

Subject index

Acetic Anhydride

Manganese(III) bis(2-hydroxyanil)acetylacetonato complex as effective catalyst for acylation of alcohols, amines and phenols with acetic anhydride (Salavati-Niasari, M. (231) 191)

Acetylation

A study into the use of microwaves and solid acid catalysts for Friedel-Crafts acetylations (Gronnow, M.J. (231) 47)

Acylation

Manganese(III) bis(2-hydroxyanil)acetylacetonato complex as effective catalyst for acylation of alcohols, amines and phenols with acetic anhydride (Salavati-Niasari, M. (231) 191)

Acylhydrazone

Preparation and characterization of acylhydrazone nickel(II) complexes and their catalytic behavior in vinyl polymerization of norbornene and oligomerization of ethylene (Hou, J. (231) 221)

Aerobic epoxidation

Preparation of encapsulated and anchored alanine–salicylaldehyde Schiff base Mn(III) (Sal–Ala–Mn) complexes by sol–gel method and their performance in aerobic epoxidation of cyclohexene (Zhao, J. (231) 129)

Alanine–salicylaldehyde Schiff base Mn(III) complex

Preparation of encapsulated and anchored alanine–salicylaldehyde Schiff base Mn(III) (Sal–Ala–Mn) complexes by sol–gel method and their performance in aerobic epoxidation of cyclohexene (Zhao, J. (231) 129)

Alcohol

Manganese(III) bis(2-hydroxyanil)acetylacetonato complex as effective catalyst for acylation of alcohols, amines and phenols with acetic anhydride (Salavati-Niasari, M. (231) 191)

Alkoxysilanes

Effect of alkoxysilanes formed in situ on the properties of Ziegler–Natta catalysts for olefin polymerisation (Chirinos, J. (231) 123)

Alkylation

Alkylation of α -methyl-naphthalene with long-chain alkenes catalyzed by butylpyridinium bromochloroaluminate ionic liquids (Zhao, Z. (231) 137)

Allylic substitution

Enantioselective Pd-catalysed allylation with BINOL-derived monodentate phosphite and phosphoramidite ligands (Gavrilov, K.N. (231) 255)

Amine

Manganese(III) bis(2-hydroxyanil)acetylacetonato complex as effective catalyst for acylation of alcohols, amines and phenols with acetic anhydride (Salavati-Niasari, M. (231) 191)

Anchored catalyst

Preparation of encapsulated and anchored alanine–salicylaldehyde Schiff base Mn(III) (Sal–Ala–Mn) complexes by sol–gel method and their performance in aerobic epoxidation of cyclohexene (Zhao, J. (231) 129)

Aniline

An insight into the mechanism of selective mono-*N*-methylation of aniline on $\text{Cu}_{1-x}\text{Zn}_x\text{Fe}_2\text{O}_4$: a DRIFTS study (Vijayaraj, M. (231) 169)

Anthracene

Catalytic bromination of anthracene on silica gel (Seetula, J.A. (231) 153)

Anticrowns

Cyclic trimeric perfluoro-*o*-phenylenemercury: a highly efficient phase transfer catalyst for nitration of aromatic substrates with dilute nitric acid (Zaraisky, A.P. (231) 103)

Aqueous media

Catalytic conversions in aqueous media: a novel and efficient hydrogenation of polybutadiene-1,4-*block*-poly(ethylene oxide) catalyzed by Rh/TPPTS complexes in mixed micellar nanoreactors (Kotzabasakis, V. (231) 93)

Aromatic nitration

Cyclic trimeric perfluoro-*o*-phenylenemercury: a highly efficient phase transfer catalyst for nitration of aromatic substrates with dilute nitric acid (Zaraisky, A.P. (231) 103)

Arylamines

Synthesis of *N*-arylpthalimides catalyzed by 1,4-diazabicyclo[2.2.2]octane [DABCO] in solventless system (Heravi, M.M. (231) 89)

Asymmetric

Unsymmetrical chiral salen Schiff base ligands. Synthesis and use in metal-based asymmetric epoxidation reactions (Renehan, M.F. (231) 205)

Bimetallic supported catalyst

Preparation, characterization, and catalytic activity of NiMg catalysts supported on mesoporous alumina for hydrodechlorination of *o*-dichlorobenzene (Kim, P. (231) 247)

1,1'-Bi-2-naphthol

Liquid-phase oxidative coupling of 2-naphthol by vanadium catalysts supported on MCM-41 (Ikeda, T. (231) 235)

9-Bromoanthracene

Catalytic bromination of anthracene on silica gel (Seetula, J.A. (231) 153)

Catalysis

Highly active and selective catalysts of hydrogenation based on palladium bis-acetylacetonate and phenylphosphine (Belykh, L.B. (231) 53)

Influence of partial neutralization on catalytic activity of ion exchange resin (Holub, L. (231) 21)

Catalyst performance

Progress in enantioselective catalysis assessed from an industrial point of view (Blaser, H.-U. (231) 1)

Catalysts

Catalytic reactions of post-consumer polymer waste over fluidised cracking catalysts for producing hydrocarbons (Lin, Y.-H. (231) 113)

Catalytic

Unsymmetrical chiral salen Schiff base ligands. Synthesis and use in metal-based asymmetric epoxidation reactions (Renehan, M.F. (231) 205)

Catalytic technology

Progress in enantioselective catalysis assessed from an industrial point of view (Blaser, H.-U. (231) 1)

Cationic porphyrins

Association of Keggin-type anions with cationic *meso*-substituted porphyrins: synthesis, characterization and oxidative catalytic studies (Santos, I.C.M.S. (231) 35)

- CeO₂
PIO study on 1,3-butanediol dehydration over CeO₂ (111) surface (Ichikawa, N. (231) 181)
- Chemical template
Preparation, characterization, and catalytic activity of NiMg catalysts supported on mesoporous alumina for hydrodechlorination of *o*-dichlorobenzene (Kim, P. (231) 247)
- Chiral ligand
Progress in enantioselective catalysis assessed from an industrial point of view (Blaser, H.-U. (231) 1)
- Chitosan-Schiff base
Highly efficient catalysts of chitosan-Schiff base Co(II) and Pd(II) complexes for aerobic oxidation of cyclohexane in the absence of reductants and solvents (Tong, J. (231) 197)
- Chromium
Unsymmetrical chiral salen Schiff base ligands. Synthesis and use in metal-based asymmetric epoxidation reactions (Renahan, M.F. (231) 205)
- Co(II) and Pd(II) complexes
Highly efficient catalysts of chitosan-Schiff base Co(II) and Pd(II) complexes for aerobic oxidation of cyclohexane in the absence of reductants and solvents (Tong, J. (231) 197)
- Cobalt/alumina
Catalytic performance of zirconium-modified Co/Al₂O₃ for Fischer-Tropsch synthesis (Xiong, H. (231) 145)
- Competitive reactions
A comparative study of Pd supported on MCM-41 and SiO₂ in the liquid phase hydrogenation of phenyl alkyl acetylenes mixtures (Marín-Astorga, N. (231) 67)
- Cu/ZrO₂
Catalytic performance of copper supported on zirconia polymorphs for CO hydrogenation (Ma, Z.-Y. (231) 75)
- Cu_{1-x}Zn_xFe₂O₄
An insight into the mechanism of selective mono-*N*-methylation of aniline on Cu_{1-x}Zn_xFe₂O₄: a DRIFTS study (Vijayaraj, M. (231) 169)
- Cyclohexane oxidation
Highly efficient catalysts of chitosan-Schiff base Co(II) and Pd(II) complexes for aerobic oxidation of cyclohexane in the absence of reductants and solvents (Tong, J. (231) 197)
- Cyclohexene
Preparation of encapsulated and anchored alanine-salicylaldehyde Schiff base Mn(III) (Sal-Ala-Mn) complexes by sol-gel method and their performance in aerobic epoxidation of cyclohexene (Zhao, J. (231) 129)
- Cyclohexene epoxide
Preparation of encapsulated and anchored alanine-salicylaldehyde Schiff base Mn(III) (Sal-Ala-Mn) complexes by sol-gel method and their performance in aerobic epoxidation of cyclohexene (Zhao, J. (231) 129)
- Cycloisomerization
Synthesis and catalytic properties of 1-alkylperimidineruthenium(II) complexes (Alici, B. (231) 261)
- Cyclooctene
Association of Keggin-type anions with cationic *meso*-substituted porphyrins: synthesis, characterization and oxidative catalytic studies (Santos, I.C.M.S. (231) 35)
- DABCO
Synthesis of *N*-arylpthalimides catalyzed by 1,4-diazabicyclo[2,2,2]octane [DABCO] in solventless system (Heravi, M.M. (231) 89)
- Deactivation
Alkylation of α -methylnaphthalene with long-chain alkenes catalyzed by butylpyridinium bromochloroaluminate ionic liquids (Zhao, Z. (231) 137)
- Dehydration
PIO study on 1,3-butanediol dehydration over CeO₂ (111) surface (Ichikawa, N. (231) 181)
- Desorption limited
An insight into the mechanism of selective mono-*N*-methylation of aniline on Cu_{1-x}Zn_xFe₂O₄: a DRIFTS study (Vijayaraj, M. (231) 169)
- 9,10-Dibromoanthracene
Catalytic bromination of anthracene on silica gel (Seetula, J.A. (231) 153)
- β -Diketiminato Ni(II) complexes
Investigation of 1-hexene isomerization and oligomerization catalyzed with β -diketiminato Ni(II) bromide complexes/methylaluminoxane system (Zhang, J. (231) 27)
- 1,3-Diol
PIO study on 1,3-butanediol dehydration over CeO₂ (111) surface (Ichikawa, N. (231) 181)
- DRIFT
An insight into the mechanism of selective mono-*N*-methylation of aniline on Cu_{1-x}Zn_xFe₂O₄: a DRIFTS study (Vijayaraj, M. (231) 169)
- Enantioselective catalysis
Progress in enantioselective catalysis assessed from an industrial point of view (Blaser, H.-U. (231) 1)
- Epoxidation
Unsymmetrical chiral salen Schiff base ligands. Synthesis and use in metal-based asymmetric epoxidation reactions (Renahan, M.F. (231) 205)
- Ethylene oligomerization
Preparation and characterization of acylhydrazone nickel(II) complexes and their catalytic behavior in vinyl polymerization of norbornene and oligomerization of ethylene (Hou, J. (231) 221)
- Exo-tetrahydrodicyclopentadiene
Endo- to exo-isomerization of tetrahydrodicyclopentadiene catalyzed by commercially available zeolites (Xing, E. (231) 161)
- Fischer-Tropsch synthesis
Catalytic performance of zirconium-modified Co/Al₂O₃ for Fischer-Tropsch synthesis (Xiong, H. (231) 145)
- Fluidised-bed reactor
Catalytic reactions of post-consumer polymer waste over fluidised cracking catalysts for producing hydrocarbons (Lin, Y.-H. (231) 113)
- Fragrance
Utilisation of ionic liquid solvents for the synthesis of Lily-of-the-Valley fragrance { β -Lilial[®]; 3-(4-*t*-butylphenyl)-2-methylpropanal} (Forsyth, S.A. (231) 61)
- Friedel-Crafts chemistry
A study into the use of microwaves and solid acid catalysts for Friedel-Crafts acetylations (Gronnow, M.J. (231) 47)
- FT-IR
Catalytic performance of copper supported on zirconia polymorphs for CO hydrogenation (Ma, Z.-Y. (231) 75)
- Heck
Utilisation of ionic liquid solvents for the synthesis of Lily-of-the-Valley fragrance { β -Lilial[®]; 3-(4-*t*-butylphenyl)-2-methylpropanal} (Forsyth, S.A. (231) 61)
- Heterogenized catalyst
Preparation of encapsulated and anchored alanine-salicylaldehyde Schiff base Mn(III) (Sal-Ala-Mn) complexes by sol-gel method and their performance in aerobic epoxidation of cyclohexene (Zhao, J. (231) 129)
- 1-Hexene
Investigation of 1-hexene isomerization and oligomerization catalyzed with β -diketiminato Ni(II) bromide complexes/methylaluminoxane system (Zhang, J. (231) 27)
- Hydrodechlorination of *o*-dichlorobenzene
Preparation, characterization, and catalytic activity of NiMg catalysts supported on mesoporous alumina for hydrodechlorination of *o*-dichlorobenzene (Kim, P. (231) 247)
- Hydrogen peroxide
Association of Keggin-type anions with cationic *meso*-substituted porphyrins: synthesis, characterization and oxidative catalytic studies (Santos, I.C.M.S. (231) 35)

Hydrogenation

Catalytic conversions in aqueous media: a novel and efficient hydrogenation of polybutadiene-1,4-*block*-poly(ethylene oxide) catalyzed by Rh/TPPTS complexes in mixed micellar nanoreactors (Kotzabasakis, V. (231) 93)

Enantioselective Pd-catalysed allylation with BINOL-derived monodentate phosphite and phosphoramidite ligands (Gavrilov, K.N. (231) 255)

Highly active and selective catalysts of hydrogenation based on palladium bis-acetylacetonate and phenylphosphine (Belykh, L.B. (231) 53)

Industrial application

Progress in enantioselective catalysis assessed from an industrial point of view (Blaser, H.-U. (231) 1)

Ionic liquids

Alkylation of α -methyl-naphthalene with long-chain alkenes catalyzed by butylpyridinium bromochloroaluminate ionic liquids (Zhao, Z. (231) 137)

Utilisation of ionic liquid solvents for the synthesis of Lily-of-the-Valley fragrance { β -Lilial[®]; 3-(4-*t*-butylphenyl)-2-methylpropanal} (Forsyth, S.A. (231) 61)

IR

An insight into the mechanism of selective mono-*N*-methylation of aniline on Cu_{1-x}Zn_xFe₂O₄: a DRIFTS study (Vijayaraj, M. (231) 169)

Isomerization

Endo- to exo-isomerization of tetrahydrodicyclopentadiene catalyzed by commercially available zeolites (Xing, E. (231) 161)

Investigation of 1-hexene isomerization and oligomerization catalyzed with β -diketiminato Ni(II) bromide complexes/methylaluminoxane system (Zhang, J. (231) 27)

Isotactic

Polymerization of propylene with [*t*-BuNSiMe₂Ind]TiMe₂-MAO catalyst systems (Nishii, K. (231) 241)

JP-10

Endo- to exo-isomerization of tetrahydrodicyclopentadiene catalyzed by commercially available zeolites (Xing, E. (231) 161)

Kinetics of bromination

Catalytic bromination of anthracene on silica gel (Seetula, J.A. (231) 153)

Lilial

Utilisation of ionic liquid solvents for the synthesis of Lily-of-the-Valley fragrance { β -Lilial[®]; 3-(4-*t*-butylphenyl)-2-methylpropanal} (Forsyth, S.A. (231) 61)

Long-chain alkenes

Alkylation of α -methyl-naphthalene with long-chain alkenes catalyzed by butylpyridinium bromochloroaluminate ionic liquids (Zhao, Z. (231) 137)

Manganese

Unsymmetrical chiral salen Schiff base ligands. Synthesis and use in metal-based asymmetric epoxidation reactions (Renehan, M.F. (231) 205)

Manganese(III)

Association of Keggin-type anions with cationic *meso*-substituted porphyrins: synthesis, characterization and oxidative catalytic studies (Santos, I.C.M.S. (231) 35)

MCM-41

Liquid-phase oxidative coupling of 2-naphthol by vanadium catalysts supported on MCM-41 (Ikeda, T. (231) 235)

Mesoporous materials

A comparative study of Pd supported on MCM-41 and SiO₂ in the liquid phase hydrogenation of phenyl alkyl acetylenes mixtures (Marín-Astorga, N. (231) 67)

Mesoporous alumina

Preparation, characterization, and catalytic activity of NiMg catalysts supported on mesoporous alumina for hydrodechlorination of *o*-dichlorobenzene (Kim, P. (231) 247)

Metallocene catalysts

Polymerization of propylene with [*t*-BuNSiMe₂Ind]TiMe₂-MAO catalyst systems (Nishii, K. (231) 241)

Metalloporphyrins

Association of Keggin-type anions with cationic *meso*-substituted porphyrins: synthesis, characterization and oxidative catalytic studies (Santos, I.C.M.S. (231) 35)

Methanol

An insight into the mechanism of selective mono-*N*-methylation of aniline on Cu_{1-x}Zn_xFe₂O₄: a DRIFTS study (Vijayaraj, M. (231) 169)

Solid base and their performance in synthesis of propylene glycol methyl ether (Zhang, W. (231) 83)

Methanol synthesis

Catalytic performance of copper supported on zirconia polymorphs for CO hydrogenation (Ma, Z.-Y. (231) 75)

Methylaluminoxane

Investigation of 1-hexene isomerization and oligomerization catalyzed with β -diketiminato Ni(II) bromide complexes/methylaluminoxane system (Zhang, J. (231) 27)

N-Methylaniline

An insight into the mechanism of selective mono-*N*-methylation of aniline on Cu_{1-x}Zn_xFe₂O₄: a DRIFTS study (Vijayaraj, M. (231) 169)

N-Methylation

An insight into the mechanism of selective mono-*N*-methylation of aniline on Cu_{1-x}Zn_xFe₂O₄: a DRIFTS study (Vijayaraj, M. (231) 169)

 α -Methylnaphthalene

Alkylation of α -methyl-naphthalene with long-chain alkenes catalyzed by butylpyridinium bromochloroaluminate ionic liquids (Zhao, Z. (231) 137)

Microwaves

A study into the use of microwaves and solid acid catalysts for Friedel-Crafts acetylations (Gronnow, M.J. (231) 47)

Mixed micelles

Catalytic conversions in aqueous media: a novel and efficient hydrogenation of polybutadiene-1,4-*block*-poly(ethylene oxide) catalyzed by Rh/TPPTS complexes in mixed micellar nanoreactors (Kotzabasakis, V. (231) 93)

Mn(III)

Manganese(III) bis(2-hydroxyanil)acetylacetonato complex as effective catalyst for acylation of alcohols, amines and phenols with acetic anhydride (Salavati-Niasari, M. (231) 191)

Monodentate ligands

Enantioselective Pd-catalysed allylation with BINOL-derived monodentate phosphite and phosphoramidite ligands (Gavrilov, K.N. (231) 255)

Monoterpenes

Association of Keggin-type anions with cationic *meso*-substituted porphyrins: synthesis, characterization and oxidative catalytic studies (Santos, I.C.M.S. (231) 35)

Naphthol

Liquid-phase oxidative coupling of 2-naphthol by vanadium catalysts supported on MCM-41 (Ikeda, T. (231) 235)

NaZSM-5

Liquid-phase oxidative coupling of 2-naphthol by vanadium catalysts supported on MCM-41 (Ikeda, T. (231) 235)

Nickel and magnesium

Preparation, characterization, and catalytic activity of NiMg catalysts supported on mesoporous alumina for hydrodechlorination of *o*-dichlorobenzene (Kim, P. (231) 247)

Nickel complex

Preparation and characterization of acylhydrazone nickel(II) complexes and their catalytic behavior in vinyl polymerization of norbornene and oligomerization of ethylene (Hou, J. (231) 221)

- Olefin isomerization
Synthesis and catalytic properties of 1-alkylperimidineruthenium(II) complexes (Alici, B. (231) 261)
- Olefin/paraffin
Catalytic performance of zirconium-modified Co/Al₂O₃ for Fischer-Tropsch synthesis (Xiong, H. (231) 145)
- Oligomerization
Investigation of 1-hexene isomerization and oligomerization catalyzed with β -diketiminato Ni(II) bromide complexes/methylaluminoxane system (Zhang, J. (231) 27)
- Oxidation
Association of Keggin-type anions with cationic *meso*-substituted porphyrins: synthesis, characterization and oxidative catalytic studies (Santos, I.C.M.S. (231) 35)
- Oxidative coupling
Liquid-phase oxidative coupling of 2-naphthol by vanadium catalysts supported on MCM-41 (Ikeda, T. (231) 235)
- Oxygen
Highly efficient catalysts of chitosan-Schiff base Co(II) and Pd(II) complexes for aerobic oxidation of cyclohexane in the absence of reductants and solvents (Tong, J. (231) 197)
- Paired interacting orbital (PIO) theory
PIO study on 1,3-butanediol dehydration over CeO₂ (111) surface (Ichikawa, N. (231) 181)
- Palladium
Highly active and selective catalysts of hydrogenation based on palladium bis-acetylacetonate and phenylphosphine (Belykh, L.B. (231) 53)
- Palladium catalyst
Utilisation of ionic liquid solvents for the synthesis of Lily-of-the-Valley fragrance { β -Lilial[®]; 3-(4-*t*-butylphenyl)-2-methylpropanal} (Forsyth, S.A. (231) 61)
- Partial neutralization
Influence of partial neutralization on catalytic activity of ion exchange resin (Holub, L. (231) 21)
- Pd
A comparative study of Pd supported on MCM-41 and SiO₂ in the liquid phase hydrogenation of phenyl alkyl acetylenes mixtures (Marín-Astorga, N. (231) 67)
- Perimidine
Synthesis and catalytic properties of 1-alkylperimidineruthenium(II) complexes (Alici, B. (231) 261)
- Phase transfer catalysis
Cyclic trimeric perfluoro-*o*-phenylenemercury: a highly efficient phase transfer catalyst for nitration of aromatic substrates with dilute nitric acid (Zaraisky, A.P. (231) 103)
- Phenol
Manganese(III) bis(2-hydroxyanil)acetylacetonato complex as effective catalyst for acylation of alcohols, amines and phenols with acetic anhydride (Salavati-Niasari, M. (231) 191)
- Phenyl alkyl acetylenes mixtures
A comparative study of Pd supported on MCM-41 and SiO₂ in the liquid phase hydrogenation of phenyl alkyl acetylenes mixtures (Marín-Astorga, N. (231) 67)
- Phenylphosphine
Highly active and selective catalysts of hydrogenation based on palladium bis-acetylacetonate and phenylphosphine (Belykh, L.B. (231) 53)
- Phthalimide
Synthesis of *N*-arylphthalimides catalyzed by 1,4-diazabicyclo[2,2,2]octane [DABCO] in solventless system (Heravi, M.M. (231) 89)
- Poly(propylene) (PP)
Polymerization of propylene with [*t*-BuNSiMe₂Ind]TiMe₂-MAO catalyst systems (Nishii, K. (231) 241)
- Polymer supports
Influence of partial neutralization on catalytic activity of ion exchange resin (Holub, L. (231) 21)
- Polymer waste
Catalytic reactions of post-consumer polymer waste over fluidised cracking catalysts for producing hydrocarbons (Lin, Y.-H. (231) 113)
- Polymercuramacrocycles
Cyclic trimeric perfluoro-*o*-phenylenemercury: a highly efficient phase transfer catalyst for nitration of aromatic substrates with dilute nitric acid (Zaraisky, A.P. (231) 103)
- Polynorbornene
Preparation and characterization of acylhydrazone nickel(II) complexes and their catalytic behavior in vinyl polymerization of norbornene and oligomerization of ethylene (Hou, J. (231) 221)
- Polyolefins
Effect of alkoxysilanes formed in situ on the properties of Ziegler-Natta catalysts for olefin polymerisation (Chirinos, J. (231) 123)
- Polyoxometalates
Association of Keggin-type anions with cationic *meso*-substituted porphyrins: synthesis, characterization and oxidative catalytic studies (Santos, I.C.M.S. (231) 35)
- Propylene glycol methyl ether
Solid base and their performance in synthesis of propylene glycol methyl ether (Zhang, W. (231) 83)
- Propylene oxide
Solid base and their performance in synthesis of propylene glycol methyl ether (Zhang, W. (231) 83)
- Proton transfer
Cyclic trimeric perfluoro-*o*-phenylenemercury: a highly efficient phase transfer catalyst for nitration of aromatic substrates with dilute nitric acid (Zaraisky, A.P. (231) 103)
- Pyrolysis
Catalytic reactions of post-consumer polymer waste over fluidised cracking catalysts for producing hydrocarbons (Lin, Y.-H. (231) 113)
- Quasi-living polymerization
Polymerization of propylene with [*t*-BuNSiMe₂Ind]TiMe₂-MAO catalyst systems (Nishii, K. (231) 241)
- Reaction mechanism
An insight into the mechanism of selective mono-*N*-methylation of aniline on Cu_{1-x}Zn_xFe₂O₄: a DRIFTS study (Vijayaraj, M. (231) 169)
- Recrystallisation
Effect of alkoxysilanes formed in situ on the properties of Ziegler-Natta catalysts for olefin polymerisation (Chirinos, J. (231) 123)
- Recycling
Utilisation of ionic liquid solvents for the synthesis of Lily-of-the-Valley fragrance { β -Lilial[®]; 3-(4-*t*-butylphenyl)-2-methylpropanal} (Forsyth, S.A. (231) 61)
- Redox property
PIO study on 1,3-butanediol dehydration over CeO₂ (111) surface (Ichikawa, N. (231) 181)
- Reducibility
Catalytic performance of zirconium-modified Co/Al₂O₃ for Fischer-Tropsch synthesis (Xiong, H. (231) 145)
- Resin
Influence of partial neutralization on catalytic activity of ion exchange resin (Holub, L. (231) 21)
- Rhodium
Catalytic conversions in aqueous media: a novel and efficient hydrogenation of polybutadiene-1,4-*block*-poly(ethylene oxide) catalyzed by Rh/TPPTS complexes in mixed micellar nanoreactors (Kotzabasakis, V. (231) 93)
- Ruthenium complexes
Synthesis and catalytic properties of 1-alkylperimidineruthenium(II) complexes (Alici, B. (231) 261)
- Schiff-base
Manganese(III) bis(2-hydroxyanil)acetylacetonato complex as effective catalyst for acylation of alcohols, amines and phenols with acetic anhydride (Salavati-Niasari, M. (231) 191)

Selectivity

Catalytic reactions of post-consumer polymer waste over fluidised cracking catalysts for producing hydrocarbons (Lin, Y.-H. (231) 113)

SiO₂

Catalytic bromination of anthracene on silica gel (Seetula, J.A. (231) 153)

Sol-gel

Preparation of encapsulated and anchored alanine-salicylaldehyde Schiff base Mn(III) (Sal-Ala-Mn) complexes by sol-gel method and their performance in aerobic epoxidation of cyclohexene (Zhao, J. (231) 129)

Solid acid catalysts

A study into the use of microwaves and solid acid catalysts for Friedel-Crafts acetylations (Gronnow, M.J. (231) 47)

Solid base

Solid base and their performance in synthesis of propylene glycol methyl ether (Zhang, W. (231) 83)

Solid phase

Synthesis of *N*-arylphthalimides catalyzed by 1,4-diazabicyclo[2,2,2]octane [DABCO] in solventless system (Heravi, M.M. (231) 89)

Stereoselectivity

A comparative study of Pd supported on MCM-41 and SiO₂ in the liquid phase hydrogenation of phenyl alkyl acetylenes mixtures (Marín-Astorga, N. (231) 67)

Tetrahydrodicyclopentadiene

Endo- to exo-isomerization of tetrahydrodicyclopentadiene catalyzed by commercially available zeolites (Xing, E. (231) 161)

TPPTS

Catalytic conversions in aqueous media: a novel and efficient hydrogenation of polybutadiene-1,4-*block*-poly(ethylene oxide) catalyzed by Rh/TPPTS complexes in mixed micellar nanoreactors (Kotzabasakis, V. (231) 93)

Unsaturated alcohols

PIO study on 1,3-butanediol dehydration over CeO₂ (111) surface (Ichikawa, N. (231) 181)

Unsymmetrical salen

Unsymmetrical chiral salen Schiff base ligands. Synthesis and use in metal-based asymmetric epoxidation reactions (Renehan, M.F. (231) 205)

Vanadium

Liquid-phase oxidative coupling of 2-naphthol by vanadium catalysts supported on MCM-41 (Ikeda, T. (231) 235)

Zeolites

Endo- to exo-isomerization of tetrahydrodicyclopentadiene catalyzed by commercially available zeolites (Xing, E. (231) 161)

Ziegler-Natta catalysts

Effect of alkoxysilanes formed in situ on the properties of Ziegler-Natta catalysts for olefin polymerisation (Chirinos, J. (231) 123)

Zirconia polymorphs

Catalytic performance of copper supported on zirconia polymorphs for CO hydrogenation (Ma, Z.-Y. (231) 75)

Zirconium

Catalytic performance of zirconium-modified Co/Al₂O₃ for Fischer-Tropsch synthesis (Xiong, H. (231) 145)
