

## Subject index

### Acetic acid

A novel supported catalyst for the carbonylation of methanol (Jiang, H. (148) 215)

### Acidity

Chlorinated alumina as an alkylation catalyst: influence of superficial HCl (Clet, G. (148) 253)

### Activator

Influence of activators on ethylene polymerization with diphenylmethylidene-(cyclopentadienyl)(fluorenyl)zirconium dichloride catalysts at high temperature (Yano, A. (148) 77)

### Aldol reaction

Guanidines encapsulated in zeolite Y and anchored to MCM-41: synthesis and catalytic activity (Sercheli, R. (148) 173)

### Alkenes

Catalytic activity and selectivity of  $\text{Ru}(=\text{CHPh})\text{Cl}_2(\text{PCy}_3)_2$  in the metathesis of linear alkenes (Buchowicz, W. (148) 97)

### 1-Alkenes

Methyltrioxorhenium on silica–alumina as metathesis catalyst of 1-octene (Mathew, T.M. (148) 157)

### Aluminium alkyls

Kinetics and mechanistic insight into propylene polymerization with different metallocenes and various aluminium alkyls as cocatalysts (Kleinschmidt, R. (148) 29)

### [Al]/[Zr]-ratio

Kinetics and mechanistic insight into propylene polymerization with different metallocenes and various aluminium alkyls as cocatalysts (Kleinschmidt, R. (148) 29)

### Anchoring

Guanidines encapsulated in zeolite Y and anchored to MCM-41: synthesis and catalytic activity (Sercheli, R. (148) 173)

### Aqueous media

Role of hydrophobic effects in organic reactions catalysed by zeolites (Finiels, A. (148) 165)

### Aromatic amines

$\text{FeCl}_2\text{py}_4^+$  catalyzed transformation of aromatic amines by HOOH under mild conditions (Costas, M. (148) 49)

### Arsines

Aerobic oxidation of trivalent phosphorus and arsenic compounds in the presence of 3-methylbutanal and metal catalyst (Mastrorilli, P. (148) 17)

### Biphasic synthesis

Biphasic coupling polymerization of 2,6-dimethylphenol using surface-active copper complex catalysts (Chung, Y.M. (148) 117)

### Butene

Chlorinated alumina as an alkylation catalyst: influence of superficial HCl (Clet, G. (148) 253)

### Catalysis

Methyltrioxorhenium on silica–alumina as metathesis catalyst of 1-octene (Mathew, T.M. (148) 157)

### Catalytic oxidations

$\text{FeCl}_2\text{py}_4^+$  catalyzed transformation of aromatic amines by HOOH under mild conditions (Costas, M. (148) 49)

### Catalytic transfer hydrogenation

Hydrogenation of unsaturated ketones: selective catalytic transfer hydrogenation of 5-hexen-2-one over MgO (Szöllösi, G. (148) 265)

### Cerium complexes

Cerium complexes with phthaloylbis(pyrazolone) ligands as an efficient catalysts for cresols dioxygenation (Yoshikuni, T. (148) 285)

### Charge-transfer complexes

Charge-transfer complexes of arene–molybdenum–tricarbonyl complexes as heterogeneous metathesis catalysts for the polymerization of phenylacetylene (Mula, M.B. (148) 23)

### Chemoselectivity

Unprecedented selectivity behaviour in the hydrogenation of an  $\alpha,\beta$ -unsaturated ketone: hydrogenation of ketoisophorone over alumina-supported Pt and Pd (Von Arx, M. (148) 275)

### Chlorinated alumina

Chlorinated alumina as an alkylation catalyst: influence of superficial HCl (Clet, G. (148) 253)

### Chlorine effect on rhodium

Effect of rhodium precursor and thermal treatment on the hydrogenation of 2-cyclohexenone on Rh/SiO<sub>2</sub> Catalysts (Ronzón, E. (148) 105)

### Chloroaluminates

Homogeneous and two-phase dimerization of olefins catalyzed by tungsten complexes. The role of imido ligands and Lewis acids (Olivier, H. (148) 43)

### Chloroform-*d*

Hydrogenation of unsaturated ketones: selective catalytic transfer hydrogenation of 5-hexen-2-one over MgO (Szöllösi, G. (148) 265)

### Chloromethanes

Hydrogenation of unsaturated ketones: selective catalytic transfer hydrogenation of 5-hexen-2-one over MgO (Szöllösi, G. (148) 265)

## Conformation

Hydroxylation of cyclohexane catalyzed by iron(III)–iron(III) porphyrin dimers and DABCO with molecular oxygen: evidence for the conformation effect of porphyrin dimers on the catalytic activity (Ren, Q.-Z. (148) 9)

## Coordination catalysis

The regioselectivity of Diels–Alder reaction of myrcene with carbonyl-containing dienophiles catalysed by Lewis acids (Yin, D. (148) 87)

## Cresols dioxygenation

Cerium complexes with phthaloylbis(pyrazolone) ligands as an efficient catalysts for cresols dioxygenation (Yoshikuni, T. (148) 285)

 $\beta$ -Cyclodextrin

Stereoselective hydrogenation of (*R*)-(+)-pulegone and (2*S*,5*R*)-(–)-menthone in presence of  $\beta$ -cyclodextrin and its derivatives (Ravi, P. (148) 145)

## Cyclohexane

The oxyfunctionalization of cyclohexane catalyzed by Mn(II) complexes included in zeolite Y (Farzaneh, F. (148) 227)

## Cyclohexene epoxidation

Highly selective epoxidation of cyclohexene by reductive activation of molecular dioxygen using hexylviologen as catalyst (Tsuda, Y. (148) 183)

## Cyclohexene hydrogenation

Effect of rhodium precursor and thermal treatment on the hydrogenation of 2-cyclohexenone on Rh/SiO<sub>2</sub> Catalysts (Ronzón, E. (148) 105)

## Cyclohexenone hydrogenation

Effect of rhodium precursor and thermal treatment on the hydrogenation of 2-cyclohexenone on Rh/SiO<sub>2</sub> Catalysts (Ronzón, E. (148) 105)

## Deactivation

Hydrogenation of unsaturated ketones: selective catalytic transfer hydrogenation of 5-hexen-2-one over MgO (Szöllösi, G. (148) 265)

## Dealuminated mordenites

Role of hydrophobic effects in organic reactions catalysed by zeolites (Finiels, A. (148) 165)

## 1,2-Dichloroethane

Hydrodechlorination of 1,2-dichloroethane by rhodium catalysts under water gas shift reaction conditions (Trabuco, E. (148) 1)

## Diels–Alder reaction

The regioselectivity of Diels–Alder reaction of myrcene with carbonyl-containing dienophiles catalysed by Lewis acids (Yin, D. (148) 87)

## Dihydride complex

Effective transfer hydrogenation of unsaturated compounds by ruthenium dihydride complex in propan-2-ol (Mizushima, E. (148) 69)

## Dimerization

Homogeneous and two-phase dimerization of olefins catalyzed by tungsten complexes. The role of imido ligands and Lewis acids (Olivier, H. (148) 43)

## Dinuclear complex

Oxidative carbonylation of phenol to diphenyl carbonate catalyzed by Pd dinuclear complex bridged with pyridylphosphine ligand (Ishii, H. (148) 289)

## Diphenyl carbonate

Oxidative carbonylation of phenol to diphenyl carbonate catalyzed by Pd dinuclear complex bridged with pyridylphosphine ligand (Ishii, H. (148) 289)

## Disodium malate

Hydrogenolysis of disodium *trans*-epoxysuccinate in the solid-to-solid state with palladium catalysts (Kitamura, T. (148) 197)

Disodium *trans*-epoxysuccinate

Hydrogenolysis of disodium *trans*-epoxysuccinate in the solid-to-solid state with palladium catalysts (Kitamura, T. (148) 197)

## Enantioselectivity

Unprecedented selectivity behaviour in the hydrogenation of an  $\alpha,\beta$ -unsaturated ketone: hydrogenation of ketoisophorone over alumina-supported Pt and Pd (Von Arx, M. (148) 275)

## Encapsulation

Guanidines encapsulated in zeolite Y and anchored to MCM-41: synthesis and catalytic activity (Sercheli, R. (148) 173)

## Esters

Catalytic activity and selectivity of Ru(=CHPh)Cl<sub>2</sub>(PCy<sub>3</sub>)<sub>2</sub> in the metathesis of linear alkenes (Buchowicz, W. (148) 97)

## Ethylene

Synthesis of supported titanocene amide complex and its use as a catalyst in ethylene polymerization (Timonen, S. (148) 235)

## Ethylene polymerization

Influence of activators on ethylene polymerization with diphenylmethylidene-(cyclopentadienyl)(fluorenyl)zirconium dichloride catalysts at high temperature (Yano, A. (148) 77)

## Fe(III)-pyridine-chloride complex

FeCl<sub>2</sub>py<sub>4</sub><sup>+</sup> catalyzed transformation of aromatic amines by HOOH under mild conditions (Costas, M. (148) 49)

## FT-IR

Hydrogenation of unsaturated ketones: selective catalytic transfer hydrogenation of 5-hexen-2-one over MgO (Szöllösi, G. (148) 265)

## Guanidine

Guanidines encapsulated in zeolite Y and anchored to MCM-41: synthesis and catalytic activity (Sercheli, R. (148) 173)

(2*E*,4*E*)-hexadienol

Hydrogenation of (2*E*,4*E*)-hexadienol (Kukula, P. (148) 245)

## 5-Hexen-2-one

Hydrogenation of unsaturated ketones: selective catalytic transfer hydrogenation of 5-hexen-2-one over MgO (Szöllösi, G. (148) 265)

## High temperature

Influence of activators on ethylene polymerization with diphenylmethylidene-(cyclopentadienyl)(fluorenyl)zirconium dichloride catalysts at high temperature (Yano, A. (148) 77)

## Hydration

Role of hydrophobic effects in organic reactions catalysed by zeolites (Finiels, A. (148) 165)

## Hydrodechlorination

Hydrodechlorination of 1,2-dichloroethane by rhodium catalysts under water gas shift reaction conditions (Trabuco, E. (148) 1)

**Hydroformylation**

Hydrogenation and hydroformylation of C<sub>4</sub> unsaturated alcohols with an [Rh(acac)(CO)<sub>2</sub>]/PNS catalyst in water solution (PNS=Ph<sub>2</sub> PCH<sub>2</sub>CH<sub>2</sub>CONHC(CH<sub>3</sub>)<sub>2</sub>CH<sub>2</sub>SO<sub>3</sub>Li) (Mieczynska, E. (148) 59)

**Hydrogenation**

Hydrogenation and hydroformylation of C<sub>4</sub> unsaturated alcohols with an [Rh(acac)(CO)<sub>2</sub>]/PNS catalyst in water solution (PNS=Ph<sub>2</sub> PCH<sub>2</sub>CH<sub>2</sub>CONHC(CH<sub>3</sub>)<sub>2</sub>CH<sub>2</sub>SO<sub>3</sub>Li) (Mieczynska, E. (148) 59)

Stereoselective hydrogenation of (*R*)-(+)-pulegone and (2*S*,5*R*)-(–)-menthone in presence of β-cyclodextrin and its derivatives (Ravi, P. (148) 145)

Unprecedented selectivity behaviour in the hydrogenation of an α,β-unsaturated ketone: hydrogenation of ketoisophorone over alumina-supported Pt and Pd (Von Arx, M. (148) 275)

**Hydrogenation–isomerization–dehydrogenation reactions**

Liquid phase hydrogenation, isomerization and dehydrogenation of limonene and derivatives with supported palladium catalysts (Grau, R.J. (148) 203)

**Hydrogenolysis in the solid state**

Hydrogenolysis of disodium *trans*-epoxysuccinate in the solid-to-solid state with palladium catalysts (Kitamura, T. (148) 197)

**Hydrogenolysis in the solid-to-solid state**

Hydrogenolysis of disodium *trans*-epoxysuccinate in the solid-to-solid state with palladium catalysts (Kitamura, T. (148) 197)

**Hydrogen peroxide**

FeCl<sub>2</sub>py<sub>4</sub><sup>+</sup> catalyzed transformation of aromatic amines by HOOH under mild conditions (Costas, M. (148) 49)

**Hydrophobic effect**

Role of hydrophobic effects in organic reactions catalysed by zeolites (Finiels, A. (148) 165)

**Hydroxydialkoxybenzaldehyde**

Cerium complexes with phthaloylbis(pyrazolone) ligands as an efficient catalysts for cresols dioxygenation (Yoshikuni, T. (148) 285)

**Hydroxylation**

Hydroxylation of cyclohexane catalyzed by iron(III)–iron(III) porphyrin dimers and DABCO with molecular oxygen: evidence for the conformation effect of porphyrin dimers on the catalytic activity (Ren, Q.-Z. (148) 9)

**Hydroxymethylation**

Role of hydrophobic effects in organic reactions catalysed by zeolites (Finiels, A. (148) 165)

**Ionic liquids**

Homogeneous and two-phase dimerization of olefins catalyzed by tungsten complexes. The role of imido ligands and Lewis acids (Olivier, H. (148) 43)

**Iron(III)–iron(III) porphyrin dimer**

Hydroxylation of cyclohexane catalyzed by iron(III)–iron(III) porphyrin dimers and DABCO with molecular oxygen: evidence for the conformation effect of porphyrin dimers on the catalytic activity (Ren, Q.-Z. (148) 9)

**Isobutane alkylation**

Chlorinated alumina as an alkylation catalyst: influence of superficial HCl (Clet, G. (148) 253)

**Ketoisophorone**

Unprecedented selectivity behaviour in the hydrogenation of an α,β-unsaturated ketone: hydrogenation of ketoisophorone over alumina-supported Pt and Pd (Von Arx, M. (148) 275)

**Leaf alcohols**

Hydrogenation of (2*E*,4*E*)-hexadienol (Kukula, P. (148) 245)

**Lewis acid catalyst**

The regioselectivity of Diels–Alder reaction of myrcene with carbonyl-containing dienophiles catalysed by Lewis acids (Yin, D. (148) 87)

**Limonene hydrogenation**

Liquid phase hydrogenation, isomerization and dehydrogenation of limonene and derivatives with supported palladium catalysts (Grau, R.J. (148) 203)

**Magnesium oxide**

Hydrogenation of unsaturated ketones: selective catalytic transfer hydrogenation of 5-hexen-2-one over MgO (Szöllösi, G. (148) 265)

**MAO**

Kinetics and mechanistic insight into propylene polymerization with different metallocenes and various aluminium alkyls as cocatalysts (Kleinschmidt, R. (148) 29)

**MAO calculation**

MO studies of propylene adsorption on EtInd<sub>2</sub>ZrCH<sub>3</sub><sup>+</sup>||SiO<sub>2</sub>-MAO<sup>-</sup> (Ferreira, M.L. (148) 127)

**MCM-41**

Guanidines encapsulated in zeolite Y and anchored to MCM-41: synthesis and catalytic activity (Sercheli, R. (148) 173)

**(2*S*,5*R*)-(–)-Menthone**

Stereoselective hydrogenation of (*R*)-(+)-pulegone and (2*S*,5*R*)-(–)-menthone in presence of β-cyclodextrin and its derivatives (Ravi, P. (148) 145)

**Metal amide**

Synthesis of supported titanocene amide complex and its use as a catalyst in ethylene polymerization (Timonen, S. (148) 235)

**Metal β-diketonates**

Aerobic oxidation of trivalent phosphorus and arsenic compounds in the presence of 3-methylbutanal and metal catalyst (Mastrorilli, P. (148) 17)

**Metallocene**

Kinetics and mechanistic insight into propylene polymerization with different metallocenes and various aluminium alkyls as cocatalysts (Kleinschmidt, R. (148) 29)

Influence of activators on ethylene polymerization with diphenylmethylidene-(cyclopentadienyl)(fluorenyl)zirconium dichloride catalysts at high temperature (Yano, A. (148) 77)

**Metathesis**

Charge-transfer complexes of arene–molybdenum–tricarbonyl complexes as heterogeneous metathesis catalysts for the polymerization of phenylacetylene (Mula, M.B. (148) 23)

Homogeneous and two-phase dimerization of olefins catalyzed by tungsten complexes. The role of imido ligands and Lewis acids (Olivier, H. (148) 43)

Catalytic activity and selectivity of Ru(=CHPh)Cl<sub>2</sub>(PCy<sub>3</sub>)<sub>2</sub> in the metathesis of linear alkenes (Buchowicz, W. (148) 97)

Methyltrioxorhenium on silica–alumina as metathesis catalyst of 1-octene (Mathew, T.M. (148) 157)

## Methanol carbonylation

A novel supported catalyst for the carbonylation of methanol (Jiang, H. (148) 215)

## Methyltrioxorhenium

Methyltrioxorhenium on silica–alumina as metathesis catalyst of 1-octene (Mathew, T.M. (148) 157)

## Mn complexes

The oxyfunctionalization of cyclohexane catalyzed by Mn(II) complexes included in zeolite Y (Farzaneh, F. (148) 227)

## Molecular weight

Kinetics and mechanistic insight into propylene polymerization with different metallocenes and various aluminium alkyls as cocatalysts (Kleinschmidt, R. (148) 29)

## Molybdenum

Charge-transfer complexes of arene–molybdenum–tricarbonyl complexes as heterogeneous metathesis catalysts for the polymerization of phenylacetylene (Mula, M.B. (148) 23)

## Myrcene

The regioselectivity of Diels–Alder reaction of myrcene with carbonyl-containing dienophiles catalysed by Lewis acids (Yin, D. (148) 87)

## Organoimido

Homogeneous and two-phase dimerization of olefins catalyzed by tungsten complexes. The role of imido ligands and Lewis acids (Olivier, H. (148) 43)

## Oxidation

Aerobic oxidation of trivalent phosphorus and arsenic compounds in the presence of 3-methylbutanal and metal catalyst (Mastrorilli, P. (148) 17)

## Oxidative carbonylation

Oxidative carbonylation of phenol to diphenyl carbonate catalyzed by Pd dinuclear complex bridged with pyridylphosphine ligand (Ishii, H. (148) 289)

## Oxidative coupling

Biphasic coupling polymerization of 2,6-dimethylphenol using surface-active copper complex catalysts (Chung, Y.M. (148) 117)

## Oxyfunctionalization

The oxyfunctionalization of cyclohexane catalyzed by Mn(II) complexes included in zeolite Y (Farzaneh, F. (148) 227)

## Palladium

Oxidative carbonylation of phenol to diphenyl carbonate catalyzed by Pd dinuclear complex bridged with pyridylphosphine ligand (Ishii, H. (148) 289)

## Palladium/alumina

Liquid phase hydrogenation, isomerization and dehydrogenation of limonene and derivatives with supported palladium catalysts (Grau, R.J. (148) 203)

## Palladium/carbon

Liquid phase hydrogenation, isomerization and dehydrogenation of limonene and derivatives with supported palladium catalysts (Grau, R.J. (148) 203)

## Palladium catalyst

Hydrogenolysis of disodium *trans*-epoxysuccinate in the solid-to-solid state with palladium catalysts (Kitamura, T. (148) 197)

## Pd/alumina

Unprecedented selectivity behaviour in the hydrogenation of an  $\alpha,\beta$ -unsaturated ketone: hydrogenation of ketoisophorone over alumina-supported Pt and Pd (Von Arx, M. (148) 275)

## Phosphines

Aerobic oxidation of trivalent phosphorus and arsenic compounds in the presence of 3-methylbutanal and metal catalyst (Mastrorilli, P. (148) 17)

## Phosphites

Aerobic oxidation of trivalent phosphorus and arsenic compounds in the presence of 3-methylbutanal and metal catalyst (Mastrorilli, P. (148) 17)

## Phthaloylbis(pyrazolone)

Cerium complexes with phthaloylbis(pyrazolone) ligands as an efficient catalysts for cresols dioxygenation (Yoshikuni, T. (148) 285)

## Poly(2,6-dimethyl-1,4-phenylene oxide) (PPO)

Biphasic coupling polymerization of 2,6-dimethylphenol using surface-active copper complex catalysts (Chung, Y.M. (148) 117)

## Polymerization

Charge-transfer complexes of arene–molybdenum–tricarbonyl complexes as heterogeneous metathesis catalysts for the polymerization of phenylacetylene (Mula, M.B. (148) 23)

Synthesis of supported titanocene amide complex and its use as a catalyst in ethylene polymerization (Timonen, S. (148) 235)

## Polymerization rate

Kinetics and mechanistic insight into propylene polymerization with different metallocenes and various aluminium alkyls as cocatalysts (Kleinschmidt, R. (148) 29)

## 2-Propanol

Hydrogenation of unsaturated ketones: selective catalytic transfer hydrogenation of 5-hexen-2-one over MgO (Szöllösi, G. (148) 265)

## Propylene adsorption

MO studies of propylene adsorption on  $\text{EtIn}_2\text{ZrCH}_3^+\|\text{SiO}_2\text{-MAO}^-$  (Ferreira, M.L. (148) 127)

## Propylene polymerization

Kinetics and mechanistic insight into propylene polymerization with different metallocenes and various aluminium alkyls as cocatalysts (Kleinschmidt, R. (148) 29)

## Pt/alumina

Unprecedented selectivity behaviour in the hydrogenation of an  $\alpha,\beta$ -unsaturated ketone: hydrogenation of ketoisophorone over alumina-supported Pt and Pd (Von Arx, M. (148) 275)

*(R)*-(+)-pulegone

Stereoselective hydrogenation of *(R)*-(+)-pulegone and *(2S,5R)*-(-)-menthone in presence of  $\beta$ -cyclodextrin and its derivatives (Ravi, P. (148) 145)

## Pyridylphosphine

Oxidative carbonylation of phenol to diphenyl carbonate catalyzed by Pd dinuclear complex bridged with pyridylphosphine ligand (Ishii, H. (148) 289)

## Reaction schemes

Liquid phase hydrogenation, isomerization and dehydrogenation of limonene and derivatives with supported palladium catalysts (Grau, R.J. (148) 203)

## Reductively activated dioxygen

Highly selective epoxidation of cyclohexene by reductive activation of molecular dioxygen using hexylviologen as catalyst (Tsuda, Y. (148) 183)

## Regioselectivity

The regioselectivity of Diels–Alder reaction of myrcene with carbonyl-containing dienophiles catalysed by Lewis acids (Yin, D. (148) 87)

## Rhodium catalysts

Hydrodechlorination of 1,2-dichloroethane by rhodium catalysts under water gas shift reaction conditions (Trabuco, E. (148) 1)

Effect of rhodium precursor and thermal treatment on the hydrogenation of 2-cyclohexenone on Rh/SiO<sub>2</sub> Catalysts (Ronzón, E. (148) 105)

## Rhodium sintering

Effect of rhodium precursor and thermal treatment on the hydrogenation of 2-cyclohexenone on Rh/SiO<sub>2</sub> Catalysts (Ronzón, E. (148) 105)

## Rh/Ys catalyst

A novel supported catalyst for the carbonylation of methanol (Jiang, H. (148) 215)

## Ruthenium

Effective transfer hydrogenation of unsaturated compounds by ruthenium dihydride complex in propan-2-ol (Mizushima, E. (148) 69)

## Ruthenium catalyst

Catalytic activity and selectivity of Ru(=CHPh)Cl<sub>2</sub>(PCy<sub>3</sub>)<sub>2</sub> in the metathesis of linear alkenes (Buchowicz, W. (148) 97)

## Selective hydrogenation

Hydrogenation of (2*E*,4*E*)-hexadienol (Kukula, P. (148) 245)

## Selectivity

Catalytic activity and selectivity of Ru(=CHPh)Cl<sub>2</sub>(PCy<sub>3</sub>)<sub>2</sub> in the metathesis of linear alkenes (Buchowicz, W. (148) 97)

## Si,Al framework

A simulated annealing study of Si,Al distribution in the omega framework (Li, B. (148) 189)

## Silica

Synthesis of supported titanocene amide complex and its use as a catalyst in ethylene polymerization (Timonen, S. (148) 235)

## Sorbic acid

Hydrogenation of (2*E*,4*E*)-hexadienol (Kukula, P. (148) 245)

## Supported metallocene

MO studies of propylene adsorption on EtInd<sub>2</sub>ZrCH<sub>3</sub><sup>+</sup>||SiO<sub>2</sub>-MAO<sup>-</sup> (Ferreira, M.L. (148) 127)

## Surface-active ligand

Biphasic coupling polymerization of 2,6-dimethylphenol using surface-active copper complex catalysts (Chung, Y.M. (148) 117)

*t*-Butylhydro-peroxide

FeCl<sub>2</sub>py<sub>4</sub><sup>+</sup> catalyzed transformation of aromatic amines by HOOH under mild conditions (Costas, M. (148) 49)

## Temperature-programmed desorption

Chlorinated alumina as an alkylation catalyst: influence of superficial HCl (Clet, G. (148) 253)

## Tetrahedral sites

A simulated annealing study of Si,Al distribution in the omega framework (Li, B. (148) 189)

## Thermal treatment of supported rhodium

Effect of rhodium precursor and thermal treatment on the hydrogenation of 2-cyclohexenone on Rh/SiO<sub>2</sub> Catalysts (Ronzón, E. (148) 105)

## Titanium

Synthesis of supported titanocene amide complex and its use as a catalyst in ethylene polymerization (Timonen, S. (148) 235)

## Transfer hydrogenation

Effective transfer hydrogenation of unsaturated compounds by ruthenium dihydride complex in propan-2-ol (Mizushima, E. (148) 69)

## Transition metal complex

Biphasic coupling polymerization of 2,6-dimethylphenol using surface-active copper complex catalysts (Chung, Y.M. (148) 117)

## Tungsten

Homogeneous and two-phase dimerization of olefins catalyzed by tungsten complexes. The role of imido ligands and Lewis acids (Olivier, H. (148) 43)

## Unsaturated alcohols

Hydrogenation and hydroformylation of C<sub>4</sub> unsaturated alcohols with an [Rh(acac)(CO)<sub>2</sub>]/PNS catalyst in water solution (PNS=Ph<sub>2</sub> PCH<sub>2</sub>CH<sub>2</sub>CONHC(CH<sub>3</sub>)<sub>2</sub>CH<sub>2</sub>SO<sub>3</sub>Li) (Mieczynska, E. (148) 59)

## Viologen catalyst

Highly selective epoxidation of cyclohexene by reductive activation of molecular dioxygen using hexylviologen as catalyst (Tsuda, Y. (148) 183)

## Zeolite omega

A simulated annealing study of Si,Al distribution in the omega framework (Li, B. (148) 189)

## Zeolite Y

Guanidines encapsulated in zeolite Y and anchored to MCM-41: synthesis and catalytic activity (Sercheli, R. (148) 173)

The oxyfunctionalization of cyclohexane catalyzed by Mn(II) complexes included in zeolite Y (Farzaneh, F. (148) 227)

## Zirconocene

MO studies of propylene adsorption on EtInd<sub>2</sub>ZrCH<sub>3</sub><sup>+</sup>||SiO<sub>2</sub>-MAO<sup>-</sup> (Ferreira, M.L. (148) 127)
