

## Subject Index

- Acetonitrile**  
The cocyclotrimerization of alkynes and acetonitrile with CpCoCOD as catalyst 71
- Alkaline hydrolysis**  
Microgels with trialkylammonio side chains function as catalysts for the alkaline hydrolysis of substituted phenyl laurate esters 41
- Alkylbenzenes**  
Mechanistic aspects of benzylic bromide formation and oxidation during the cobalt acetate bromide catalyzed oxidation of alkylbenzenes in carboxylic acids 1
- Alkylguanidines**  
Alkylguanidines as catalysts for the transesterification of rapeseed oil 65
- Alkyl-vinylidene polyphenylacetylene**  
Metathetical polymerization of substituted phenylacetylenes using in situ generated (arene)M(CO)<sub>3</sub> complexes (arene = toluene, *o*-xylene or mesitylene, M = Cr, Mo or W) as catalysts 47
- Alkyne**  
The cocyclotrimerization of alkynes and acetonitrile with CpCoCOD as catalyst 71
- Alumina**  
<sup>31</sup>P MAS NMR study of the hydrolysis of *O,S*-diethyl phenylphosphonothioate on reactive sorbents 175
- Aqueous phase**  
Spectator cations and catalysis with sulfonated phosphines. The role of cations in determining reaction selectivity in the aqueous phase hydroformylation of olefins 131
- (Arene)M(CO)<sub>3</sub> complexes**  
Metathetical polymerization of substituted phenylacetylenes using in situ generated (arene)M(CO)<sub>3</sub> complexes (arene = toluene, *o*-xylene or mesitylene, M = Cr, Mo or W) as catalysts 47
- Benzoyl chloride**  
Kinetics of the reaction of benzoyl chloride and sodium carboxylate under inverse phase-transfer catalysis 153
- Benzylic bromides**  
Mechanistic aspects of benzylic bromide formation and oxidation during the cobalt acetate bromide catalyzed oxidation of alkylbenzenes in carboxylic acids 1
- Bromide oxidation**  
Oxidation of bromide by chlorate catalysed by Mo 143
- Caesium**  
Multinuclear NMR studies of V<sub>2</sub>O<sub>5</sub>-Cs<sub>2</sub>S<sub>2</sub>O<sub>7</sub> melts 123
- Calorimetry**  
Transformation of carbon compounds on graphimet catalysts.
- Part V. The effect of pretreatment on the structure and activity of Pt-graphimet catalyst 115
- Carbon monoxide**  
Catalytic methanol decomposition to carbon monoxide and hydrogen over Ni/SiO<sub>2</sub> of high nickel content 183
- Carbonyl complexes**  
Effect of ligand donor-acceptor properties on selectivity of catalytic olefin isomerization reaction 23
- Carboxylate ion effect**  
Kinetics of the reaction of benzoyl chloride and sodium carboxylate under inverse phase-transfer catalysis 153
- Catechols**  
Stoichiometric and catalytic oxidation by a dinuclear copper(I) dioxygen complex and a dinuclear copper(II) complex of a macrocyclic ligand derived from the 2:2 condensation of pyridine-2,6-dicarboxaldehyde and 1,4,7-triazaheptane 101
- Cationic ironporphyrin**  
Cationic ironporphyrins as catalyst in comparative oxidation of hydrocarbons: homogeneous and supported on inorganic matrices systems 187
- Cationic surfactant**  
Microgels with trialkylammonio side chains function as catalysts for the alkaline hydrolysis of substituted phenyl laurate esters 41
- Chemisorption**  
Cluster quantum-chemical study of the chemisorption of methane on zinc oxide surface 35  
Cluster quantum-chemical study of the chemisorption of methane on a lithium-promoted magnesium oxide doped by zinc oxide 139
- Chlorate**  
Oxidation of bromide by chlorate catalysed by Mo 143
- Chlorinated organic polymers**  
Chlorinated organic polymers as supports for Ziegler-Natta catalysts 167
- 2-Chloroethanol**  
Oxidation of olefins by palladium(II). Part XIV <sup>1</sup>. Product distribution and kinetics of the oxidation of ethene by PdCl<sub>3</sub>(pyridine)<sup>-</sup> in aqueous solution in the presence and absence of CuCl<sub>2</sub>; a modified Wacker catalyst with altered reactivity 77
- Cobalt**  
The cocyclotrimerization of alkynes and acetonitrile with CpCoCOD as catalyst 71
- Cobalt acetate bromide**  
Mechanistic aspects of benzylic bromide formation and oxidation

- during the cobalt acetate bromide catalyzed oxidation of alkylbenzenes in carboxylic acids 1
- Cocyclotrimerization**  
The cocyclotrimerization of alkynes and acetonitrile with CpCoCOD as catalyst 71
- Conductivity**  
Metathetical polymerization of substituted phenylacetylenes using in situ generated (arene)M(CO)<sub>3</sub> complexes (arene = toluene, *o*-xylene or mesitylene, M = Cr, Mo or W) as catalysts 47
- Copper**  
Copper(I) and copper(II) dinuclear complexes of a macrocyclic ligand derived from the 2:2 condensation of pyridine- 2,6-dicarboxaldehyde and 1,4,7-triazaheptane 87  
Stoichiometric and catalytic oxidation by a dinuclear copper(I) dioxygen complex and a dinuclear copper(II) complex of a macrocyclic ligand derived from the 2:2 condensation of pyridine-2,6-dicarboxaldehyde and 1,4,7-triazaheptane 101
- Copper(II) chloride**  
Oxidation of olefins by palladium(II). Part XIV <sup>1</sup>. Product distribution and kinetics of the oxidation of ethene by PdCl<sub>3</sub>(pyridine)<sup>-</sup> in aqueous solution in the presence and absence of CuCl<sub>2</sub>: a modified Wacker catalyst with altered reactivity 77
- CpCoCOD**  
The cocyclotrimerization of alkynes and acetonitrile with CpCoCOD as catalyst 71
- Cyclohexene**  
Transformation of carbon compounds on graphimet catalysts. Part V. The effect of pretreatment on the structure and activity of Pt-graphimet catalyst 115
- Cyclopentadienyl complexes**  
The cocyclotrimerization of alkynes and acetonitrile with CpCoCOD as catalyst 71
- Decomposition**  
Catalytic methanol decomposition to carbon monoxide and hydrogen over Ni/SiO<sub>2</sub> of high nickel content 183
- Dinuclear complexes**  
Copper(I) and copper(II) dinuclear complexes of a macrocyclic ligand derived from the 2:2 condensation of pyridine- 2,6-dicarboxaldehyde and 1,4,7-triazaheptane 87
- Dinuclear Cu(I) dioxygen complex**  
Stoichiometric and catalytic oxidation by a dinuclear copper(I) dioxygen complex and a dinuclear copper(II) complex of a macrocyclic ligand derived from the 2:2 condensation of pyridine-2,6-dicarboxaldehyde and 1,4,7-triazaheptane 101
- Dinuclear Cu(II) macrocyclic complex**  
Stoichiometric and catalytic oxidation by a dinuclear copper(I) dioxygen complex and a dinuclear copper(II) complex of a macrocyclic ligand derived from the 2:2 condensation of pyridine-2,6-dicarboxaldehyde and 1,4,7-triazaheptane 101
- Dioxygen complexes**  
Stoichiometric and catalytic oxidation by a dinuclear copper(I) dioxygen complex and a dinuclear copper(II) complex of a macrocyclic ligand derived from the 2:2 condensation of pyridine-2,6-dicarboxaldehyde and 1,4,7-triazaheptane 101
- Dioxygen copper(I) complex**  
Copper(I) and copper(II) dinuclear complexes of a macrocyclic ligand derived from the 2:2 condensation of pyridine- 2,6-dicarboxaldehyde and 1,4,7-triazaheptane 87
- Electrocatalysis**  
Electrocatalytic hydrogenation on poly[Rh<sup>III</sup>(L)<sub>2</sub>(Cl)<sub>2</sub>]<sup>+</sup> (L = pyrrole-substituted 2,2'-bipyridine or 1,10-phenanthroline) films electrodes 13
- Epoxidation**  
Cationic ironporphyrins as catalyst in comparative oxidation of hydrocarbons: homogeneous and supported on inorganic matrices systems 187
- Ethene**  
Oxidation of olefins by palladium(II). Part XIV <sup>1</sup>. Product distribution and kinetics of the oxidation of ethene by PdCl<sub>3</sub>(pyridine)<sup>-</sup> in aqueous solution in the presence and absence of CuCl<sub>2</sub>: a modified Wacker catalyst with altered reactivity 77
- Ethylene**  
Chlorinated organic polymers as supports for Ziegler–Natta catalysts 167
- Face-capping ligand**  
Hydrogenation of 1-hexene by a triruthenium cluster stabilized with a face-capping 1,3-dithiacyclohexane ligand 29
- Fenske–Hall method**  
Effect of ligand donor–acceptor properties on selectivity of catalytic olefin isomerization reaction 23
- Film electrodes**  
Electrocatalytic hydrogenation on poly[Rh<sup>III</sup>(L)<sub>2</sub>(Cl)<sub>2</sub>]<sup>+</sup> (L = pyrrole-substituted 2,2'-bipyridine or 1,10-phenanthroline) films electrodes 13
- Functionalized silica gel**  
Cationic ironporphyrins as catalyst in comparative oxidation of hydrocarbons: homogeneous and supported on inorganic matrices systems 187
- Hexene**  
Spectator cations and catalysis with sulfonated phosphines. The role of cations in determining reaction selectivity in the aqueous phase hydroformylation of olefins 131
- 1-Hexene**  
Hydrogenation of 1-hexene by a triruthenium cluster stabilized with a face-capping 1,3-dithiacyclohexane ligand 29
- Homogeneous**  
Hydrogenation of 1-hexene by a triruthenium cluster stabilized with a face-capping 1,3-dithiacyclohexane ligand 29
- Hydroformylation**  
Spectator cations and catalysis with sulfonated phosphines. The role of cations in determining reaction selectivity in the aqueous phase hydroformylation of olefins 131
- Hydrogen**  
Catalytic methanol decomposition to carbon monoxide and hydrogen over Ni/SiO<sub>2</sub> of high nickel content 183
- Hydrogenation**  
Electrocatalytic hydrogenation on poly[Rh<sup>III</sup>(L)<sub>2</sub>(Cl)<sub>2</sub>]<sup>+</sup> (L = pyrrole-substituted 2,2'-bipyridine or 1,10-phenanthroline) films electrodes 13  
Hydrogenation of 1-hexene by a triruthenium cluster stabilized with a face-capping 1,3-dithiacyclohexane ligand 29  
Kinetic and mechanistic investigation of the sequential hydrogenation of phenylacetylene catalyzed by rhodium(I) phosphine complexes of the type [Rh(η<sup>2</sup>-O<sub>2</sub>Z)(PR<sub>3</sub>)<sub>2</sub>] 55

- Transformation of carbon compounds on graphimetal catalysts.  
Part V. The effect of pretreatment on the structure and activity of Pt-graphimetal catalyst 115
- Hydrolysis  
<sup>31</sup>P MAS NMR study of the hydrolysis of *O,S*-diethyl phenylphosphonothioate on reactive sorbents 175
- Hydroxylation  
Cationic ironporphyrins as catalyst in comparative oxidation of hydrocarbons: homogeneous and supported on inorganic matrices systems 187
- Inverse phase-transfer catalysis (IPTC)  
Kinetics of the reaction of benzoyl chloride and sodium carboxylate under inverse phase-transfer catalysis 153
- Ion exchange resin  
<sup>31</sup>P MAS NMR study of the hydrolysis of *O,S*-diethyl phenylphosphonothioate on reactive sorbents 175
- Ionic strength  
Spectator cations and catalysis with sulfonated phosphines. The role of cations in determining reaction selectivity in the aqueous phase hydroformylation of olefins 131
- Kinetics  
Kinetic and mechanistic investigation of the sequential hydrogenation of phenylacetylene catalyzed by rhodium(I) phosphine complexes of the type  $[\text{Rh}(\eta^2\text{-O}_2\text{Z})(\text{PR}_3)_2]$  55  
Kinetics of the reaction of benzoyl chloride and sodium carboxylate under inverse phase-transfer catalysis 153
- Ladder polymer  
Metathetical polymerization of substituted phenylacetylenes using in situ generated (arene) $\text{M}(\text{CO})_3$  complexes (arene = toluene, *o*-xylene or mesitylene, M = Cr, Mo or W) as catalysts 47
- Lethal agent decontamination  
<sup>31</sup>P MAS NMR study of the hydrolysis of *O,S*-diethyl phenylphosphonothioate on reactive sorbents 175
- Lithium-promoted magnesium oxide  
Cluster quantum-chemical study of the chemisorption of methane on a lithium-promoted magnesium oxide doped by zinc oxide 139
- Macrocyclic complex  
Stoichiometric and catalytic oxidation by a dinuclear copper(I) dioxygen complex and a dinuclear copper(II) complex of a macrocyclic ligand derived from the 2:2 condensation of pyridine-2,6-dicarboxaldehyde and 1,4,7-triazaheptane 101
- Macrocyclic copper(II) complex  
Copper(I) and copper(II) dinuclear complexes of a macrocyclic ligand derived from the 2:2 condensation of pyridine-2,6-dicarboxaldehyde and 1,4,7-triazaheptane 87
- Magic angle spinning NMR  
<sup>31</sup>P MAS NMR study of the hydrolysis of *O,S*-diethyl phenylphosphonothioate on reactive sorbents 175
- Magnesium oxide  
Cluster quantum-chemical study of the chemisorption of methane on a lithium-promoted magnesium oxide doped by zinc oxide 139
- Mechanism  
Kinetic and mechanistic investigation of the sequential hydrogenation of phenylacetylene catalyzed by rhodium(I) phosphine complexes of the type  $[\text{Rh}(\eta^2\text{-O}_2\text{Z})(\text{PR}_3)_2]$  55
- Medium temperature pretreatment  
Transformation of carbon compounds on graphimetal catalysts.  
Part V. The effect of pretreatment on the structure and activity of Pt-graphimetal catalyst 115
- Metathesis  
Metathetical polymerization of substituted phenylacetylenes using in situ generated (arene) $\text{M}(\text{CO})_3$  complexes (arene = toluene, *o*-xylene or mesitylene, M = Cr, Mo or W) as catalysts 47
- Methane  
Cluster quantum-chemical study of the chemisorption of methane on zinc oxide surface 35  
Cluster quantum-chemical study of the chemisorption of methane on a lithium-promoted magnesium oxide doped by zinc oxide 139
- Methanol  
Catalytic methanol decomposition to carbon monoxide and hydrogen over Ni/SiO<sub>2</sub> of high nickel content 183
- Microgels  
Microgels with trialkylammonio side chains function as catalysts for the alkaline hydrolysis of substituted phenyl laurate esters 41
- Modified catalyst  
Oxidation of olefins by palladium(II). Part XIV<sup>1</sup>. Product distribution and kinetics of the oxidation of ethene by PdCl<sub>2</sub>(pyridine)<sup>-</sup> in aqueous solution in the presence and absence of CuCl<sub>2</sub>: a modified Wacker catalyst with altered reactivity 77
- Molybdenum  
Oxidation of bromide by chlorate catalysed by Mo 143
- Multinuclear NMR studies  
Multinuclear NMR studies of V<sub>2</sub>O<sub>5</sub>-Cs<sub>2</sub>S<sub>2</sub>O<sub>7</sub> melts 123
- Nickel  
Catalytic methanol decomposition to carbon monoxide and hydrogen over Ni/SiO<sub>2</sub> of high nickel content 183
- NMR studies  
Multinuclear NMR studies of V<sub>2</sub>O<sub>5</sub>-Cs<sub>2</sub>S<sub>2</sub>O<sub>7</sub> melts 123
- O<sub>2</sub>-H<sub>2</sub> titration  
Transformation of carbon compounds on graphimetal catalysts.  
Part V. The effect of pretreatment on the structure and activity of Pt-graphimetal catalyst 115
- Octaaza macrocycle  
Copper(I) and copper(II) dinuclear complexes of a macrocyclic ligand derived from the 2:2 condensation of pyridine-2,6-dicarboxaldehyde and 1,4,7-triazaheptane 87  
Stoichiometric and catalytic oxidation by a dinuclear copper(I) dioxygen complex and a dinuclear copper(II) complex of a macrocyclic ligand derived from the 2:2 condensation of pyridine-2,6-dicarboxaldehyde and 1,4,7-triazaheptane 101
- Olefin isomerization  
Effect of ligand donor-acceptor properties on selectivity of catalytic olefin isomerization reaction 23
- O,S*-diethyl phenyl phosphonothioate  
<sup>31</sup>P MAS NMR study of the hydrolysis of *O,S*-diethyl phenylphosphonothioate on reactive sorbents 175
- Oxidation  
Mechanistic aspects of benzylic bromide formation and oxidation during the cobalt acetate bromide catalyzed oxidation of alkylbenzenes in carboxylic acids 1

- Oxidation of olefins by palladium(II). Part XIV <sup>1</sup>. Product distribution and kinetics of the oxidation of ethene by PdCl<sub>3</sub>(pyridine)<sup>-</sup> in aqueous solution in the presence and absence of CuCl<sub>2</sub>: a modified Wacker catalyst with altered reactivity 77
- Stoichiometric and catalytic oxidation by a dinuclear copper(I) dioxygen complex and a dinuclear copper(II) complex of a macrocyclic ligand derived from the 2:2 condensation of pyridine-2,6-dicarboxaldehyde and 1,4,7-triazaheptane 101
- Oxide surface
- Cluster quantum-chemical study of the chemisorption of methane on zinc oxide surface 35
- Oxosulphatovanadates(V)
- Multinuclear NMR studies of V<sub>2</sub>O<sub>5</sub>-Cs<sub>2</sub>S<sub>2</sub>O<sub>7</sub> melts 123
- Palladium(II)
- Oxidation of olefins by palladium(II). Part XIV <sup>1</sup>. Product distribution and kinetics of the oxidation of ethene by PdCl<sub>3</sub>(pyridine)<sup>-</sup> in aqueous solution in the presence and absence of CuCl<sub>2</sub>: a modified Wacker catalyst with altered reactivity 77
- Phenanthroline
- Electrocatalytic hydrogenation on poly[Rh<sup>III</sup>(L)<sub>2</sub>(Cl)<sub>2</sub>]<sup>+</sup> (L = pyrrole-substituted 2,2'-bipyridine or 1,10-phenanthroline) films electrodes 13
- Phenols
- Stoichiometric and catalytic oxidation by a dinuclear copper(I) dioxygen complex and a dinuclear copper(II) complex of a macrocyclic ligand derived from the 2:2 condensation of pyridine-2,6-dicarboxaldehyde and 1,4,7-triazaheptane 101
- Phenylacetylene
- Kinetic and mechanistic investigation of the sequential hydrogenation of phenylacetylene catalyzed by rhodium(I) phosphine complexes of the type [Rh(η<sup>2</sup>-O<sub>2</sub>Z)(PR<sub>3</sub>)<sub>2</sub>] 55
- Phenylacetylene derivatives
- Metathetical polymerization of substituted phenylacetylenes using in situ generated (arene)M(CO)<sub>3</sub> complexes (arene = toluene, *o*-xylene or mesitylene, M = Cr, Mo or W) as catalysts 47
- Phenyl esters
- Microgels with trialkylammonio side chains function as catalysts for the alkaline hydrolysis of substituted phenyl laurate esters 41
- Phosphine complexes
- Effect of ligand donor-acceptor properties on selectivity of catalytic olefin isomerization reaction 23
- Kinetic and mechanistic investigation of the sequential hydrogenation of phenylacetylene catalyzed by rhodium(I) phosphine complexes of the type [Rh(η<sup>2</sup>-O<sub>2</sub>Z)(PR<sub>3</sub>)<sub>2</sub>] 55
- Phosphonothioate derivatives
- <sup>31</sup>P MAS NMR study of the hydrolysis of *O,S*-diethyl phenylphosphonothioate on reactive sorbents 175
- <sup>31</sup>P NMR
- <sup>31</sup>P MAS NMR study of the hydrolysis of *O,S*-diethyl phenylphosphonothioate on reactive sorbents 175
- Polymerization
- Metathetical polymerization of substituted phenylacetylenes using in situ generated (arene)M(CO)<sub>3</sub> complexes (arene = toluene, *o*-xylene or mesitylene, M = Cr, Mo or W) as catalysts 47
- Chlorinated organic polymers as supports for Ziegler-Natta catalysts 167
- Polysoap
- Microgels with trialkylammonio side chains function as catalysts for the alkaline hydrolysis of substituted phenyl laurate esters 41
- Porphyrin
- Cationic ironporphyrins as catalyst in comparative oxidation of hydrocarbons: homogeneous and supported on inorganic matrices systems 187
- Pt-graphimet
- Transformation of carbon compounds on graphimet catalysts. Part V. The effect of pretreatment on the structure and activity of Pt-graphimet catalyst 115
- Pyridine derivatives
- Electrocatalytic hydrogenation on poly[Rh<sup>III</sup>(L)<sub>2</sub>(Cl)<sub>2</sub>]<sup>+</sup> (L = pyrrole-substituted 2,2'-bipyridine or 1,10-phenanthroline) films electrodes 13
- The cocyclotrimerization of alkynes and acetonitrile with CpCoCOD as catalyst 71
- Pyrrole-substituted derivatives
- Electrocatalytic hydrogenation on poly[Rh<sup>III</sup>(L)<sub>2</sub>(Cl)<sub>2</sub>]<sup>+</sup> (L = pyrrole-substituted 2,2'-bipyridine or 1,10-phenanthroline) films electrodes 13
- Quantum-chemical study
- Cluster quantum-chemical study of the chemisorption of methane on zinc oxide surface 35
- Cluster quantum-chemical study of the chemisorption of methane on a lithium-promoted magnesium oxide doped by zinc oxide 139
- Random copolymers
- Propene-co-butene random copolymers synthesized with superactive Ziegler-Natta catalyst 161
- Rhodium
- Effect of ligand donor-acceptor properties on selectivity of catalytic olefin isomerization reaction 23
- Kinetic and mechanistic investigation of the sequential hydrogenation of phenylacetylene catalyzed by rhodium(I) phosphine complexes of the type [Rh(η<sup>2</sup>-O<sub>2</sub>Z)(PR<sub>3</sub>)<sub>2</sub>] 55
- Spectator cations and catalysis with sulfonated phosphines. The role of cations in determining reaction selectivity in the aqueous phase hydroformylation of olefins 131
- Ruthenium
- Hydrogenation of 1-hexene by a triruthenium cluster stabilized with a face-capping 1,3-dithiacyclohexane ligand 29
- Schiff base macrocycle
- Copper(I) and copper(II) dinuclear complexes of a macrocyclic ligand derived from the 2:2 condensation of pyridine-2,6-dicarboxaldehyde and 1,4,7-triazaheptane 87
- Stoichiometric and catalytic oxidation by a dinuclear copper(I) dioxygen complex and a dinuclear copper(II) complex of a macrocyclic ligand derived from the 2:2 condensation of pyridine-2,6-dicarboxaldehyde and 1,4,7-triazaheptane 101
- Selectivity
- Effect of ligand donor-acceptor properties on selectivity of catalytic olefin isomerization reaction 23
- Spectator cations and catalysis with sulfonated phosphines. The role of cations in determining reaction selectivity in the aqueous phase hydroformylation of olefins 131

## Silica

Catalytic methanol decomposition to carbon monoxide and hydrogen over Ni/SiO<sub>2</sub> of high nickel content 183

## Small angle X-ray scattering

Transformation of carbon compounds on graphimet catalysts. Part V. The effect of pretreatment on the structure and activity of Pt–graphimet catalyst 115

## Sorption microcalorimetry

Transformation of carbon compounds on graphimet catalysts. Part V. The effect of pretreatment on the structure and activity of Pt–graphimet catalyst 115

## Supported catalyst

Cationic ironporphyrins as catalyst in comparative oxidation of hydrocarbons: homogeneous and supported on inorganic matrices systems 187

## Supported catalysts

Chlorinated organic polymers as supports for Ziegler–Natta catalysts 167

Catalytic methanol decomposition to carbon monoxide and hydrogen over Ni/SiO<sub>2</sub> of high nickel content 183

## Temperature rising elution fractionation

Propene-co-butene random copolymers synthesized with superactive Ziegler–Natta catalyst 161

## Thioether

Hydrogenation of 1-hexene by a triruthenium cluster stabilized with a face-capping 1,3-dithiacyclohexane ligand 29

## TPPTS

Spectator cations and catalysis with sulfonated phosphines. The role of cations in determining reaction selectivity in the aqueous phase hydroformylation of olefins 131

## Transesterification

Alkylguanidines as catalysts for the transesterification of rapeseed oil 65

## Transmission electron microscopy

Transformation of carbon compounds on graphimet catalysts. Part V. The effect of pretreatment on the structure and activity of Pt–graphimet catalyst 115

## Tribromide

Oxidation of bromide by chlorate catalysed by Mo 143

## Triruthenium cluster

Hydrogenation of 1-hexene by a triruthenium cluster stabilized with a face-capping 1,3-dithiacyclohexane ligand 29

## Unsymmetric acid anhydride

Kinetics of the reaction of benzoyl chloride and sodium carboxylate under inverse phase-transfer catalysis 153

## Vanadia

Multinuclear NMR studies of V<sub>2</sub>O<sub>5</sub>–Cs<sub>2</sub>S<sub>2</sub>O<sub>7</sub> melts 123

## Vegetable oils

Alkylguanidines as catalysts for the transesterification of rapeseed oil 65

## Vinylidene derivatives

Metathetical polymerization of substituted phenylacetylenes using in situ generated (arene)M(CO)<sub>3</sub> complexes (arene = toluene, *o*-xylene or mesitylene, M = Cr, Mo or W) as catalysts 47

## Wacker catalyst

Oxidation of olefins by palladium(II). Part XIV<sup>1</sup>. Product distribution and kinetics of the oxidation of ethene by PdCl<sub>3</sub>(pyridine)<sup>−</sup> in aqueous solution in the presence and absence of CuCl<sub>2</sub>: a modified Wacker catalyst with altered reactivity 77

## Ziegler–Natta catalyst

Propene-co-butene random copolymers synthesized with superactive Ziegler–Natta catalyst 161

## Ziegler–Natta catalysts

Chlorinated organic polymers as supports for Ziegler–Natta catalysts 167

## Zinc

Cluster quantum-chemical study of the chemisorption of methane on zinc oxide surface 35

## Zinc oxide

Cluster quantum-chemical study of the chemisorption of methane on a lithium-promoted magnesium oxide doped by zinc oxide 139
