

ELSEVIER

Journal of Molecular Catalysis A: Chemical 95 (1995) 297–299

Contents Volume 95

Chemical and Metal Complex Catalysis

- Multidentate *N*-heterocyclic podand ligand. Efficient oxygenation of phenols catalyzed by novel cobalt complex [M576]
T. Moriuchi, T. Hirao, T. Ishikawa, Y. Ohshiro and I. Ikeda L1
- Enantioselective cyclopropanation of styrene with optically active nitrogen ligands based on the pyridine framework [M581]
G. Chelucci, M. Antonietta Cabras and A. Saba L7
- The regioselective hydrocarboalkoxylation of 4-methylstyrene catalyzed by palladium complexes [M562]
H.S. Yun, K.H. Lee and J.S. Lee 11
- Hydrogenolysis of formic esters with homogeneous and heterogeneous rhenium catalysts [M575]
G. Braca, A.M. Raspolli Galletti, G. Sbrana, M. Lami and M. Marchionna 19
- Synthesis and catalytic activity of silica supported iron(III) [M571]
P. Morys and T. Schlieper 27
- Effect of tetrachloromethane as a gas-phase additive on the oxidative dehydrogenation of ethane over magnesium phosphate [M572]
S. Sugiyama, N. Kondo, K. Satomi, H. Hayashi and J.B. Moffat 35
- On the rhodium catalyzed formation of acetic acid from methyl formate – comparison with the rhodium catalyzed formation of acetic acid by direct carbonylation of methanol [M573]
G. Bub and H.-U. Hög 45

Heterogeneous Catalysis

- Photocatalyzed mineralization of nitrogen-containing compounds at TiO₂/H₂O interfaces [M547]
K. Waki, L. Wang, K. Nohara and H. Hidaka 53
- Effect of Fe-ZSM-5 zeolite on the photochemical and biochemical degradation of 4-nitrophenol [M568]
C. Pulgarin, P. Peringer, P. Albers and J. Kiwi 61
- Olefin metathesis catalyst. Part II. Activation and characteristics of a 'molecular' tungsten unit on silica [M567]
F. Verpoort, A.R. Bossuyt and L. Verdonck 75

Biochemical Catalysis

- Ester fission catalysed by microgels possessing hydroxamic acid groups: structure–reactivity studies [M574]
A.K. Luthra and A. Williams 83
- Purification and properties of intact hydrogenase from *Desulfovibrio vulgaris* (Miyazaki) [M559]
T. Kamachi, S. Uno, T. Hiraishi and I. Okura 93
- Immobilization of laccase from *Phlebia radiata* on controlled porosity glass [M577]
J. Rogalski, E. Józwick, A. Hatakka and A. Leonowicz 99

Chemical and Metal Complex Catalysis

- Scanning tunneling microscopy observation of giant palladium-561 clusters [M592]
J.C. Poulin, H.B. Kagan, M.N. Vargaftik, I.P. Stolarov and I.I. Moiseev 109
- Catalysis of Sm³⁺ for the oxidation of alkanes with O₂ in the liquid phase [M591]
I. Yamanaka and K. Otsuka 115
- Early transition metal catalyzed-hydroboration of alkenes [M589]
E.A. Bijpost, R. Duchateau and J.H. Teuben 121

Synthesis of malonic esters by the catalytic addition of methyl formate to α,β -unsaturated esters [M588] Y. Suzuki, H. Katoh, Y. Ishii and M. Hidaï	129
^1H , ^{31}P NMR MAS, infrared and catalytic studies of heteropolyacid $\text{H}_3\text{PW}_{12}\text{O}_{40}$ supported on MgF_2 [M579] V.M. Mastikhin, V.V. Terskikh, M.N. Timofeeva and O.P. Krivoruchko	135
Electronic structure of organobis(dimethylglyoximate)triphenylphosphinerhodium(III) complexes [M584] R. Boča, M. Dunaj-Jurčo, I. Potočňák, D. Steinborn and M. Ludwig	141
Heterogeneous Catalysis	
Reactions of propene on supported molybdenum and tungsten oxides [M593] I. Rodríguez-Ramos, A. Guerrero-Ruiz, N. Homs, P. Ramírez de la Piscina and J.L.G. Fierro	147
Synthesis of a <i>trans</i> -benzo-[f]-heterodecalin by catalytic hydrogenation. The important parameters for high stereo- and chemoselectivity [M587] M. Studer, P. Baumeister, H.-U. Blaser and J. Bach	155
Gas phase hydrogenation of acetonitrile on Raney nickel catalysts: reactive hydrogen [M586] F. Hochard, H. Jobic, J. Massardier and A.J. Renouprez	165
Biochemical Catalysis	
Thermostability and electron transfer activity of the ferredoxin from a thermophilic hydrogen oxidizing bacterium, <i>Bacillus schlegelii</i> [M585] S. Aono, N. Fukuda and I. Okura	173
Organic reactions catalyzed by immobilized lipases. Part I. Hydrolysis of 2-aryl propionic and 2-aryl butyric esters with immobilized <i>Candida cylindracea</i> lipase [M582] J.M. Moreno, A. Samoza, C. Del Campo, E.F. Llama and J.V. Sinisterra	179
Photoreduction of cytochrome <i>c</i> with zinc protoporphyrin reconstituted myoglobin (ZnPP-Mb) [M583] S. Aono, S. Nemoto, A. Ohtaka and I. Okura	193
Chemical and Metal Complex Catalysis	
Catalytic activity of monomeric and polymeric cobalt(II)-phthalocyanines in sulfide ion oxidation [M590] A. Andreev, V. Ivanova, L. Prahov and I.D. Schopov	197
Efficient selective reduction of aromatic nitro compounds by ruthenium catalysis under $\text{CO}/\text{H}_2\text{O}$ conditions [M545] K. Nomura	203
Heterogeneous Catalysis	
CO oxidation over Pd/FeSbO ₄ catalyst [M603] M.M. Gadgil and S.K. Kulshreshtha	211
Hydrogenation of carbon oxides by Ru/activated carbon catalysts obtained from $\text{Ru}_3(\text{CO})_{12}$: effect of pretreatment on their dispersion, composition and activity [M599] C. Moreno-Castilla, M.A. Salas-Peregrín and F. Javier López-Garzón	223
Mechanism of 2,4-dinitrotoluene hydrogenation over Pd/C [M578] G. Neri, M.G. Musolino, C. Milone, A.M. Visco and A. Di Mario	235
An in situ ^{13}C MAS NMR study of benzene isopropylation over H-ZSM-11: cumene formation and side-reactions [M594] I.I. Ivanova, D. Brunel, J. B.Nagy and E.G. Derouane	243
The role of promoter metals in the hydrocarbonylation of methanol over active carbon supported cobalt catalysts [M600] S. Bischoff, A. Weigt, K. Fujimoto and B. Lücke	259
Cracking of neopentane over acidic zeolites: influence of isobutane and isobutene admission [M596] F. Evancis, I. Kiricsi, Gy. Tasi, H. Förster and P. Fejes	269
Heterogeneous catalysis in organic chemistry. Part 10 ¹ . Effect of the catalyst support on the regiochemistry of the heck arylation reaction [M597] R.L. Augustine and S.T. O'Leary	277
Announcement	287
