

Additions and Corrections

1997, Volume 40

Giovanni Sorba, Claudio Medana, Roberta Fruttero, Clara Cena, Antonella Di Stilo, Ubaldina Galli, and Alberto Gasco: Water Soluble Furoxan Derivatives as NO Prodrugs.

Page 467. The corrected equations should be as follows:

$$\log EC_{50} = 1.02 (\pm 0.18) \log C_{0.1}^{\text{min}} - 2.98 (\pm 0.66) \quad (1)$$

$$n = 12 \quad r = 0.88 \quad s = 0.51 \quad F = 34.4$$

$$\log EC_{50} = 1.16 (\pm 0.12) \log C_{0.1}^{\text{min}} - 2.36 (\pm 0.47) \quad (2)$$

$$n = 11 \quad r = 0.95 \quad s = 0.34 \quad F = 89.0$$
