

## Subject Index

### Acid catalysis

- Kinetic method for the characterization of Brønsted sites on oxide surfaces. Part I. Trimethylortho-benzoate hydrolysis over a series of  $\text{Al}_2\text{O}_3/\text{SiO}_2$  mixed oxides 175

### Aldehyde

- Catalysis of transition metal-functionalized hydrotalcites for the Baeyer–Villiger oxidation of ketones in the presence of molecular oxygen and benzaldehyde 135

### Alumina

- Investigation of  $\text{MoS}_2$  on  $\gamma\text{-Al}_2\text{O}_3$  by HREM with atomic resolution 147

### Aluminium orthophosphate

- Synthesis of indole, benzofuran and benzothiophene by reaction of 2-anilinoethanol, 2-phenoxyethanol and 2-(phenylthio)ethanol on  $\text{AlPO}_4$  and  $\text{Pd}/\text{AlPO}_4$  catalysts 49

### Anilinoethanol

- Synthesis of indole, benzofuran and benzothiophene by reaction of 2-anilinoethanol, 2-phenoxyethanol and 2-(phenylthio)ethanol on  $\text{AlPO}_4$  and  $\text{Pd}/\text{AlPO}_4$  catalysts 49

### Anionic micelles

- Effects of anionic micelles on the intramolecular general base-catalyzed hydrolysis of phenyl and methyl salicylates 93

### Atomic resolution

- Investigation of  $\text{MoS}_2$  on  $\gamma\text{-Al}_2\text{O}_3$  by HREM with atomic resolution 147

### Baeyer–Villiger oxidation

- Catalysis of transition metal-functionalized hydrotalcites for the Baeyer–Villiger oxidation of ketones in the presence of molecular oxygen and benzaldehyde 135

### Base

- Effects of anionic micelles on the intramolecular general base-catalyzed hydrolysis of phenyl and methyl salicylates 93

### Benzofuran

- Synthesis of indole, benzofuran and benzothiophene by reaction of 2-anilinoethanol, 2-phenoxyethanol and 2-(phenylthio)ethanol on  $\text{AlPO}_4$  and  $\text{Pd}/\text{AlPO}_4$  catalysts 49

### Benzothiophene

- Synthesis of indole, benzofuran and benzothiophene by reaction of 2-anilinoethanol,

- 2-phenoxyethanol and 2-(phenylthio)ethanol on  $\text{AlPO}_4$  and  $\text{Pd}/\text{AlPO}_4$  catalysts 49

### Benzoylation

- Benzoylation of toluene with benzoyl chloride over zeolite catalysts 139

### Bipyridine

- Catalytic activity of ruthenium 2,2'-bipyridine derived catalysts in 1-hexene hydroformylation and 1-heptanal hydrogenation 79

### Carbon dioxide

- Synthesis of arylacetic acid derivatives from mandelic acid derivatives by hydrogen transfer from  $\text{H}_2\text{O}-\text{CO}$  catalyzed by a  $\text{Pd}/\text{C}-\text{HCl}$  system 129

### Carbon monoxide

- Hydrocarbon synthesis from  $\text{CO}$  and  $\text{H}_2$  on  $(\text{Fe} + \text{Pt})/\text{SiO}_2$  catalysts 103

### Carbonyl complexes

- Catalytic activity of ruthenium 2,2'-bipyridine derived catalysts in 1-hexene hydroformylation and 1-heptanal hydrogenation 79

### Carboxylic acids

- Synthesis of arylacetic acid derivatives from mandelic acid derivatives by hydrogen transfer from  $\text{H}_2\text{O}-\text{CO}$  catalyzed by a  $\text{Pd}/\text{C}-\text{HCl}$  system 129

### Cerium

- Esterification of 2,6-pyridinedicarboxylic acid with n-butanol catalyzed by heteropoly acid  $\text{H}_3\text{PW}_{12}\text{O}_{40}$  or its  $\text{Ce}(\text{III})$  salt 73

### Chiral auxiliary

- A new chiral auxiliary in enantioselective hydrogenations: (–)-dihydrovinpocetine. Part I. Hydrogenation of isophorone 41

### CNDO molecular orbital study

- Pyridine interaction with a partially hydrogenated  $\text{MoS}_2$  modelled surface. A molecular orbital study 163

### Copolymerization

- Copolymerization of ethylene and linear 1-olefins with a metallocene catalyst system under high pressure. Part I. Copolymerization of ethylene and propene 1

### Cyclohexyl hydroperoxide

- Decomposition of cyclohexyl hydroperoxide catalysed by ruthenium porphyrins. Hydroxylation of the solvent cyclohexane 117

- Cycloolefins**  
Cyclization of living polyalkenamers via intramolecular secondary metathesis. Dimerization of cycloheptene into cyclotetradeca-1,8-diene initiated by well-defined tungsten-carbene catalysts 7
- Cytochrome *c***  
Promoter effect of poly(4-vinylpyridine) on the direct electron transfer between cytochrome *c* and gold electrode 111
- Decomposition**  
Decomposition of cyclohexyl hydroperoxide catalysed by ruthenium porphyrins. Hydroxylation of the solvent cyclohexane 117
- Dihydrovinpocetine**  
A new chiral auxiliary in enantioselective hydrogenations: (–)-dihydrovinpocetine. Part I. Hydrogenation of isophorone 41
- Electron transfer**  
Promoter effect of poly(4-vinylpyridine) on the direct electron transfer between cytochrome *c* and gold electrode 111
- Enantioselectivity**  
Ruthenium catalyzed epoxidations: mechanistic and synthetic aspects 23  
A new chiral auxiliary in enantioselective hydrogenations: (–)-dihydrovinpocetine. Part I. Hydrogenation of isophorone 41
- Epoxidation**  
Ruthenium catalyzed epoxidations: mechanistic and synthetic aspects 23
- Esterification**  
Esterification of 2,6-pyridinedicarboxylic acid with n-butanol catalyzed by heteropoly acid  $H_3PW_{12}O_{40}$  or its Ce(III) salt 73
- Ethene-propene copolymer**  
Microstructure of polypropene samples produced with different homogeneous bridged indenyl zirconium catalysts. Clues on the structure and reactivity relation 59
- Ethylene**  
Copolymerization of ethylene and linear 1-olefins with a metallocene catalyst system under high pressure. Part I. Copolymerization of ethylene and propene 1
- Gold**  
Promoter effect of poly(4-vinylpyridine) on the direct electron transfer between cytochrome *c* and gold electrode 111
- HDN**  
Pyridine interaction with a partially hydrogenated  $MoS_2$  modelled surface. A molecular orbital study 163
- Heptanol**  
Catalytic activity of ruthenium 2,2'-bipyridine derived catalysts in 1-hexene hydroformylation and 1-heptanal hydrogenation 79
- Heteropoly acid**  
Esterification of 2,6-pyridinedicarboxylic acid with n-butanol catalyzed by heteropoly acid  $H_3PW_{12}O_{40}$  or its Ce(III) salt 73
- Hexene**  
Catalytic activity of ruthenium 2,2'-bipyridine derived catalysts in 1-hexene hydroformylation and 1-heptanal hydrogenation 79
- High pressure/temperature**  
Copolymerization of ethylene and linear 1-olefins with a metallocene catalyst system under high pressure. Part I. Copolymerization of ethylene and propene 1
- HREM**  
Investigation of  $MoS_2$  on  $\gamma-Al_2O_3$  by HREM with atomic resolution 147
- Hydrochloric acid**  
Synthesis of arylacetic acid derivatives from mandelic acid derivatives by hydrogen transfer from  $H_2O-CO$  catalyzed by a Pd/C-HCl system 129
- Hydroformylation**  
Catalytic activity of ruthenium 2,2'-bipyridine derived catalysts in 1-hexene hydroformylation and 1-heptanal hydrogenation 79
- Hydrogen adsorption**  
Pyridine interaction with a partially hydrogenated  $MoS_2$  modelled surface. A molecular orbital study 163
- Hydrogenation**  
A new chiral auxiliary in enantioselective hydrogenations: (–)-dihydrovinpocetine. Part I. Hydrogenation of isophorone 41  
Catalytic activity of ruthenium 2,2'-bipyridine derived catalysts in 1-hexene hydroformylation and 1-heptanal hydrogenation 79  
Hydrocarbon synthesis from CO and  $H_2$  on (Fe + Pt)/ $SiO_2$  catalysts 103
- Hydrogenation mechanism**  
Pyridine interaction with a partially hydrogenated  $MoS_2$  modelled surface. A molecular orbital study 163
- Hydrogen transfer**  
Synthesis of arylacetic acid derivatives from mandelic acid derivatives by hydrogen transfer from  $H_2O-CO$  catalyzed by a Pd/C-HCl system 129
- Hydrolysis**  
Effects of anionic micelles on the intramolecular general base-catalyzed hydrolysis of phenyl and methyl salicylates 93
- Hydrotalcite**  
Catalysis of transition metal-functionalized hydrotalcites for the Baeyer-Villiger oxidation of ketones in the presence of molecular oxygen and benzaldehyde 135
- Hydroxylation**  
Decomposition of cyclohexyl hydroperoxide catalysed by ruthenium porphyrins. Hydroxylation of the solvent cyclohexane 117

- Indenyl derivatives  
Microstructure of polypropene samples produced with different homogeneous bridged indenyl zirconium catalysts. Clues on the structure and reactivity relation 59
- Indole  
Synthesis of indole, benzofuran and benzothiophene by reaction of 2-anilinoethanol, 2-phenoxyethanol and 2-(phenylthio)ethanol on  $\text{AlPO}_4$  and  $\text{Pd}/\text{AlPO}_4$  catalysts 49
- Iron  
Hydrocarbon synthesis from  $\text{CO}$  and  $\text{H}_2$  on  $(\text{Fe} + \text{Pt})/\text{SiO}_2$  catalysts 103
- Isophorone  
A new chiral auxiliary in enantioselective hydrogenations: (–)-dihydrovinpocetine. Part I. Hydrogenation of isophorone 41
- Isotactic polypropene  
Microstructure of polypropene samples produced with different homogeneous bridged indenyl zirconium catalysts. Clues on the structure and reactivity relation 59
- Metallocene catalyst  
Copolymerization of ethylene and linear 1-olefins with a metallocene catalyst system under high pressure. Part I. Copolymerization of ethylene and propene 1
- Methylaluminoxane  
Copolymerization of ethylene and linear 1-olefins with a metallocene catalyst system under high pressure. Part I. Copolymerization of ethylene and propene 1
- Micelles  
Effects of anionic micelles on the intramolecular general base-catalyzed hydrolysis of phenyl and methyl salicylates 93
- Microstructure  
Microstructure of polypropene samples produced with different homogeneous bridged indenyl zirconium catalysts. Clues on the structure and reactivity relation 59
- Modified electrode  
Promoter effect of poly(4-vinylpyridine) on the direct electron transfer between cytochrome *c* and gold electrode 111
- Molecular oxygen  
Catalysis of transition metal-functionalized hydrotalcites for the Baeyer–Villiger oxidation of ketones in the presence of molecular oxygen and benzaldehyde 135
- Molybdenum  
Investigation of  $\text{MoS}_2$  on  $\gamma\text{-Al}_2\text{O}_3$  by HREM with atomic resolution 147
- Molybdenum sulphide  
Pyridine interaction with a partially hydrogenated  $\text{MoS}_2$  modelled surface. A molecular orbital study 163
- Oxidation  
Catalysis of transition metal-functionalized hydrotalcites for the Baeyer–Villiger oxidation of ketones in the presence of molecular oxygen and benzaldehyde 135
- Oxygen transfer  
Ruthenium catalyzed epoxidations: mechanistic and synthetic aspects 23
- Palladium  
Synthesis of indole, benzofuran and benzothiophene by reaction of 2-anilinoethanol, 2-phenoxyethanol and 2-(phenylthio)ethanol on  $\text{AlPO}_4$  and  $\text{Pd}/\text{AlPO}_4$  catalysts 49  
Synthesis of arylacetic acid derivatives from mandelic acid derivatives by hydrogen transfer from  $\text{H}_2\text{O}-\text{CO}$  catalyzed by a  $\text{Pd}/\text{C}-\text{HCl}$  system 129
- Phenoxyethanol  
Synthesis of indole, benzofuran and benzothiophene by reaction of 2-anilinoethanol, 2-phenoxyethanol and 2-(phenylthio)ethanol on  $\text{AlPO}_4$  and  $\text{Pd}/\text{AlPO}_4$  catalysts 49
- Phenylthioethanol  
Synthesis of indole, benzofuran and benzothiophene by reaction of 2-anilinoethanol, 2-phenoxyethanol and 2-(phenylthio)ethanol on  $\text{AlPO}_4$  and  $\text{Pd}/\text{AlPO}_4$  catalysts 49
- Platinum  
Hydrocarbon synthesis from  $\text{CO}$  and  $\text{H}_2$  on  $(\text{Fe} + \text{Pt})/\text{SiO}_2$  catalysts 103
- Polyalkenamers  
Cyclization of living polyalkenamers via intramolecular secondary metathesis. Dimerization of cycloheptene into cyclotetradeca-1,8-diene initiated by well-defined tungsten-carbene catalysts 7
- Polymerization  
Cyclization of living polyalkenamers via intramolecular secondary metathesis. Dimerization of cycloheptene into cyclotetradeca-1,8-diene initiated by well-defined tungsten-carbene catalysts 7
- Porphyryns  
Decomposition of cyclohexyl hydroperoxide catalysed by ruthenium porphyryns. Hydroxylation of the solvent cyclohexane 117
- Propene  
Copolymerization of ethylene and linear 1-olefins with a metallocene catalyst system under high pressure. Part I. Copolymerization of ethylene and propene 1
- Proton affinity distributions  
Kinetic method for the characterization of Brønsted sites on oxide surfaces. Part I. Trimethylortho-benzoate hydrolysis over a series of  $\text{Al}_2\text{O}_3/\text{SiO}_2$  mixed oxides 175
- Proton transfer  
Kinetic method for the characterization of Brønsted sites on oxide surfaces. Part I. Trimethylortho-benzoate hydrolysis over a series of  $\text{Al}_2\text{O}_3/\text{SiO}_2$  mixed oxides 175

**Pyridine**

Pyridine interaction with a partially hydrogenated MoS<sub>2</sub> modelled surface. A molecular orbital study 163

**Pyridine derivatives**

Promoter effect of poly(4-vinylpyridine) on the direct electron transfer between cytochrome *c* and gold electrode 111

**Pyridinedicarboxylic acid**

Esterification of 2,6-pyridinedicarboxylic acid with *n*-butanol catalyzed by heteropoly acid H<sub>3</sub>PW<sub>12</sub>O<sub>40</sub> or its Ce(III) salt 73

**Regio-irregular insertion**

Microstructure of polypropene samples produced with different homogeneous bridged indenyl zirconium catalysts. Clues on the structure and reactivity relation 59

**Ring-opening metathesis polymerization**

Cyclization of living polyalkenamers via intramolecular secondary metathesis. Dimerization of cycloheptene into cyclotetradeca-1,8-diene initiated by well-defined tungsten-carbene catalysts 7

**Ruthenium**

Ruthenium catalyzed epoxidations: mechanistic and synthetic aspects 23

Catalytic activity of ruthenium 2,2'-bipyridine derived catalysts in 1-hexene hydroformylation and 1-heptanal hydrogenation 79

Decomposition of cyclohexyl hydroperoxide catalysed by ruthenium porphyrins. Hydroxylation of the solvent cyclohexane 117

**Salicylate derivatives**

Effects of anionic micelles on the intramolecular general base-catalyzed hydrolysis of phenyl and methyl salicylates 93

**Secondary metathesis**

Cyclization of living polyalkenamers via intramolecular secondary metathesis. Dimerization of cycloheptene into cyclotetradeca-1,8-diene initiated by well-defined tungsten-carbene catalysts 7

**Silica**

Hydrocarbon synthesis from CO and H<sub>2</sub> on (Fe + Pt)/SiO<sub>2</sub> catalysts 103

**Supported catalysts**

Catalytic activity of ruthenium 2,2'-bipyridine derived catalysts in 1-hexene hydroformylation and 1-heptanal hydrogenation 79

**Toluene**

Benzoylation of toluene with benzoyl chloride over zeolite catalysts 139

**Tungsten**

Esterification of 2,6-pyridinedicarboxylic acid with *n*-butanol catalyzed by heteropoly acid H<sub>3</sub>PW<sub>12</sub>O<sub>40</sub> or its Ce(III) salt 73

**Tungsten-carbene catalysts**

Cyclization of living polyalkenamers via intramolecular secondary metathesis. Dimerization of cycloheptene into cyclotetradeca-1,8-diene initiated by well-defined tungsten-carbene catalysts 7

**Variable pH kinetics**

Kinetic method for the characterization of Brønsted sites on oxide surfaces. Part I. Trimethylorthoobenzoate hydrolysis over a series of Al<sub>2</sub>O<sub>3</sub>/SiO<sub>2</sub> mixed oxides 175

**Water**

Synthesis of arylacetic acid derivatives from mandelic acid derivatives by hydrogen transfer from H<sub>2</sub>O-CO catalyzed by a Pd/C-HCl system 129

**Zeolites**

Benzoylation of toluene with benzoyl chloride over zeolite catalysts 139

**Ziegler-Natta catalysis**

Microstructure of polypropene samples produced with different homogeneous bridged indenyl zirconium catalysts. Clues on the structure and reactivity relation 59

**Zirconium**

Microstructure of polypropene samples produced with different homogeneous bridged indenyl zirconium catalysts. Clues on the structure and reactivity relation 59
