

Correction to Structure–Activity Studies of Peptides from the “Hot-Spot” Region of Human CD2 Protein: Development of Peptides for Immunomodulation

Jining Liu, Jinfu Ying, Vincent T. K. Chow, Victor J. Hruby, and Seetharama D. Satyanarayanajois*

Journal of Medicinal Chemistry **2005**, *48*, 6236–6249. DOI: 10.1021/jm0503547

Pages 6236–6249. The authors unanimously acknowledge that there is modest duplication of portions of text in this 2005 *J. Med. Chem.* article with an article published earlier by the same group (cited as ref 17 in the article: *Eur. J. Biochem.* **2004**, *271*, 2873–2886). The authors state that the originality and integrity of the scientific content of both papers are intact and that the oversight is sincerely regretted.
