

Author Index

- Akamatsu, M.K., see Ogawa, J. 71
Arai, R., see Horiike, K. 37
Arimoto, K., see Yamada, R.-h. 93
Asano, Y., Umezaki, M., Li, Y.-F., Tsubota, S. and Lübbehüsen, T.L.
Isolation of microorganisms which utilize acidic D-amino acid oligomers 53
Ashiuchi, M., see Miyaji, T. 77
Esaki, N., see Uo, T. 137
Esaki, N., see Watanabe, A. 145
Esaki, N., see Yokoigawa, K. 27
Fukuda, A., see Nagata, Y. 109
Fukuda, N., see Ranasinghe, J.G. Shirani 131
Hayashi, T., see Yamada, R.-h. 93
Hee Lim, Y., see Watanabe, A. 145
Hirotzu, K., see Miura, R. 43
Horiike, K., Ishida, T., Tanaka, H. and Arai, R.
Distribution of D-amino-acid oxidase and D-serine in vertebrate brains 37
Hosokawa, M., see Yokoyama, S.-i. 115
Iida, T., see Nagata, Y. 105, 109
Indrati, R., see Ogawa, J. 71
Ishida, T., see Horiike, K. 37
Iwazaki, I., see Yamada, R.-h. 93
Kawaguchi-Nagata, K., see Nagata, Y. 109
Kawai, H., see Yokoigawa, K. 27
Kera, Y., see Yamada, R.-h. 93
Kera, Y., Watanabe, T., Shibata, K., Nagasaki, H. and Yamada, R.-h.
D-Aspartate oxidase and free acidic D-amino acids in lower vertebrates 121
Komura, S., see Yokoyama, S.-i. 115
Kurokawa, Y., see Watanabe, A. 145
Li, Y.-F., see Asano, Y. 53
Liu, M.-C., see Ranasinghe, J.G. Shirani 131
Lübbehüsen, T.L., see Asano, Y. 53
Misono, H., see Miyaji, T. 77
Misono, H., see Sakamoto, S. 85
Miura, R., Setoyama, C., Nishina, Y., Shiga, K., Miyahara, I., Mizutani, H. and Hirotzu, K.
Porcine kidney D-amino acid oxidase: the three-dimensional structure and its catalytic mechanism based on the enzyme–substrate complex model 43
Miyagawa, H., see Ogawa, J. 71
Miyahara, I., see Miura, R. 43
Miyaji, T., Ashiuchi, M., Packdibamrung, K., Nagata, S. and Misono, H.
Characterization of D-threonine dehydrogenase homologues of *Escherichia coli*, YbbQ and YhaE 77
Mizutani, H., see Miura, R. 43
Moriguchi, M., see Wakayama, M. 15
Nagai, M., see Yokoyama, S.-i. 115
Nagasaki, H., see Kera, Y. 121
Nagata, S., see Miyaji, T. 77
Nagata, S., see Sakamoto, S. 85
Nagata, Y., Fukuda, A., Sakai, M., Iida, T. and Kawaguchi-Nagata, K.
D-Amino acid contents of mitochondria and some purple bacteria 109
Nagata, Y., Iida, T. and Sakai, M.
Enantiomeric resolution of amino acids by thin-layer chromatography 105
Nasu, T., see Ranasinghe, J.G. Shirani 131
Nishina, Y., see Miura, R. 43
Nishiyama, T., see Uo, T. 137
Ogawa, J., Ryono, A., Xie, S.-X., Vohra, R.M., Indrati, R., Akamatsu, M.K., Miyagawa, H., Ueno, T. and Shimizu, S.
Separative preparation of the four stereoisomers of β -methylphenylalanine with *N*-carbamoyl amino acid amidohydrolases 71
Ogawa, J., see Soong, C.-L. 61
Ohishi, N., see Yokoyama, S.-i. 115
Okubo, Y., see Yokoigawa, K. 27
Packdibamrung, K., see Miyaji, T. 77
Ranasinghe, J.G. Shirani, Liu, M.-C., Sakakibara, Y., Takeshita, Y., Fukuda, N., Nasu, T. and Suiko, M.
Stereoselective and manganese-dependent sulfation and urinary excretion of D-form and L-form *meta*-tyrosine *O*-sulfate by Sprague–Dawley rats 131
Ryono, A., see Ogawa, J. 71
Sakai, M., see Nagata, Y. 105, 109
Sakakibara, Y., see Ranasinghe, J.G. Shirani 131

- Sakamoto, S., Seki, M., Nagata, S. and Misono, H.
Cloning, sequencing, and expression of the *meso*-diaminopimelate dehydrogenase gene from *Bacillus sphaericus* 85
- Seki, M., see Sakamoto, S. 85
- Setoyama, C., see Miura, R. 43
- Shibata, K., see Kera, Y. 121
- Shiga, K., see Miura, R. 43
- Shimizu, S., see Ogawa, J. 71
- Shimizu, S., see Soong, C.-L. 61
- Soda, K., see Watanabe, A. 145
- Soda, K., see Yokoigawa, K. 27
- Soong, C.-L., Ogawa, J. and Shimizu, S.
Cyclic ureide and imide metabolism in microorganisms producing a D-hydantoinase useful for D-amino acid production 61
- Suiko, M., see Ranasinghe, J.G. Shirani 131
- Takahashi, M., see Yamada, R.-h. 93
- Takeshita, Y., see Ranasinghe, J.G. Shirani 131
- Tanaka, H., see Horiike, K. 37
- Toi, H., see Yamada, R.-h. 93
- Tokuyama, S.
Discovery and application of a new enzyme *N*-acylamino acid racemase 3
- Tsubota, S., see Asano, Y. 53
- Ueda, M., see Uo, T. 137
- Ueno, T., see Ogawa, J. 71
- Umezaki, M., see Asano, Y. 53
- Uo, T., Ueda, M., Nishiyama, T., Yoshimura, T. and Esaki, N.
Purification and characterization of alanine racemase from hepatopancreas of black-tiger prawn, *Penaeus monodon* 137
- Vohra, R.M., see Ogawa, J. 71
- Wakayama, M. and Moriguchi, M.
Comparative biochemistry of bacterial *N*-acyl-D-amino acid amidohydrolase 15
- Watanabe, A., Yoshimura, T., Hee Lim, Y., Kurokawa, Y., Soda, K. and Esaki, N.
Stereochemistry of the hydrogen abstraction from pyridoxamine phosphate catalyzed by alanine racemase of *Bacillus stearothermophilus* 145
- Watanabe, T., see Kera, Y. 121
- Xie, S.-X., see Ogawa, J. 71
- Yagi, K., see Yokoyama, S.-i. 115
- Yamada, R.-h., Kera, Y., Toi, H., Hayashi, T., Arimoto, K., Takahashi, M., Iwazaki, I. and Yamashita, S.
Microbial oxidases of acidic D-amino acids 93
- Yamada, R.-h., see Kera, Y. 121
- Yamashita, S., see Yamada, R.-h. 93
- Yokoigawa, K., Okubo, Y., Kawai, H., Esaki, N. and Soda, K.
Structure and function of psychrophilic alanine racemase 27
- Yokoyama, S.-i., Ohishi, N., Nagai, M., Komura, S., Hosokawa, M. and Yagi, K.
Remarkable decrease in D-amino acid oxidase activity in the kidney of both prone and resistant strains of senescence-accelerated mouse 115
- Yoshimura, T., see Uo, T. 137
- Yoshimura, T., see Watanabe, A. 145
