

Subject Index

- Acetobacter*
Acetic acid bacteria as enantioselective biocatalysts 235
- Alcoholysis
Enzymatic alcoholysis for biodiesel fuel production and application of the reaction to oil processing 133
- Aldehydes
Baker's yeast mediated preparation of (10-alkyl-10*H*-phenothiazin-3-yl)methanols 241
- Alkaline phosphatase
Purification and enzymatic characterization of alkaline phosphatase from *Pinctada fucata* 65
- N*-alkylphenothiazines
Baker's yeast mediated preparation of (10-alkyl-10*H*-phenothiazin-3-yl)methanols 241
- Allenic alcohols
Primary allenic alcohols of high optical purity via lipase catalyzed resolution 261
- Amino acid oxidation
Biocatalytic oxidation of *S*-alkylcysteine derivatives by chloroperoxidase and *Beauveria* species 249
- α -Amylase
Efficient ethanol production from starch through development of novel flocculent yeast strains displaying glucoamylase and co-displaying or secreting α -amylase 179
- Angiotensin converting enzyme
Enantioselective reductions of ethyl 2-oxo-4-phenylbutyrate by *Saccharomyces cerevisiae* dehydrogenases 101
- Asymmetric synthesis
The chemistry of Zerumbone IV. Asymmetric synthesis of Zerumbol 75
- Bacillus* sp. SK-1
Application of a thermostable glutamate racemase from *Bacillus* sp. SK-1 for the production of *D*-phenylalanine in a multi-enzyme system 223
- Baker's yeast
Enantioselective reductions of ethyl 2-oxo-4-phenylbutyrate by *Saccharomyces cerevisiae* dehydrogenases 101
Baker's yeast mediated preparation of (10-alkyl-10*H*-phenothiazin-3-yl)methanols 241
- Beauveria bassiana*
Biocatalytic oxidation of *S*-alkylcysteine derivatives by chloroperoxidase and *Beauveria* species 249
- Beauveria caledonica*
Biocatalytic oxidation of *S*-alkylcysteine derivatives by chloroperoxidase and *Beauveria* species 249
- Benomyl
Construction of cellulase hyper-producers of *Trichoderma reesei* Rut C-30 for utilization of waste paper using colchicine and benomyl 175
- Biocatalysis
Biocatalytic oxidation of *S*-alkylcysteine derivatives by chloroperoxidase and *Beauveria* species 249
- Biodiesel fuel
Enzymatic alcoholysis for biodiesel fuel production and application of the reaction to oil processing 133
Conversion of degummed soybean oil to biodiesel fuel with immobilized *Candida antarctica* lipase 151
Repeated use of whole-cell biocatalysts immobilized within biomass support particles for biodiesel fuel production 157
- Biomass support particle
Construction of a fuzzy control system for a bioreactor using biomass support particles 207
- Bioreactor
Construction of a fuzzy control system for a bioreactor using biomass support particles 207
- Biotransformation
Biocatalytic oxidation of *S*-alkylcysteine derivatives by chloroperoxidase and *Beauveria* species 249
- Candida antarctica* lipase
Enzymatic alcoholysis for biodiesel fuel production and application of the reaction to oil processing 133
- Candida rugosa*
Primary allenic alcohols of high optical purity via lipase catalyzed resolution 261
- Carboxylic acids
Acetic acid bacteria as enantioselective biocatalysts 235
- Catharanthus roseus*
Purification and characterization of gentisic acid glucosyltransferase from the cultured cells of *Catharanthus roseus* 59
- Cell surface display
Efficient ethanol production from starch through development of novel flocculent yeast strains displaying glucoamylase and co-displaying or secreting α -amylase 179
Construction of whole-cell biocatalyst for xylan degradation through cell-surface xylanase display in *Saccharomyces cerevisiae* 189
- Cell surface engineering
Expression of *Rhizopus oryzae* lipase gene in *Saccharomyces cerevisiae* 113

- Construction of the combinatorial library of *Rhizopus oryzae* lipase mutated in the lid domain by displaying on yeast cell surface 167
- Construction of engineered yeast with the ability of binding to cellulose 197
- Cellobiohydrolase
- Construction of engineered yeast with the ability of binding to cellulose 197
- Cellulase
- Construction of cellulase hyper-producers of *Trichoderma reesei* Rut C-30 for utilization of waste paper using colchicine and benomyl 175
- Cellulose
- Construction of engineered yeast with the ability of binding to cellulose 197
- Cellulose binding domain
- Construction of engineered yeast with the ability of binding to cellulose 197
- Chemical modification
- Veratryl alcohol binding sites of lignin peroxidase from *Phanerochaete chrysosporium* 49
- Chiral compound
- Substrate specificity of thermostable farnesyl diphosphate synthase with respect to 4-alkyl group homologs of isopentenyl diphosphate 81
- Chloroperoxidase
- Catalytic activity of mesoporous silicate-immobilized chloroperoxidase 1
- Biocatalytic oxidation of *S*-alkylcysteine derivatives by chloroperoxidase and *Beauveria* species 249
- Chloroperoxidase-catalyzed cyclodimerization of methyl (2*E*)-2,4-pentadienoate: a [4 + 2] cycloaddition product 257
- Chondrine
- Biocatalytic oxidation of *S*-alkylcysteine derivatives by chloroperoxidase and *Beauveria* species 249
- Colchicine
- Construction of cellulase hyper-producers of *Trichoderma reesei* Rut C-30 for utilization of waste paper using colchicine and benomyl 175
- Combinatorial mutation
- Construction of the combinatorial library of *Rhizopus oryzae* lipase mutated in the lid domain by displaying on yeast cell surface 167
- Compound III
- Veratryl alcohol binding sites of lignin peroxidase from *Phanerochaete chrysosporium* 49
- C-terminal peptide
- Increase in stability of *Fusarium heterosporum* lipase 125
- Cyclodimerization
- Chloroperoxidase-catalyzed cyclodimerization of methyl (2*E*)-2,4-pentadienoate: a [4 + 2] cycloaddition product 257
- Cysteine proteases
- Peptide synthesis in aqueous-organic biphasic systems catalyzed by a protease isolated from *Morrenia brachystephana* (*Asclepiadaceae*) 39
- Degummed soybean oil
- Conversion of degummed soybean oil to biodiesel fuel with immobilized *Candida antarctica* lipase 151
- Dicarbonyl sugars
- C-3 oxidation of non-reducing sugars by a fungal pyranose dehydrogenase: spectral characterization 91
- Dienoic esters
- Chloroperoxidase-catalyzed cyclodimerization of methyl (2*E*)-2,4-pentadienoate: a [4 + 2] cycloaddition product 257
- Docosahexaenoic acid ethyl ester
- Enzymatic alcoholysis for biodiesel fuel production and application of the reaction to oil processing 133
- Enantioselective esterification
- Effect of imprinting sol-gel immobilized lipase with chiral template substrates in esterification of (*R*)-(+)- and (*S*)-(-)-glycidol 23
- Enantioselectivity
- Primary allenic alcohols of high optical purity via lipase catalyzed resolution 261
- Enzyme catalysis
- Biocatalytic oxidation of *S*-alkylcysteine derivatives by chloroperoxidase and *Beauveria* species 249
- Epoxidation
- Chloroperoxidase-catalyzed cyclodimerization of methyl (2*E*)-2,4-pentadienoate: a [4 + 2] cycloaddition product 257
- Esterase
- Screening, production and properties of a stereospecific esterase from *Pseudomonas* sp. S34 with high selectivity to (*S*)-keto-profen ethyl ester 29
- Ethanol
- Efficient ethanol production from starch through development of novel flocculent yeast strains displaying glucoamylase and co-displaying or secreting α -amylase 179
- Fixed-bed bioreactor
- Enzymatic alcoholysis for biodiesel fuel production and application of the reaction to oil processing 133
- Flexible loop
- Thermostable and active phosphoenolpyruvate carboxylase from *Thermus* sp. even after proteolytic cleavage 215
- Fluorescence
- Fluorescence measurement of glucose by pyrene-modified oxidase 203
- Formylation
- Baker's yeast mediated preparation of (10-alkyl-10*H*-phenothiazin-3-yl)methanols 241
- Fusarium heterosporum*
- Increase in stability of *Fusarium heterosporum* lipase 125
- Fuzzy control
- Construction of a fuzzy control system for a bioreactor using biomass support particles 207
- Gentisic acid
- Purification and characterization of gentisic acid glucosyltransferase from the cultured cells of *Catharanthus roseus* 59

- Glucoamylase**
 Efficient ethanol production from starch through development of novel flocculent yeast strains displaying glucoamylase and co-displaying or secreting α -amylase 179
- Gluconobacter***
 Acetic acid bacteria as enantioselective biocatalysts 235
- Glucose**
 Fluorescence measurement of glucose by pyrene-modified oxidase 203
- Glucose oxidase**
 Fluorescence measurement of glucose by pyrene-modified oxidase 203
- Glucosyltransferase**
 Purification and characterization of gentisic acid glucosyltransferase from the cultured cells of *Catharanthus roseus* 59
- Glutamate racemase**
 Application of a thermostable glutamate racemase from *Bacillus* sp. SK-1 for the production of D-phenylalanine in a multi-enzyme system 223
- Glutaraldehyde treatment**
 Repeated use of whole-cell biocatalysts immobilized within biomass support particles for biodiesel fuel production 157
- Glutathione**
 Enantioselective reductions of ethyl 2-oxo-4-phenylbutyrate by *Saccharomyces cerevisiae* dehydrogenases 101
- Homologs of isopentenyl diphosphate**
 Substrate specificity of thermostable farnesyl diphosphate synthase with respect to 4-alkyl group homologs of isopentenyl diphosphate 81
- Hydrogen production**
 Photoinduced hydrogen production with the system containing water-soluble viologen-linked porphyrins and hydrogenase 9
- Hydrogenase**
 Photoinduced hydrogen production with the system containing water-soluble viologen-linked porphyrins and hydrogenase 9
- Immobilization**
 Catalytic activity of mesoporous silicate-immobilized chloroperoxidase 1
- Immobilized *Candida antarctica* lipase**
 Conversion of degummed soybean oil to biodiesel fuel with immobilized *Candida antarctica* lipase 151
- Immobilized lipase**
 Increase in stability of *Fusarium heterosporum* lipase 125
- Imprinting**
 Effect of imprinting sol-gel immobilized lipase with chiral template substrates in esterification of (R)-(+)- and (S)-(-)-glycidol 23
- Intracellular overproduction**
 Preparation of high activity yeast whole cell biocatalysts by optimization of intracellular production of recombinant *Rhizopus oryzae* lipase 143
- Intramolecular chaperone**
 Expression of *Rhizopus oryzae* lipase gene in *Saccharomyces cerevisiae* 113
- Keto sugars**
 C-3 oxidation of non-reducing sugars by a fungal pyranose dehydrogenase: spectral characterization 91
- (S)-Ketoprofen**
 Screening, production and properties of a stereospecific esterase from *Pseudomonas* sp. S34 with high selectivity to (S)-ketoprofen ethyl ester 29
- Kinetics**
 Purification and enzymatic characterization of alkaline phosphatase from *Pinctada fucata* 65
- Lid**
 Construction of the combinatorial library of *Rhizopus oryzae* lipase mutated in the lid domain by displaying on yeast cell surface 167
- Lignin peroxidase**
 Veratryl alcohol binding sites of lignin peroxidase from *Phanerochaete chrysosporium* 49
- Limited proteolysis**
 Thermostable and active phosphoenolpyruvate carboxylase from *Thermus* sp. even after proteolytic cleavage 215
- Lipase**
 Effect of imprinting sol-gel immobilized lipase with chiral template substrates in esterification of (R)-(+)- and (S)-(-)-glycidol 23
 Increase in stability of *Fusarium heterosporum* lipase 125
 Preparation of high activity yeast whole cell biocatalysts by optimization of intracellular production of recombinant *Rhizopus oryzae* lipase 143
- Lipases**
 Primary allenic alcohols of high optical purity via lipase catalyzed resolution 261
- Main chain connectivity**
 Thermostable and active phosphoenolpyruvate carboxylase from *Thermus* sp. even after proteolytic cleavage 215
- Mass transfer**
 Construction of a fuzzy control system for a bioreactor using biomass support particles 207
- MCF**
 Catalytic activity of mesoporous silicate-immobilized chloroperoxidase 1
- Membership function**
 Construction of a fuzzy control system for a bioreactor using biomass support particles 207
- Mesoporous silicate**
 Catalytic activity of mesoporous silicate-immobilized chloroperoxidase 1
- Methanolysis**
 Conversion of degummed soybean oil to biodiesel fuel with immobilized *Candida antarctica* lipase 151
 Repeated use of whole-cell biocatalysts immobilized within biomass support particles for biodiesel fuel production 157
- Methyl ester**
 Repeated use of whole-cell biocatalysts immobilized within biomass support particles for biodiesel fuel production 157

- S*-Methylcysteine
Biocatalytic oxidation of *S*-alkylcysteine derivatives by chloroperoxidase and *Beauveria* species 249
- Molecular cloning
Application of a thermostable glutamate racemase from *Bacillus* sp. SK-1 for the production of *D*-phenylalanine in a multi-enzyme system 223
- Mollusc
Purification and enzymatic characterization of alkaline phosphatase from *Pinctada fucata* 65
- Morrenia brachystephana*
Peptide synthesis in aqueous–organic biphasic systems catalyzed by a protease isolated from *Morrenia brachystephana* (*Asclepiadaceae*) 39
- Non conventional media
Peptide synthesis in aqueous–organic biphasic systems catalyzed by a protease isolated from *Morrenia brachystephana* (*Asclepiadaceae*) 39
- Organic–inorganic hybrid silicate
Effect of imprinting sol–gel immobilized lipase with chiral template substrates in esterification of (*R*)-(+)- and (*S*)-(–)-glycidol 23
- Overproduction
Application of a thermostable glutamate racemase from *Bacillus* sp. SK-1 for the production of *D*-phenylalanine in a multi-enzyme system 223
- Oxidation
Acetic acid bacteria as enantioselective biocatalysts 235
Chloroperoxidase-catalyzed cyclodimerization of methyl (2*E*)-2,4-pentadienoate: a [4 + 2] cycloaddition product 257
- Peptide synthesis
Peptide synthesis in aqueous–organic biphasic systems catalyzed by a protease isolated from *Morrenia brachystephana* (*Asclepiadaceae*) 39
- Phosphoenolpyruvate carboxylase
Thermostable and active phosphoenolpyruvate carboxylase from *Thermus* sp. even after proteolytic cleavage 215
- Phospholipid
Conversion of degummed soybean oil to biodiesel fuel with immobilized *Candida antarctica* lipase 151
- Photoinduced electron transfer
Photoinduced hydrogen production with the system containing water-soluble viologen-linked porphyrins and hydrogenase 9
- Pinctada fucata*
Purification and enzymatic characterization of alkaline phosphatase from *Pinctada fucata* 65
- Prenyltransferase
Substrate specificity of thermostable farnesyl diphosphate synthase with respect to 4-alkyl group homologs of isopentenyl diphosphate 81
- Prosequence
Expression of *Rhizopus oryzae* lipase gene in *Saccharomyces cerevisiae* 113
- Pseudomonas*
Screening, production and properties of a stereospecific esterase from *Pseudomonas* sp. S34 with high selectivity to (*S*)-ketoprofen ethyl ester 29
- Purification
Purification and enzymatic characterization of alkaline phosphatase from *Pinctada fucata* 65
- Pyranose dehydrogenase
C-3 oxidation of non-reducing sugars by a fungal pyranose dehydrogenase: spectral characterization 91
- Pyrene
Fluorescence measurement of glucose by pyrene-modified oxidase 203
- Reduction
Baker's yeast mediated preparation of (10-alkyl-10*H*-phenothiazin-3-yl)methanols 241
- Resolution
Acetic acid bacteria as enantioselective biocatalysts 235
- Rhizopus oryzae*
Preparation of high activity yeast whole cell biocatalysts by optimization of intracellular production of recombinant *Rhizopus oryzae* lipase 143
Rhizopus oryzae lipase (ROL)
Expression of *Rhizopus oryzae* lipase gene in *Saccharomyces cerevisiae* 113
Construction of the combinatorial library of *Rhizopus oryzae* lipase mutated in the lid domain by displaying on yeast cell surface 167
- Saccharomyces cerevisiae*
Expression of *Rhizopus oryzae* lipase gene in *Saccharomyces cerevisiae* 113
Preparation of high activity yeast whole cell biocatalysts by optimization of intracellular production of recombinant *Rhizopus oryzae* lipase 143
Efficient ethanol production from starch through development of novel flocculent yeast strains displaying glucoamylase and co-displaying or secreting α -amylase 179
Construction of whole-cell biocatalyst for xylan degradation through cell-surface xylanase display in *Saccharomyces cerevisiae* 189
Construction of engineered yeast with the ability of binding to cellulose 197
- SBA-15
Catalytic activity of mesoporous silicate-immobilized chloroperoxidase 1
- Screening
Screening, production and properties of a stereospecific esterase from *Pseudomonas* sp. S34 with high selectivity to (*S*)-ketoprofen ethyl ester 29
- Sol–gel method
Effect of imprinting sol–gel immobilized lipase with chiral template substrates in esterification of (*R*)-(+)- and (*S*)-(–)-glycidol 23
- Stability
Increase in stability of *Fusarium heterosporum* lipase 125

Starch

Efficient ethanol production from starch through development of novel flocculent yeast strains displaying glucoamylase and co-displaying or secreting α -amylase 179

Steady-state kinetics

Veratryl alcohol binding sites of lignin peroxidase from *Phanerochaete chrysosporium* 49

Stereospecificity

Screening, production and properties of a stereospecific esterase from *Pseudomonas* sp. S34 with high selectivity to (*S*)-keto-profen ethyl ester 29

Substrate binding site

Veratryl alcohol binding sites of lignin peroxidase from *Phanerochaete chrysosporium* 49

Substrate specificity

Substrate specificity of thermostable farnesyl diphosphate synthase with respect to 4-alkyl group homologs of isopentenyl diphosphate 81

Construction of the combinatorial library of *Rhizopus oryzae* lipase mutated in the lid domain by displaying on yeast cell surface 167

Sucrose

C-3 oxidation of non-reducing sugars by a fungal pyranose dehydrogenase: spectral characterization 91

Sulfoxidation

Biocatalytic oxidation of *S*-alkylcysteine derivatives by chloroperoxidase and *Beauveria* species 249

Surface display

Construction of the combinatorial library of *Rhizopus oryzae* lipase mutated in the lid domain by displaying on yeast cell surface 167

Thermostability

Application of a thermostable glutamate racemase from *Bacillus* sp. SK-1 for the production of *D*-phenylalanine in a multi-enzyme system 223

Thermostable

Thermostable and active phosphoenolpyruvate carboxylase from *Thermus* sp. even after proteolytic cleavage 215

Thermostable farnesyl diphosphate synthase

Substrate specificity of thermostable farnesyl diphosphate synthase with respect to 4-alkyl group homologs of isopentenyl diphosphate 81

Transesterification

The chemistry of Zerumbone IV. Asymmetric synthesis of Zerumbol 75

Transient-state kinetics

Veratryl alcohol binding sites of lignin peroxidase from *Phanerochaete chrysosporium* 49

Trehalose

C-3 oxidation of non-reducing sugars by a fungal pyranose dehydrogenase: spectral characterization 91

Trichoderma reesei

Construction of cellulase hyper-producers of *Trichoderma reesei* Rut C-30 for utilization of waste paper using colchicine and benomyl 175

Construction of whole-cell biocatalyst for xylan degradation through cell-surface xylanase display in *Saccharomyces cerevisiae* 189

Construction of engineered yeast with the ability of binding to cellulose 197

Veratryl alcohol

Veratryl alcohol binding sites of lignin peroxidase from *Phanerochaete chrysosporium* 49

Waste paper

Construction of cellulase hyper-producers of *Trichoderma reesei* Rut C-30 for utilization of waste paper using colchicine and benomyl 175

Water-soluble viologen-linked porphyrins

Photoinduced hydrogen production with the system containing water-soluble viologen-linked porphyrins and hydrogenase 9

Whole cell biocatalyst

Preparation of high activity yeast whole cell biocatalysts by optimization of intracellular production of recombinant *Rhizopus oryzae* lipase 143

Repeated use of whole-cell biocatalysts immobilized within biomass support particles for biodiesel fuel production 157

Xylan

Construction of whole-cell biocatalyst for xylan degradation through cell-surface xylanase display in *Saccharomyces cerevisiae* 189

Xylanase

Construction of whole-cell biocatalyst for xylan degradation through cell-surface xylanase display in *Saccharomyces cerevisiae* 189

Zerumbol

The chemistry of Zerumbone IV. Asymmetric synthesis of Zerumbol 75

Zerumbone

The chemistry of Zerumbone IV. Asymmetric synthesis of Zerumbol 75
