

## Author index

- Aika, K.-i., see Ohyama, S. (138) 305  
Anderson, J.A., see Coronado, J.M. (138) 83  
Asai, M., see Ishii, H. (138) 311
- Baiker, A., see Dusi, M. (138) 15  
Baiker, A., see Hutter, R. (138) 241  
Bertoux, F., Tilloy, S., Monflier, E., Castanet, Y. and Mortreux, A.  
A convenient synthesis of phenylpropanoic acids: the palladium catalyzed hydrocarboxylation of styrene derivatives in a two-phase system (138) 53  
Bielañski, A., see Małecka, A. (138) 67  
Blom, R., Dahl, I.M., Follestad, A. and Jens, K.J.  
Isomerisation on the CrCp<sub>2</sub>/SiO<sub>2</sub> catalyst during polymerisation of ethylene: pressure dependence (138) 97  
Boudart, M.  
'On the nature of spilt-over hydrogen' (138) 319  
Brun, P., see Méou, A. (138) 221
- Calanag, R.C.R., see Tanaka, K. (138) 287  
Castanet, Y., see Bertoux, F. (138) 53  
Castanet, Y., see Pellegrini, S. (138) 103  
Cavell, K., see Jones, D. (138) 37  
Chen, S.-M.  
The photocatalytic autoxidation of sulfur oxoanions by water-soluble porphyrin complexes (138) 1  
Chen, Y., see Xia, W.S. (138) 185  
Coronado, J.M. and Anderson, J.A.  
FTIR study of the interaction of NO<sub>2</sub> and propene with Pt/BaCl<sub>2</sub>/SiO<sub>2</sub> (138) 83
- Dahl, I.M., see Blom, R. (138) 97  
De Jesús, J.C. and Zaera, F.  
Double-bond activation in unsaturated aldehydes: conversion of acrolein to propene and ketene on Pt(111) surfaces (138) 237  
DeRoover, C., see Kiss, G. (138) 155  
Draye, A.-C. and Tondeur, J.-J.  
Kinetic study of organotin-catalyzed alcohol–isocyanate reactions. Part I: Inhibition by carboxylic acids in toluene (138) 135
- Dusi, M., Mallat, T. and Baiker, A.  
Chemo- and diastereoselective epoxidation of allylic alcohols with a titania–silica aerogel (138) 15
- Farkas, G., Fodor, K., Tungler, A., Máthé, T., Tóth, G. and Sheldon, R.A.  
New chiral auxiliaries in enantioselective heterogeneous catalytic hydrogenations: (–) and (+)-dihydro-apovincaminic acid. Comparison with (–)-dihydro-apovincaminic acid ethyl ester. III (138) 123
- Fischer, R.W., see Herrmann, W.A. (138) 115  
Fodor, K., see Farkas, G. (138) 123  
Follestad, A., see Blom, R. (138) 97
- Garcia, M.-A., see Méou, A. (138) 221
- Haider, J.J., see Herrmann, W.A. (138) 115  
Hashimoto, K. and Toukai, N.  
Non-expanding mica incorporating alumina in the interlayer regions: a new preparation technique of fine particles of alumina (138) 59  
Herrmann, W.A., Haider, J.J. and Fischer, R.W.  
Rhenium-catalyzed oxidation of arenes—an improved synthesis of vitamin K<sub>3</sub> (138) 115  
Hiraishi, T., Kamachi, T. and Okura, I.  
Photoinduced hydrogen evolution with viologen-linked ruthenium(II) complexes and hydrogenase (138) 107  
Hisanaga, T., see Tanaka, K. (138) 287  
Hutter, R., Mallat, T., Peterhans, A. and Baiker, A.  
Control of acidity and selectivity of titania–silica aerogel for the epoxidation of β-isophorone (138) 241
- Ishii, H., Ueda, M., Takeuchi, K. and Asai, M.  
Oxidative carbonylation of phenol to diphenyl carbonate catalyzed by Pd–Sn complexes with redox catalyst (138) 311
- Jang, E.J., Lee, K.H., Lee, J.S. and Kim, Y.G.  
Regioselective synthesis of ibuprofen via the palladium complex catalyzed hydrocarboxylation of 1-(4-isobutylphenyl) ethanol (138) 25
- Jens, K.J., see Blom, R. (138) 97  
Jia, J., Shen, J., Lin, L., Xu, Z., Zhang, T. and Liang, D.  
A study on reduction behaviors of the supported platinum–iron catalysts (138) 177
- Jones, D., Cavell, K. and Keim, W.  
Zirconium complexes as catalysts for the oligomerisation of ethylene: the role of chelate ligands and the Lewis acid cocatalyst in the generation of the active species (138) 37
- Kale, S.M. and Singh, A.P.  
A catalytic method for the selective chlorination of benzyl chloride to 4-chlorobenzyl chloride using zeolite catalysts (138) 263
- Kamachi, T., see Hiraishi, T. (138) 107  
Karlsson, U.O., see Lu, H. (138) 227

- Keane, M.A.  
Gas phase reaction of hydrogen with carboxyl and carbonyl functions in aromatic systems over Ni/SiO<sub>2</sub> (138) 197
- Keim, W., see Jones, D. (138) 37
- Kim, Y.G., see Jang, E.J. (138) 25
- Kiss, G., Mozeleski, E.J., Nadler, K.C., VanDriessche, E. and DeRoover, C.  
Hydroformylation of ethene with triphenylphosphine modified rhodium catalyst: kinetic and mechanistic studies (138) 155
- Komura, T., see Tsuda, Y. (138) 145
- Lee, E.S., see Ohyama, S. (138) 305
- Lee, J.S., see Jang, E.J. (138) 25
- Lee, K.H., see Jang, E.J. (138) 25
- Liang, D., see Jia, J. (138) 177
- Lin, L., see Jia, J. (138) 177
- Liu, H., see Liu, M. (138) 295
- Liu, H., see Yu, W. (138) 273
- Liu, M., Yu, W. and Liu, H.  
Selective hydrogenation of *o*-chloronitrobenzene over polymer-stabilized ruthenium colloidal catalysts (138) 295
- Liu, M., see Yu, W. (138) 273
- Lu, H., Pradier, C.-M. and Karlsson, U.O.  
Catalytic reduction of nitric oxide over copper. Part III: Influence of water vapour (138) 227
- Małecka, A., Poźniczek, J., Micek-Ilnicka, A. and Bielański, A.  
Gas phase synthesis of MTBE on dodecatungstosilicic acid as the catalyst (138) 67
- Mallat, T., see Dusi, M. (138) 15
- Mallat, T., see Hutter, R. (138) 241
- Máthé, T., see Farkas, G. (138) 123
- Matsui, S., see Tsuda, Y. (138) 145
- Méou, A., Garcia, M.-A. and Brun, P.  
Oxygen transfer mechanism in the Mn-salen catalysed epoxidation of olefins (138) 221
- Micek-Ilnicka, A., see Małecka, A. (138) 67
- Monflier, E., see Bertoux, F. (138) 53
- Mortreux, A., see Bertoux, F. (138) 53
- Mortreux, A., see Pellegrini, S. (138) 103
- Mozeleski, E.J., see Kiss, G. (138) 155
- Nadler, K.C., see Kiss, G. (138) 155
- Neumann, R., see Rogovin, M. (138) 315
- Nishiguchi, I., see Tsuda, Y. (138) 145
- Ohyama, S., Lee, E.S. and Aika, K.-i.  
Selective formation of methanol over nickel carbonyl with potassium methoxide (138) 305
- Okura, I., see Hiraishi, T. (138) 107
- Pakkanen, T.A., see Suvanto, M. (138) 211
- Pellegrini, S., Castanet, Y. and Mortreux, A.  
Efficient methoxycarbonylation of benzyl chloride without external carbon monoxide: a further application of methyl formate in synthesis using PdCl<sub>2</sub>(PPh<sub>3</sub>)<sub>2</sub> as catalyst (138) 103
- Peterhans, A., see Hutter, R. (138) 241
- Poźniczek, J., see Małecka, A. (138) 67
- Pradier, C.-M., see Lu, H. (138) 227
- Pu, L., Ye, L. and Yuanqi, Y.  
Homogeneous hydrogenation of maleic anhydride to succinic anhydride catalyzed by Rh complex catalyst (138) 129
- Rogovin, M. and Neumann, R.  
Silicate xerogels containing cobalt as heterogeneous catalysts for the side-chain oxidation of alkyl aromatic compounds with *tert*-butyl hydroperoxide (138) 315
- Schnyder, B., see Scholz, A. (138) 249
- Scholz, A., Schnyder, B. and Wokaun, A.  
Influence of calcination treatment on the structure of grafted WO<sub>x</sub> species on titania (138) 249
- Sheldon, R.A., see Farkas, G. (138) 123
- Shen, J., see Jia, J. (138) 177
- Singh, A.P., see Kale, S.M. (138) 263
- Suvanto, M. and Pakkanen, T.A.  
Deposition of tungsten hexacarbonyl on alumina: a diffuse reflectance infrared Fourier transform spectroscopy study (138) 211
- Takahashi, K., see Tsuda, Y. (138) 145
- Takeuchi, K., see Ishii, H. (138) 311
- Tanaka, K., Calanag, R.C.R. and Hisanaga, T.  
Photocatalyzed degradation of lignin on TiO<sub>2</sub> (138) 287
- Tao, Q., see Yu, W. (138) 273
- Tilloy, S., see Bertoux, F. (138) 53
- Tondeur, J.-J., see Draye, A.-C. (138) 135
- Tóth, G., see Farkas, G. (138) 123
- Toukai, N., see Hashimoto, K. (138) 59
- Tsuda, Y., Takahashi, K., Yamaguchi, T., Matsui, S., Komura, T. and Nishiguchi, I.  
Dioxygen-activated reductive epoxidation of cyclohexene using Mn(III) porphyrin as catalyst and hexylviologen as electron mediator (138) 145
- Tungler, A., see Farkas, G. (138) 123
- Ueda, M., see Ishii, H. (138) 311
- VanDriessche, E., see Kiss, G. (138) 155
- Wan, H.L., see Xia, W.S. (138) 185
- Wokaun, A., see Scholz, A. (138) 249
- Xia, W.S., Wan, H.L. and Chen, Y.  
Cluster model study on the surface interactions of  $\gamma$ -alumina-supported metal oxides (138) 185
- Xu, Z., see Jia, J. (138) 177
- Yamaguchi, T., see Tsuda, Y. (138) 145
- Ye, L., see Pu, L. (138) 129
- Yu, W., Liu, H., Liu, M. and Tao, Q.  
Selective hydrogenation of  $\alpha,\beta$ -unsaturated aldehyde to  $\alpha,\beta$ -unsaturated alcohol over polymer-stabilized platinum colloid and the promotion effect of metal cations (138) 273
- Yu, W., see Liu, M. (138) 295
- Yuanqi, Y., see Pu, L. (138) 129
- Zaera, F., see De Jesús, J.C. (138) 237
- Zhang, T., see Jia, J. (138) 177
