#### SPECIAL ISSUE:

Catalysis with Supported Palladium Metal at the Turn of the 21<sup>st</sup> Century

Guest Editors: B. Corain

M. Kralik

Foreword . . . . .	1
<b>General topics</b>	
Supported palladium catalysts for fine chemicals synthesis H.-U. Blaser, A. Indolese, A. Schnyder, H. Steiner and M. Studer (Basel, Switzerland) . . . . .	3
Implication of palladium geometric and electronic structures to hydrogen activation on bulk surfaces and clusters I. Efremenko (Haifa, Israel) . . . . .	19
High resolution TEM studies on palladium nanoparticles M. José-Yacamán (Austin, TX, USA and Del. Álvaro Obregón, Mexico), M. Marín-Almazo and J.A. Ascencio (México, Mexico) . . . . .	61
Synthesis of supported palladium catalysts M.L. Toebes, J.A. van Dillen and K.P. de Jong (Utrecht, The Netherlands) . . . . .	75
Generating palladium nanoclusters inside functional cross-linked polymer frameworks B. Corain (Padova, Italy) and M. Kralik (Bratislava, Slovak Republic) . . . . .	99
Bimetallic palladium catalysts: influence of the co-metal on the catalyst performance B. Coq (Montpellier, France) and F. Figueras (Villeurbanne, France) . . . . .	117
<b>Processes and syntheses</b>	
Membrane reactors for hydrogenation and dehydrogenation processes based on supported palladium R. Dittmeyer, V. Höllein (Frankfurt am Main, Germany) and K. Daub (Erlangen, Germany) . . . . .	135
Hydrogenation of carbon–carbon multiple bonds: chemo-, regio- and stereo-selectivity Á. Molnár (Szeged, Hungary), A. Sárkány (Budapest, Hungary) and M. Varga (Szeged, Hungary) . . . . .	185
Hydrogenation and hydrogenolysis of nitro-, nitroso-, azo-, azoxy- and other nitrogen-containing compounds on palladium F. Figueras (Villeurbanne, France) and B. Coq (Montpellier, France) . . . . .	223
Catalysis with supported palladium metal, selectivity in the hydrogenation of C=C, C=O and C=N bonds, from chemo- to enantioselectivity A. Tugler and G. Fogassy (Budapest, Hungary) . . . . .	231
Palladium metal catalysts in Heck C–C coupling reactions A. Biffis, M. Zecca and M. Basato . . . . .	249
Poisoning and deactivation of palladium catalysts P. Albers, J. Pietsch (Hanau, Germany) and S.F. Parker (Oxfordshire, UK) . . . . .	275
<b>Environmental applications</b>	
Supported palladium catalysts in environmental catalytic technologies for gaseous emissions G. Centi (Messina, Italy) . . . . .	287
Supported bimetallic palladium catalysts for water-phase nitrate reduction U. Prüsse and K.-D. Vorlop (Braunschweig, Germany) . . . . .	313
Hydrogenolysis of organohalogen compounds over palladium supported catalysts F.J. Urbano and J.M. Marinas (Córdoba, Spain) . . . . .	329
