

JOURNAL OF MOLECULAR CATALYSIS A: CHEMICAL

Editor-in-Chief:

Prof. E.G. Derouane
Universidade do Algarve
FCT-Química
Campus de Gambelas
P-8000-117 Faro, Portugal
Tel.: +351 289 800 900
Fax: +351 289 819 403
E-mail: derouane@ualg.pt

Editors:

Prof. J.-M. Basset
Laboratoire C.O.M.S.
CPE Lyon - UMR CNRS 9986
43 bd du 11 Novembre 1918
69616 Villeurbanne Cedex, France
Fax: (+33) 472431793
basset@cpe.fr

Prof. M. Beller
Leibniz-Institute für
Organische Katalyse an der
Universität Rostock e.V
Buchbinderstr. 5-6
Rostock D-18055, Germany
Fax: +49 381 4669324

T.J. Pinnavaia (*East Lansing, MI, USA*)
R. Sánchez Delgado (*Caracas, Venezuela*)
Ph. Sautet (*Villeurbanne, France*)
A. Sayari (*Ottawa, ON, Canada*)
D. de Vos (*Heverlee, Belgium*)

Scope

The general objective of the *Journal of Molecular Catalysis A: Chemical* is to publish scientific contributions examining the molecular and atomic aspects of catalytic activation and reaction mechanisms in:

- Organometallic and biomimetic catalysis,
- Ionic catalysis by acids, bases, and metal ions,
- Molecular Aspects of Heterogeneous catalysis.

Typical topics for which manuscripts are invited, are:

- New trends in homogeneous and heterogeneous catalysis, in relation to environment, energy, and fine chemicals, (organic and asymmetric synthesis, oxidation, C–H and C–C bond activation and functionalization, polymerisation, energy-assisted catalysis (photocatalysis, electrocatalysis)),
- Molecular engineering of porous and non-porous solids,
- Molecular design of active sites, homogeneous and heterogeneous,
- Molecular models and approaches to oxides, metals, zeolites, and mesoporous materials used as catalysts,
- Molecular description and approaches to catalysis on clean surfaces,
- Experimental and/or theoretical studies of elementary steps governing homogeneous and heterogeneous catalysis reactions,
- Relationship between homogeneous and heterogeneous catalysis,
- New reaction media (ionic liquids, supercritical solvents, ...) for homogeneous and heterogeneous catalysis when these media influence the reaction path,
- Combinatorial methods for homogeneous and heterogeneous catalysis (molecular design of ligand libraries, new generic molecular approaches to the functionalization of surfaces, ...).

Particularly welcome are manuscripts describing or discussing novel molecular concepts in line with the above-mentioned topics when they address issues or challenges related to energy, environment and sustainable chemistry problems.

Since the scopes of the Elsevier journals *Journal of Molecular Catalysis A: Chemical*, *Journal of Molecular Catalysis B: Enzymatic*, *Applied Catalysis A: General*, *Applied Catalysis B: Environmental*, and *Catalysis Communications* are complementary, an appropriate submission to each journal could be borderline, in which case the advice of another Editor will be sought, possibly redirecting the submission to either *Journal of Molecular Catalysis B: Enzymatic*, *Applied Catalysis A: General*, *Applied Catalysis B: Environmental*, or *Catalysis Communications* (for letters) with the author(s)'s agreement.

Authors are asked to indicate the section of the journal in which they would like their contribution to be included, and to suggest at least three potential referees for their work.

Types of contribution

- Full-length or regular papers describing original research work not previously published.
- Reviews of specialized topics within the scope of the journal (prospective authors should obtain preliminary approval from an Editor before preparing such an article).

Frequency

The journal appears Semimonthly.

Submission of papers. Authors are requested to submit **THREE copies** of their articles (complete in all respects) to the Editor-in-Chief or to one of the Editors on the basis of geographic location.

Authors are asked to indicate the section of the journal in which they would like their contribution to be included and to suggest at least three potential referees for their work.

Electronic manuscript: Electronic manuscripts have the advantage that there is no need for the rekeying of text, thereby avoiding the possibility of introducing errors and resulting in reliable and fast delivery of proofs.

For the initial submission of manuscripts for consideration, hardcopies are sufficient. For the processing of accepted papers, electronic versions are preferred. After final acceptance, your disk plus one, final and exactly matching printed versions should be submitted together. It is important that the file saved is in the native format of the wordprocessor program used. Label the disk with the name of the computer and wordprocessing package used, your name, and the name of the file on the disk. Further information may be obtained from the Publisher.

Please note that Online Submission of papers is now possible by accessing the following URL: <http://www.elsevier.com/locate/molcata>

A detailed Guide for Authors has been published in Vol. 207 on pages 69–72. The instructions can also be found on the World Wide Web: access under <http://www.elsevier.com>.

Proof. Authors will receive proofs, which they are requested to correct and return as soon as possible. No new material may be inserted in the text at the time of proof-reading. All joint communications must indicate the name and full postal address of the author to whom proofs should be sent.

Offprint. Twenty five offprints will be supplied free of charge to the author(s). Additional offprints can be ordered at prices shown on the offprint order form.

Authors in Japan please note: Upon request, Elsevier Japan will provide authors with a list of people who can check and improve the English of their paper (*before submission*). Please contact our Tokyo office: Elsevier Japan, 4F Higashi-Azabu, 1-Chome Bldg, 1-9-15 Higashi-Azabu, Minato-ku, Tokyo 106-0044, Japan, Tel.: (+81) (3) 5561 5037; Fax: (+81) (3) 5561 5047.

Journal of Molecular Catalysis A: Chemical has no page charge

Publication information: *Journal of Molecular Catalysis A: Chemical* (ISSN 1381-1169). For 2004 volumes 207–224 are scheduled for publication. Subscription prices are available upon request from the Publisher or from the Regional Sales Office nearest you or from this journal's website (<http://www.elsevier.com/locate/molcata>). Further information is available on this journal and other Elsevier products through Elsevier's website: (<http://www.elsevier.com>). Subscriptions are accepted on a prepaid basis only and are entered on a calendar year basis. Issues are sent by standard mail (surface within Europe, air delivery outside Europe). Priority rates are available upon request. Claims for missing issues should be made within six months of the date of dispatch.

Author enquiries

For enquiries relating to the submission of articles (including electronic submission where available) please visit Elsevier's Author Gateway at <http://authors.elsevier.com>. The Author Gateway also provides the facility to track accepted articles and set up e-mail alerts to inform you of when an article's status has changed, as well as detailed artwork guidelines, copyright information, frequently asked questions and more.

Contact details for questions arising after acceptance of an article, especially those relating to proofs, are provided after registration of an article for publication.

Orders, claims, and journal enquiries: please contact the Customer Service Department at the Regional Sales Office nearest you:
