Lei Ji, Fen-Er Chen,* Erik De Clercq, Jan Balzarini, and Christophe Pannecouque: Synthesis and Anti-HIV-1 Activity Evaluation of 5-Alkyl-2-alkylthio-6-(arylcarbonyl or α -cyanoarylmethyl)-3,4-dihydropyrimidin-4(3*H*)-ones as Novel Non-nucleoside HIV-1 Reverse Transcriptase Inhibitors.

Page 1778. In the 5th line of the Abstract and in the 9th and 10th lines of the Results and Discussion, the values of IC₅₀ and SI for compound **3g** are incorrect. The correct values are the following: 0.23 μ M and 1033, respectively.

Page 1780. In Table 1, the correct values of IC₅₀, CC₅₀, and SI for compound **3g** are 0.23 \pm 0.02, 256.52 \pm 13.65, and 1033.

Page 1780. In the 5th line from the bottom in the left column of text, the correct value is "0.09" and not "0.002".

Brian Y. Feng and Brian K. Shoichet*: Synergy and Antagonism of Promiscuous Inhibition in Multiple-Compound Mixtures.

Supporting Information, Table 1. A new Table 1 has been posted to the web on 04/23/2007. The incorrect version posted to the web on 03/09/2006 contained the following incorrect information: with the **exception** of the entries in row 3, the numbers in columns 3 and 4 should be swapped. Likewise, the numbers in columns 7 and 8 should also be swapped. The Supporting Information, Table 1, posted to the web on 04/23/2007 has been corrected, incorporating these changes.
