Vol. 136, Nos. 1–2

Articles

Chemical and metal complex catalysis

- Mechanistic investigation of the autooxidation of cumene catalyzed by transition metal salts supported on polymer
Y.F. Hsu (Kaoshiung, Taiwan) and C.P. Cheng (Hsin Chu, Taiwan) 1
- [2.2]-*para*-Cyclophane-4-carbaldehyde as building-block for chiral ligands. Part II: Epoxidation of alkenes catalyzed by the Mn(III)-complex of an atropisomerically pure ($\alpha, \beta, \alpha, \beta$)-tetraarylporphyrin
M.T. Rispens, A. Manfredi, G. Pozzi, S. Banfi and S. Quici (Milano, Italy) 13
- Steric and electronic effects of R in (2-(4-R-C₆H₄)indenyl)₂ZrCl₂ catalysts on the synthesis of elastomeric polypropylene
S. Lin, E. Hauptman, T.K. Lal, R.M. Waymouth (Stanford, CA, USA), R.W. Quan and A.B. Ernst (Naperville, IL, USA) 23

Molecular aspects of heterogeneous catalysis

- Effects of thiophene and SO₂ on acrolein hydrogenation over Co/SiO₂ catalysts
J.E. Bailie, C.H. Rochester (Dundee, UK) and G.J. Hutchings (Liverpool, UK) 35
- Clay-supported non-chiral and chiral Mn(salen) complexes as catalysts for olefin epoxidation
J.M. Fraile, J.I. García, J. Massam and J.A. Mayoral (Zaragoza, Spain) 47
- Carboxylate-type palladium(II) complexes as soluble precursors for the preparation of carbon-supported Pd/C catalysts
S. Hermans, M. Wenkin and M. Devillers (Louvain-la-Neuve, Belgium) 59
- Cyclohexane oxidation over rare earth exchanged zeolite Y
E.L. Pires, M. Wallau and U. Schuchardt (Campinas-SP, Brazil) 69
- Electrocatalytic oxidation of preadsorbed monolayer of CO on polycrystalline Pt₆₀-Ru₄₀ electrocatalyst: nucleation and growth of oxygen-containing species
M. Metikoš-Huković and S. Omanović (Zagreb, Croatia) 75
- Preparation of 1,1,1,2-tetrafluoroethane by catalytic fluorination of 1,1,1-trifluoro-2-chloroethane over CrF₃/MgF₂-AlF₃
H. Lee, H.S. Kim, H. Kim, W.S. Jeong and I. Seo (Seoul, South Korea) 85
- New intermediate phases in formation at V–Mg–O catalyst
W. Oganowski, J. Hanuza, L. Kępiński, W. Miśta, M. Mączka, A. Wyrostek and Z. Bukowski (Wrocław, Poland) 91

Vol. 136, No. 3

Articles

Chemical and metal complex catalysis

- A comparative study of hydrosilane compounds as cocatalysts in the metathesis of 1-hexene
I.M. Baibich (Porto, Brazil), C. Kern (Araraquara, Brazil) and J.H.Z. Dos Santos (Porto, Brazil) 213
- Control of selectivity in the cobalt(I)-catalysed cocyclisation of alkynes with nitriles
B. Heller, D. Heller, P. Wagler and G. Oehme (Rostock, Germany) 219
- The copper catalysed reduction of nitric oxide by ammonia in aqueous solution studied by membrane inlet mass spectrometry
P. Pénzeli, L. Dózsa and H. Degn (Debrecen, Hungary) 235

Nickel vs. palladium catalysts for coupling reactions of allyl alcohol with soft nucleophiles: activities and deactivation processes H. Bricout, J.-F. Carpentier and A. Mortreux (Villeneuve d'Ascq, France)	243
Pyridines as bifunctional co-catalysts in the CrO ₃ -catalyzed oxygenation of olefins by <i>t</i> -butyl hydroperoxide G. Rothenberg, H. Wiener and Y. Sasson (Jerusalem, Israel)	253
Polymer-supported palladium–nickel bimetallic catalyst for the regioselective hydroesterification of styrene B.-S. Wan, S.-J. Liao, Y. Xu and D.-R. Yu (Dalian, China)	263
Rhodium-catalyzed hydrocarbonylation of acetic acid into higher acids P. Serp (Toulouse, France), L. Chateau (Strasbourg, France), R. Feurer (Toulouse, France), A. Kiennemann (Strasbourg, France) and P. Kalck (Toulouse, France)	269
Hydroformylation of styrene using thiolato–pyrazolate bridge rhodium catalysts modified with phosphorous ligands A. Orejón, C. Claver (Tarragona, Spain), L.A. Oro, A. Elduque (Zaragoza, Spain) and M.T. Pinillos (Logroño, Spain)	279
Synthesis, characterisation and homogeneous catalytic activity study of Mn(II) and Fe(III) ternary complexes C.A. Sureshan and P.K. Bhattacharya (Baroda, India)	285

Molecular aspects of heterogeneous catalysis

Reduction of platinum dispersed on dealuminated beta zeolite L.-W. Ho, C.-P. Hwang, J.-F. Lee, I. Wang and C.-T. Yeh (Hsinchu, Taiwan)	293
Methane adsorption on Rh/Al ₂ O ₃ D. Wang (Dalian, China), O. Dewaele and G.F. Froment (Gent, Belgium)	301
