

CONTENTS BY KEYWORD

Adhesion	Reactive wetting of rutile by liquid aluminium S. Avraham <i>et al.</i>	1093
Annealing	Effect of annealing temperature on tensile behavior of 5052 Al alloy deformed at cryogenic temperature Y. B. Lee <i>et al.</i>	1313
Biomaterials	The mechanical properties of lettuce: A comparison of some agronomic and postharvest effects J. M. Newman <i>et al.</i>	1101
	Template synthesis of highly ordered hydroxyapatite nanowire arrays Z. Yang <i>et al.</i>	1121
Catalysts	Photocatalytic activity TiO ₂ granular films prepared by layer-by-layer self-assembly method W. Hao <i>et al.</i>	1251
	Pore-size control in the sol-gel synthesis of mesoporous silicon carbide X.-Y. Guo <i>et al.</i>	1301
Ceramics	Effect of Mg addition on the self-propagating high temperature synthesis reaction in Al-Ti-C system H. Y. Wang <i>et al.</i>	1255
	Influence of cobalt oxide addition on electrical properties of ZnO-Pr ₆ O ₁₁ -based varistor ceramics C.-W. Nahm	1265
	Structure and electrical properties of SrCoO _{3-δ} doped by CeO ₂ Q. T. Wei <i>et al.</i>	1317
Coatings	Corrosion behavior of carbon implanted ZIRLO alloy in 1 M H ₂ SO ₄ D. Q. Peng <i>et al.</i>	1169
Composite materials	Metal-nonmetal transition and the electronic transport behavior in disordered PbO ₂ -Ag ₂ O-x C system synthesized by ball milling D. Li <i>et al.</i>	1087
	Effect of Mg addition on the self-propagating high temperature synthesis reaction in Al-Ti-C system H. Y. Wang <i>et al.</i>	1255
	Comparisons of thermal properties between inorganic filler and acid-treated multiwall nanotube/polymer composites G.-W. Lee <i>et al.</i>	1259
Corrosion and oxidation	Corrosion behavior of carbon implanted ZIRLO alloy in 1 M H ₂ SO ₄ D. Q. Peng <i>et al.</i>	1169
Defects	Effect of microfissures on mechanical properties of 308L austenitic stainless steel weld metals Y. Cui <i>et al.</i>	1281
Elastic properties	Elastic constants determination for Fe ³⁺ substituted YIG through infra-red spectroscopy and heterogeneous metal mixture rule K. B. Modi <i>et al.</i>	1247
Electrical properties	Metal-nonmetal transition and the electronic transport behavior in disordered PbO ₂ -Ag ₂ O-x C system synthesized by ball milling D. Li <i>et al.</i>	1087
	Influence of cobalt oxide addition on electrical properties of ZnO-Pr ₆ O ₁₁ -based varistor ceramics C.-W. Nahm	1265
	Effect of dielectric constant of solvent on the conductivity behavior of polymer gel electrolytes R. Kumar <i>et al.</i>	1273
	Study of mesophase pitch-based graphite foam used as anodic materials in lithium ion rechargeable batteries J. Yang <i>et al.</i>	1285
	Structure and electrical properties of SrCoO _{3-δ} doped by CeO ₂ Q. T. Wei <i>et al.</i>	1317
Electrochemistry	Corrosion behavior of carbon implanted ZIRLO alloy in 1 M H ₂ SO ₄ D. Q. Peng <i>et al.</i>	1169
Fatigue	Fracture initiation revealed by variations in the fatigue fracture morphologies of PA 66 and PET fibers J. M. H. Ramirez <i>et al.</i>	1269
Ferroelectrics	Size driven phase transition of barium titanate nanoparticles prepared by plasma chemical vapor deposition K. Suzuki <i>et al.</i>	1289
Fiber technologies	Research on the interaction of three contact fibers in the fiber suspensions J. Lin <i>et al.</i>	1183
	Fracture initiation revealed by variations in the fatigue fracture morphologies of PA 66 and PET fibers J. M. H. Ramirez <i>et al.</i>	1269
Fracture	Fracture initiation revealed by variations in the fatigue fracture morphologies of PA 66 and PET fibers J. M. H. Ramirez <i>et al.</i>	1269
Heat treatment	Photocatalytic activity TiO ₂ granular films prepared by layer-by-layer self-assembly method W. Hao <i>et al.</i>	1251
Hydrolysis	Effects of organic acids on sol-gel transition of silicic acid—A rheological study M. K. Naskar	1309
Infrared spectroscopy	Elastic constants determination for Fe ³⁺ substituted YIG through infra-red spectroscopy and heterogeneous metal mixture rule K. B. Modi <i>et al.</i>	1247
Intercalation	Study of mesophase pitch-based graphite foam used as anodic materials in lithium ion rechargeable batteries J. Yang <i>et al.</i>	1285
Interfaces	Reactive wetting of rutile by liquid aluminium S. Avraham <i>et al.</i>	1093

(Continued)

Mechanical properties	The mechanical properties of lettuce: A comparison of some agronomic and postharvest effects J. M. Newman <i>et al.</i>	1101
	Effect of microfissures on mechanical properties of 308L austenitic stainless steel weld metals Y. Cui <i>et al.</i>	1281
	Effect of annealing temperature on tensile behavior of 5052 Al alloy deformed at cryogenic temperature Y. B. Lee <i>et al.</i>	1313
Metals and alloys	Effect of annealing temperature on tensile behavior of 5052 Al alloy deformed at cryogenic temperature Y. B. Lee <i>et al.</i>	1313
Microstructure	Reactive wetting of rutile by liquid aluminium S. Avraham <i>et al.</i>	1093
	The mechanical properties of lettuce: A comparison of some agronomic and postharvest effects J. M. Newman <i>et al.</i>	1101
	Research on the interaction of three contact fibers in the fiber suspensions J. Lin <i>et al.</i>	1183
	Effect of Mg addition on the self-propagating high temperature synthesis reaction in Al-Ti-C system H. Y. Wang <i>et al.</i>	1255
	Structural and vibrational properties of Ba _x Sr _{1-x} TiO ₃ nanoparticles C. T. Lee <i>et al.</i>	1277
	Novel solid-cored carbon nanofiber grown on steels substrates in ethanol flames C. Pan <i>et al.</i>	1293
Nanomaterials	Template synthesis of highly ordered hydroxyapatite nanowire arrays Z. Yang <i>et al.</i>	1121
	Photocatalytic activity TiO ₂ granular films prepared by layer-by-layer self-assembly method W. Hao <i>et al.</i>	1251
	Comparisons of thermal properties between inorganic filler and acid-treated multiwall nanotube/polymer composites G.-W. Lee <i>et al.</i>	1259
	Structural and vibrational properties of Ba _x Sr _{1-x} TiO ₃ nanoparticles C. T. Lee <i>et al.</i>	1277
	Size driven phase transition of barium titanate nanoparticles prepared by plasma chemical vapor deposition K. Suzuki <i>et al.</i>	1289
	Novel solid-cored carbon nanofiber grown on steels substrates in ethanol flames C. Pan <i>et al.</i>	1293
	Pore-size control in the sol-gel synthesis of mesoporous silicon carbide X.-Y. Guo <i>et al.</i>	1301
	Synthesis of cubic fluorite CeO ₂ nanowires R. Yang <i>et al.</i>	1305
Nonlinear properties	Influence of cobalt oxide addition on electrical properties of ZnO-Pr ₆ O ₁₁ -based varistor ceramics C.-W. Nahm	1265
Optical materials and properties	Structural and vibrational properties of Ba _x Sr _{1-x} TiO ₃ nanoparticles C. T. Lee <i>et al.</i>	1277
Phase transformations	Size driven phase transition of barium titanate nanoparticles prepared by plasma chemical vapor deposition K. Suzuki <i>et al.</i>	1289
Polymers	Effect of dielectric constant of solvent on the conductivity behavior of polymer gel electrolytes R. Kumar <i>et al.</i>	1273
Porosity	Elastic constants determination for Fe ³⁺ substituted YIG through infra-red spectroscopy and heterogeneous metal mixture rule K. B. Modi <i>et al.</i>	1247
Simulations	Research on the interaction of three contact fibers in the fiber suspensions J. Lin <i>et al.</i>	1183
Sol-gel preparation	Template synthesis of highly ordered hydroxyapatite nanowire arrays Z. Yang <i>et al.</i>	1121
	Pore-size control in the sol-gel synthesis of mesoporous silicon carbide X.-Y. Guo <i>et al.</i>	1301
	Synthesis of cubic fluorite CeO ₂ nanowires R. Yang <i>et al.</i>	1305
	Effects of organic acids on sol-gel transition of silicic acid—A rheological study M. K. Naskar	1309
	Structure and electrical properties of SrCoO _{3-δ} doped by CeO ₂ Q. T. Wei <i>et al.</i>	1317
Thermal properties	Comparisons of thermal properties between inorganic filler and acid-treated multiwall nanotube/polymer composites G.-W. Lee <i>et al.</i>	1259
Transport mechanism	Metal-nonmetal transition and the electronic transport behavior in disordered PbO ₂ -Ag ₂ O-x C system synthesized by ball milling D. Li <i>et al.</i>	1087
Transport mechanism	Effect of dielectric constant of solvent on the conductivity behavior of polymer gel electrolytes R. Kumar <i>et al.</i>	1273
Viscoelasticity	Effects of organic acids on sol-gel transition of silicic acid—A rheological study M. K. Naskar	1309
Viscosity	Effects of organic acids on sol-gel transition of silicic acid—A rheological study M. K. Naskar	1309
X-ray techniques	Elastic constants determination for Fe ³⁺ substituted YIG through infra-red spectroscopy and heterogeneous metal mixture rule K. B. Modi <i>et al.</i>	1247
