile properties of aluminum borate whisker reinforced aluminum composite containing Fe_3O_4 particles G. Li <i>et al.</i>	511
Mechanical properties	Effect of strain rate on the mechanical behaviors of SiC fiber W. Huang <i>et al.</i>	465
Microstructure	Effect of excess PbO and sintering temperature on the templated grain growth of $\text{Pb}(\text{Mg}_{1/3}\text{Nb}_{2/3})_{0.67}\text{Ti}_{0.33}\text{O}_3$ polycrystals L. Zhao <i>et al.</i>	449
	Galvanic-fabrication of CdS microstructures using nuclear track filter membranes S. K. Chakarvarti <i>et al.</i>	503
	Effect of thermomagnetic treatment on microstructure and tensile properties of aluminum borate whisker reinforced aluminum composite containing Fe_3O_4 particles G. Li <i>et al.</i>	511
	Synthesis and characterization of ion-crafted nano/micro field ion emitters S. Kumar <i>et al.</i>	525
Modelling	Effect of strain rate on the mechanical behaviors of SiC fiber W. Huang <i>et al.</i>	465
Piezoelectric materials	Effect of excess PbO and sintering temperature on the templated grain growth of $\text{Pb}(\text{Mg}_{1/3}\text{Nb}_{2/3})_{0.67}\text{Ti}_{0.33}\text{O}_3$ polycrystals L. Zhao <i>et al.</i>	449

(Continued)

Polymers	Predicting fatigue S-N (stress-number of cycles to fail) behavior of reinforced plastics using fracture mechanics theory M. G. Wyzgoski <i>et al.</i>	295
	Melt flow properties of polypropylene/EPDM/glass bead ternary composites J.-Z. Liang	329
	Galvanic-fabrication of CdS microstructures using nuclear track filter membranes S. K. Chakarvarti <i>et al.</i>	503
	Synthesis and characterization of ion-crafted nano/micro field ion emitters S. Kumar <i>et al.</i>	525
Powder technology	Microscopic spheroidal particles obtained by laser cutting E. D. Cabanillas <i>et al.</i>	519
Semiconductores	Effective thermal conductivity and effective thermal diffusivity of $\text{Se}_{100-x}\text{Zn}_x$ chalcogenide system N. S. Saxena <i>et al.</i>	523
Thermal properties	Effective thermal conductivity and effective thermal diffusivity of $\text{Se}_{100-x}\text{Zn}_x$ chalcogenide system N. S. Saxena <i>et al.</i>	523
Thin and thick film coatings	Flow stress of Ni-rich NiTi thin films F. Meng <i>et al.</i>	537
Viscosity	Melt flow properties of polypropylene/EPDM/glass bead ternary composites J.-Z. Liang	329
X-ray techniques	Preparation and dielectric properties of $\text{Sr}_5\text{LnSn}_3\text{Nb}_7\text{O}_{30}$ (Ln = Nd, La) ceramics H. Zhang <i>et al.</i>	515
	Structural and dielectric properties of ferroelectric $\text{Sr}_4\text{R}_2\text{Ti}_4\text{Nb}_6\text{O}_{30}$ (R = Sm and Nd) ceramics H. Zhang <i>et al.</i>	529
	Preparation, structural, and dielectric properties of $\text{Ba}_5\text{YZnM}_9\text{O}_{30}$ (M = Nb, Ta) ceramics L. Fang <i>et al.</i>	533
