

Additions and Corrections

1996, Volume 29

Ian B. Parr, Susan K. Boehlein, Anthony B. Dribben, Sheldon M. Schuster, and Nigel G. J. Richards*: Mapping the Aspartic Acid Binding Site of *Escherichia coli* Asparagine Synthetase B Using Substrate Analogs.

There are minor numbering errors affecting compounds **2–7**. These do not, however, affect the inhibition data or scientific conclusions. Scheme 1 is correct as published, as are the experimental data for compounds **2–5**, **8**, and **9**. The experimental data for **6** and **7** are interchanged. On page 2367 (last paragraph), 3:1 mixture should be changed to 1:3 mixture. On page 2368, major product **6** should be changed to minor product **6**. A revised experimental section for **2–7** is available from the author upon request.
