

Subject Index

[AlEt₃]

Active sites concentration in ethylene homo- and copolymerization with 1-hexene using the highly active TiCl₄/MgH₂-AlEt₃ catalyst system 135

Acidity

Effect of the synthesis conditions on the crystallinity and surface acidity of SAPO-11 35

Active sites concentration

Active sites concentration in ethylene homo- and copolymerization with 1-hexene using the highly active TiCl₄/MgH₂-AlEt₃ catalyst system 135

Alkanes

Catalytic and structural properties of ruthenium bimetallic catalysts: kinetics of hydrogenolysis of lower alkanes on variously pretreated Ru/Al₂O₃ catalysts 81

Alkenes

Rhodium catalysed hydroformylation of higher alkenes using amphiphilic ligands 69

Ruthenium(II) 2-(phenylazo)pyridine complexes as epoxidation catalysts 143

Alkylation

Benzylation of aromatics on ion-exchanged clays 101

Aluminophosphate

Effect of the synthesis conditions on the crystallinity and surface acidity of SAPO-11 35

Antiinflammatory drugs

A systematic analysis of the variables that control a highly stereoselective resolution of racemic non-steroidal antiinflammatory drugs using immobilized lipase from *Candida cylindracea* 171

Aromatics

Benzylation of aromatics on ion-exchanged clays 101

Basicity

The effect of different ZnO precursors on the catalytic decomposition of ethanol 63

Benzyl alcohol

Benzylation of aromatics on ion-exchanged clays 101

Benzyl chloride

Benzylation of aromatics on ion-exchanged clays 101

Beta zeolite

Base catalysis on zeolites in the formaldehyde-dimethylamine transformations 57

Bimetallic catalysts

Catalytic and structural properties of ruthenium bimetallic catalysts: kinetics of hydrogenolysis of lower alkanes on variously pretreated Ru/Al₂O₃ catalysts 81

Calorimetry

Linear low density polyethylene: catalyst system effect on polymer microstructure 123

Candida cylindracea

A systematic analysis of the variables that control a highly stereoselective resolution of racemic non-steroidal antiinflammatory drugs using immobilized lipase from *Candida cylindracea* 171

Carbon monoxide

Ozone decomposition and CO oxidation on CeO₂ 9

Cerium dioxide

Ozone decomposition and CO oxidation on CeO₂ 9

Characterization

The effect of different ZnO precursors on the catalytic decomposition of ethanol 63

Chemical modification

Base catalysis on zeolites in the formaldehyde-dimethylamine transformations 57

¹³C NMR analysis

Linear low density polyethylene: catalyst system effect on polymer microstructure 123

Cofactor regeneration

Selective oxidation: stabilisation by multipoint attachment of ferredoxin NADP⁺ reductase, an interesting cofactor recycling enzyme 161

Colloidal catalyst

Colloidal rhodium catalyzed photo transfer hydrogenation of 1,5-cyclooctadiene 157

Copolymerization

Active sites concentration in ethylene homo- and copolymerization with 1-hexene using the highly active TiCl₄/MgH₂-AlEt₃ catalyst system 135

Crystallinity

Effect of the synthesis conditions on the crystallinity and surface acidity of SAPO-11 35

Cyclooctadiene

Colloidal rhodium catalyzed photo transfer hydrogenation of 1,5-cyclooctadiene 157

Decomposition

Ozone decomposition and CO oxidation on CeO₂ 9

Differential scanning calorimetry analysis

Linear low density polyethylene: catalyst system effect on polymer microstructure 123

Dispersion effect

Colloidal rhodium catalyzed photo transfer hydrogenation of 1,5-cyclooctadiene 157

Enantioselective hydrolysis

A systematic analysis of the variables that control a highly stereoselective resolution of racemic non-steroidal antiinflammatory drugs using immobilized lipase from *Candida cylindracea* 171

Enzyme stabilization

Selective oxidation: stabilisation by multipoint attachment of ferredoxin NADP⁺ reductase, an interesting cofactor recycling enzyme 161

Enzymic oxidation

Selective oxidation: stabilisation by multipoint attachment of ferredoxin NADP⁺ reductase, an interesting cofactor recycling enzyme 161

Epoxidation

Ruthenium(II) 2-(phenylazo)pyridine complexes as epoxidation catalyts 143

Ethane

Oxidative coupling of methane over natural manganese oxide 25

Ethanol

The effect of different ZnO precursors on the catalytic decomposition of ethanol 63

Ethylene

Active sites concentration in ethylene homo- and copolymerization with 1-hexene using the highly active TiCl₄/MgH₂-AlEt₃ catalyst system 135

Europium

Catalytic properties of low-valent europium introduced into Y-zeolite 49

Exchanged clays

Benzylation of aromatics on ion-exchanged clays 101

Ferredoxin-NADP⁺ reductase

Selective oxidation: stabilisation by multipoint attachment of ferredoxin NADP⁺ reductase, an interesting cofactor recycling enzyme 161

Formaldehyde

Base catalysis on zeolites in the formaldehyde-dimethylamine transformations 57

Fractionation

Linear low density polyethylene: catalyst system effect on polymer microstructure 123

1-Hexene

Active sites concentration in ethylene homo- and copolymerization with 1-hexene using the highly active TiCl₄/MgH₂-AlEt₃ catalyst system 135

Homopolyethylene

Active sites concentration in ethylene homo- and copolymerization with 1-hexene using the highly active TiCl₄/MgH₂-AlEt₃ catalyst system 135

Horseradish peroxidase

Formation of compound I of horseradish peroxidase in AOT reverse micelles as studied by pulse radiolysis and stopped-flow methods 1

Hydroformylation

Rhodium catalysed hydroformylation of higher alkenes using amphiphilic ligands 69

Hydrogen

Reduction of ketones by dihydrogen or hydrogen transfer

catalysed by a ruthenium complex of the hydridotris(3,5-dimethyl)pyrazolyl borate ligand 5

Hydrogenation

Colloidal rhodium catalyzed photo transfer hydrogenation of 1,5-cyclooctadiene 157

Hydrogenolysis

Catalytic and structural properties of ruthenium bimetallic catalysts: kinetics of hydrogenolysis of lower alkanes on variously pretreated Ru/Al₂O₃ catalysts 81

Hydrolysis

A systematic analysis of the variables that control a highly stereoselective resolution of racemic non-steroidal antiinflammatory drugs using immobilized lipase from *Candida cylindracea* 171

Immobilization of enzymes

Selective oxidation: stabilisation by multipoint attachment of ferredoxin NADP⁺ reductase, an interesting cofactor recycling enzyme 161

Immobilized lipase

A systematic analysis of the variables that control a highly stereoselective resolution of racemic non-steroidal antiinflammatory drugs using immobilized lipase from *Candida cylindracea* 171

IR

The effect of different ZnO precursors on the catalytic decomposition of ethanol 63

IR spectroscopy

Oxidative coupling of methane over natural manganese oxide 25

Isomerization

Catalytic properties of low-valent europium introduced into Y-zeolite 49

Isotopic methane

Oxidative coupling of methane over natural manganese oxide 25

Ketones

Reduction of ketones by dihydrogen or hydrogen transfer catalysed by a ruthenium complex of the hydridotris(3,5-dimethyl)pyrazolyl borate ligand 5

Kinetics

Catalytic and structural properties of ruthenium bimetallic catalysts: kinetics of hydrogenolysis of lower alkanes on variously pretreated Ru/Al₂O₃ catalysts 81

Lewis acidity

Benzylation of aromatics on ion-exchanged clays 101

Linear low density polyethylene

Linear low density polyethylene: catalyst system effect on polymer microstructure 123

Manganese catalysts

Oxidative coupling of methane over natural manganese oxide 25

Metal ions

The influence of dissolved metal ions on the photocatalytic degradation of phenol in aqueous TiO₂ suspensions 109

Methane

Oxidative coupling of methane over natural manganese oxide 25

Methylamines

Base catalysis on zeolites in the formaldehyde-dimethylamine transformations 57

Michael reaction

Catalytic properties of low-valent europium introduced into Y-zeolite 49

Nitrogen ligands

Ruthenium(II) 2-(phenylazo)pyridine complexes as epoxidation catalysts 143

NMR spectroscopy

Effect of the synthesis conditions on the crystallinity and surface acidity of SAPO-11 35

***N,N*-Dimethylformamide**

Base catalysis on zeolites in the formaldehyde–dimethylamine transformations 57

Oxidation

The influence of dissolved metal ions on the photocatalytic degradation of phenol in aqueous TiO₂ suspensions 109

Oxidative coupling

Oxidative coupling of methane over natural manganese oxide 25

Ozone

Ozone decomposition and CO oxidation on CeO₂ 9

Phenol

The influence of dissolved metal ions on the photocatalytic degradation of phenol in aqueous TiO₂ suspensions 109

Phosphine derivatives

Rhodium catalysed hydroformylation of higher alkenes using amphiphilic ligands 69

Photocatalysis

The influence of dissolved metal ions on the photocatalytic degradation of phenol in aqueous TiO₂ suspensions 109

Photocatalyst

Colloidal rhodium catalyzed photo transfer hydrogenation of 1,5-cyclooctadiene 157

Polyethylene

Linear low density polyethylene: catalyst system effect on polymer microstructure 123

Polymerization time

Active sites concentration in ethylene homo- and copolymerization with 1-hexene using the highly active TiCl₄/MgH₂-AlEt₃ catalyst system 135

Polymer microstructure

Linear low density polyethylene: catalyst system effect on polymer microstructure 123

Pretreated catalysts

Catalytic and structural properties of ruthenium bimetallic catalysts: kinetics of hydrogenolysis of lower alkanes on variously pretreated Ru/Al₂O₃ catalysts 81

Pulse radiolysis

Formation of compound I of horseradish peroxidase in AOT reverse micelles as studied by pulse radiolysis and stopped-flow methods 1

Pyrazolyl derivative

Reduction of ketones by dihydrogen or hydrogen transfer catalysed by a ruthenium complex of the hydridotris(3,5-dimethyl)pyrazolyl borate ligand 5

Reductase

Selective oxidation: stabilisation by multipoint attachment of ferredoxin NADP⁺ reductase, an interesting cofactor recycling enzyme 161

Reduction

Reduction of ketones by dihydrogen or hydrogen transfer catalysed by a ruthenium complex of the hydridotris(3,5-dimethyl)pyrazolyl borate ligand 5

Reverse micelles

Formation of compound I of horseradish peroxidase in AOT reverse micelles as studied by pulse radiolysis and stopped-flow methods 1

Rhodium

Rhodium catalysed hydroformylation of higher alkenes using amphiphilic ligands 69

Colloidal rhodium catalyzed photo transfer hydrogenation of 1,5-cyclooctadiene 157

Ruthenium

Reduction of ketones by dihydrogen or hydrogen transfer catalysed by a ruthenium complex of the hydridotris(3,5-dimethyl)pyrazolyl borate ligand 5

Catalytic and structural properties of ruthenium bimetallic catalysts: kinetics of hydrogenolysis of lower alkanes on variously pretreated Ru/Al₂O₃ catalysts 81

Ruthenium(II) 2-(phenylazo)pyridine complexes as epoxidation catalysts 143

SAPO-11

Effect of the synthesis conditions on the crystallinity and surface acidity of SAPO-11 35

***S*_{BET}**

The effect of different ZnO precursors on the catalytic decomposition of ethanol 63

Selective hydrogenation

Colloidal rhodium catalyzed photo transfer hydrogenation of 1,5-cyclooctadiene 157

Size exclusion chromatography analysis

Linear low density polyethylene: catalyst system effect on polymer microstructure 123

Stopped-flow

Formation of compound I of horseradish peroxidase in AOT reverse micelles as studied by pulse radiolysis and stopped-flow methods 1

Synthesis

Effect of the synthesis conditions on the crystallinity and surface acidity of SAPO-11 35

Thermal analyses

The effect of different ZnO precursors on the catalytic decomposition of ethanol 63

Thermal fractionated crystallization

Linear low density polyethylene: catalyst system effect on polymer microstructure 123

Titanium dioxide

The influence of dissolved metal ions on the photocatalytic degradation of phenol in aqueous TiO₂ suspensions 109

Transfer hydrogenation

Colloidal rhodium catalyzed photo transfer hydrogenation of 1,5-cyclooctadiene 157

1,3,5-Trimethylhexahydro-1,3,5-triazine

Base catalysis on zeolites in the formaldehyde–dimethylamine transformations 57

Water-soluble triarylphosphines

Rhodium catalysed hydroformylation of higher alkenes using amphiphilic ligands 69

XRD

The effect of different ZnO precursors on the catalytic decomposition of ethanol 63

Y-zeolite

Catalytic properties of low-valent europium introduced into Y-zeolite 49

Ziegler catalyst

Active sites concentration in ethylene homo- and co-

polymerization with 1-hexene using the highly active $\text{TiCl}_4/\text{MgH}_2\text{-AlEt}_3$ catalyst system 135

ZnO precursors

The effect of different ZnO precursors on the catalytic decomposition of ethanol 63

ZSM-5 zeolite

Base catalysis on zeolites in the formaldehyde–dimethylamine transformations 57
