

Contents

Vol. 174, Nos. 1–2

Articles

Biomimetic catalysis

- Lysine-linked viologen for substrate of hydrogenase on hydrogen evolution
N. Asakura, T. Hiraishi, T. Kamachi and I. Okura (Yokohama, Japan) 1

Chemical and metal complex catalysis

- The kinetics and mechanism of the reaction between carbon dioxide and a series of amines. Observation and interpretation of an isokinetic effect
M. Aresta, A. Dibenedetto, E. Quaranta (Bari, Italy), M. Boscolo (São Carlos, Brazil) and R. Larsson (Lund, Sweden) 7
- Enhanced activity of enantioselective (salen)Mn(III) epoxidation catalysts through supramolecular complexation
G.A. Morris, S.T. Nguyen and J.T. Hupp (Evanston, IL, USA) 15
- Hydroformylation of mixture of isomeric octenes to C₉-aldehydes catalyzed by Rh–phosphine oxide complexes
D. He, D. Pang, T.-e. Wang, Y. Chen, Y. Liu, J. Liu and Q. Zhu (Beijing, PR China) 21
- The structure of metal/bromide catalysts in acetic acid/water mixtures and its significance in autoxidation
W. Partenheimer (Wilmington, DE, USA) 29
- Diastereomeric amido functionalized *ansa* half-sandwich complexes of titanium and zirconium as catalyst precursors for ethylene polymerization to give resins with bimodal molecular weight distributions
A. Reb and H.G. Alt (Bayreuth, Germany) 35
- Reduction of nitrobenzene to aniline by CO/H₂O, catalysed by Ru₃(CO)₁₂/chelating diimines
F. Ragaini, S. Cenini and M. Gasperini (Milano, Italy) 51
- Amphiphilic quaternary pyridinium ketoximes as functional hydrolytic micellar catalysts — does the nucleophilic function position influence their reactivity?
H. Kotoučová, R. Cibulka, F. Hampl and F. Liška (Prague, Czech Republic) 59
- Regio- and stereoselective alternating copolymerization of carbon monoxide with functionalized olefins
J.C. Yuan, Y.H. Zhang, M.D. Chen and S.J. Lu (Lanzhou, PR China) 63
- Homogeneous hydrogenation of arenes catalyzed by the bis(dihydrogen) complex [RuH₂(H₂)₂(PCy₃)₂]
A.F. Borowski (Gliwice, Poland), S. Sabo-Etienne and B. Chaudret (Toulouse, France) 69
- The negative role of chloride counter-anion in the activation process of zirconocene dichloride by methylaluminumoxane
J.-N. Pédeutour, H. Cramail and A. Deffieux (Talence, France) 81
- Mechanism of the interaction of Mn tetraazaporphines with peracetic acid. The comparative reactivity of Mn(III) porphyrinoid complexes in the formation of Mn-oxenes
S.V. Barkanova and E.A. Makarova (Moscow, Russia) 89
- Structure and performance of the solid methylalumoxane at temperatures 20–250°C. Experimental and DFT calculation study
V.N. Panchenko, V.A. Zakharov, I.G. Danilova, E.A. Paukshtis, I.I. Zakharov, V.G. Goncharov and A.P. Suknev (Novosibirsk, Russia) 107
- Asymmetric hydroformylation and hydrogenation catalyzed by chiral rhodium and ruthenium complexes of phosphorylated 2,2′-bis(diphenyl-phosphino)-1,1′-binaphthyls
A. Köckritz, S. Bischoff, M. Kant and R. Siefken (Berlin, Germany) 119
- Ethylene/ α -olefin copolymerization by various nonbridged (cyclopentadienyl)(aryloxy)titanium(IV) complexes — MAO catalyst system
K. Nomura, K. Oya and Y. Imanishi (Nara, Japan) 127
- Homogeneous hydrogenation of imines catalyzed by rhodium and iridium complexes. Kinetics and mechanism of the hydrogenation of *N*-(β -naphthyl methylene) aniline using [Ir(COD)(PPh₃)₂]PF₆ as catalyst precursor
V. Herrera, B. Muñoz, V. Landaeta (Caracas, Venezuela) and N. Canudas (Miranda, Venezuela) 141

Preparation and application of polymer-supported π -allylpalladium complex as a chiral catalyst in the asymmetric allylic alkylation H.-J. Park, J.W. Han, H. Seo, H.-Y. Jang, Y.K. Chung and J. Suh (Seoul, South Korea)	151
Molecular aspects of heterogeneous catalysis	
Mechanism of heterogeneous gas phase dehydration of 1-methylcyclohexanol catalysed by metal(IV) phosphates R.A.W. Johnstone, J.-Y. Liu and D. Whittaker (Liverpool, UK)	159
Mixed molybdenum oxide based partial oxidation catalyst. 2. Combined X-ray diffraction, electron microscopy and Raman investigation of the phase stability of (MoVW) ₅ O ₁₄ -type oxides M. Dieterle, G. Mestl, J. Jäger, Y. Uchida, H. Hibst and R. Schlögl (Berlin, Germany)	169
Benzoylation of substituted arenes using Zn- and Fe-exchanged zeolites as catalysts P. Laidlaw, D. Bethell (Liverpool, UK), S.M. Brown (Huddersfield, UK) and G.J. Hutchings (Liverpool, UK)	187
Effect of second metals and Cu content on catalyst performance of Ni-Cu/SiO ₂ in the hydrodechlorination of 1,1,2-trichloroethane into vinyl chloride monomer Y.H. Choi and W.Y. Lee (Seoul, South Korea)	193
Study on catalytic hydrogenation in synthesis of four-directional amine-terminated dendritic molecules J. Hukkamäki and T.T. Pakkanen (Joensuu, Finland)	205
Catalytic activity of nitro- and carboxy-substituted iron porphyrins in hydrocarbon oxidation. Homogeneous solution and supported systems M.A. Schiavon, Y. Iamamoto (Ribeirão Preto, Brazil), O.R. Nascimento (São Carlos, Brazil) and M. das Dores Assis (Ribeirão Preto, Brazil)	213
Solid-state NMR studies of <i>n</i> -butene isomerisation over H-ferrierite A. Philippou, J. Dwyer, A. Ghanbari-Siahkali (Manchester, UK), C. Pazè (Torino, Italy) and M.W. Anderson (Manchester, UK)	223
Preparation and properties of an electrode with platinum microcrystals dispersed in films of poly(allyl ether <i>p</i> -benzeneammonium derivatives). Electrocatalytic hydrogenation of organic substrates R.C.Z. Lofrano, J.V. Queiroz and J.R. Romero (Ribeirão Preto, Brazil)	231
On the nature of RuS ₂ HDS active sites: insight from ab initio theory M.E. Grillo (Berlin-Dahlem, Germany) and P. Sautet (Villeurbanne, France and Lyon, France)	239
Evidence for the anchoring of 2-amino-3-methyl-1-butanol at the surface of NiB ₂ agglomerate by inelastic neutron spectroscopy K. Molvinger, J. Court (Grenoble, France) and H. Jobic (Villeurbanne, France)	245
Redox-mesoporous molecular sieve as a bifunctional catalyst for the one-pot synthesis of campholenic aldehyde from α -pinene Y.-W. Suh (Seoul, South Korea), N.-K. Kim, W.-S. Ahn (Inchon, South Korea) and H.-K. Rhee (Seoul, South Korea)	249
Propionylation of phenol to 4-hydroxypropiophenone over zeolite H-beta V.D. Chaube (Pune, India), P. Moreau, A. Finiels (Montpellier, France), A.V. Ramaswamy and A.P. Singh (Pune, India) ..	255
Acidity and reactivity of trifluoromethanesulfonic acid in liquid and solid acid catalysts N.C. Marziano, L. Ronchin, C. Tortato, A. Zingales and A.A. Sheikh-Osman (Venice, Italy)	265
Cationic manganese(III) porphyrins bound to a novel bis-functionalised silica as catalysts for hydrocarbons oxygenation by iodobenzene and hydrogen peroxide F.S. Vinhado, C.M.C. Prado-Manso, H.C. Sacco and Y. Iamamoto (Ribeirão Preto, Brazil)	279
Letters	
Biomimetic catalysis	
The role of specific lysine in cytochrome c ₃ on the electron transfer with hydrogenase N. Asakura, T. Hiraiishi, T. Kamachi and I. Okura (Yokohama, Japan)	289
Molecular aspects of heterogeneous catalysis	
In situ PHIP NMR — a new tool to investigate hydrogenation mediated by colloidal catalysts A. Eichhorn, A. Koch and J. Bargon (Bonn, Germany)	293
Author Index	297
Subject Index	301
Volume contents	307
