

## Subject Index

### ABTS

Oxidation of ABTS by hydrogen peroxide catalyzed by horseradish peroxidase encapsulated into sol–gel glass. Effects of glass matrix on reactivity 39

### Acetophenone

Asymmetric reduction of aryl ketones with a new isolate *Rhodotorula* sp. AS2.2241 233

### Activity staining

Functional esterase surface display by the autotransporter pathway in *Escherichia coli* 89

### Activity-growth

Preparation of an epoxide-hydrolyzing biocatalyst: *Rhodococcus ruber* DSM 44540—an activity-growth study 163

### Aerosol OT

Effects of mixed reverse micellar structure on stability and activity of yeast alcohol dehydrogenase 155

### Agglomeration

Enzymatic catalysis in gel-stabilized two-phase systems: improvement of the solvent phase 19

### Aldehyde reductase

Asymmetric reduction of aryl ketones with a new isolate *Rhodotorula* sp. AS2.2241 233

### Alkali-tolerance

Studies on the key amino acid residues responsible for the alkali-tolerance of the xylanase by site-directed or random mutagenesis 307

### Amidase

Enzymatic synthesis of optically active 2-methyl- and 2,2-dimethylcyclopropanecarboxylic acids and their derivatives 267

### Apoptosis

Superoxide anion burst and taxol production induced by  $Ce^{4+}$  in suspension cultures of *Taxus cuspidata* 251

### Ascorbic acid

Study of Vitamin C ester synthesis by immobilized lipase from *Candida* sp. 261

### Asparagine-71

Studies on the key amino acid residues responsible for the alkali-tolerance of the xylanase by site-directed or random mutagenesis 307

### Asymmetric reduction

Asymmetric reduction of aryl ketones with a new isolate *Rhodotorula* sp. AS2.2241 233

### Asymmetric resolution

Purification and properties of lipase from a *Bacillus* strain for catalytic resolution of (*R*)-Naproxen 205

### Autotransporter

Functional esterase surface display by the autotransporter pathway in *Escherichia coli* 89

### *Bacillus*

A new isolate *Bacillus stearothermophilus* JY144 expressing a novel esterase with high enantioselectivity to (*R*)-ketoprofen ethyl ester: strain selection and gene cloning 133

### 1,4-Benzenedimethanol

Toward the development of a biocatalytic system for oxidation of *p*-xylene to terephthalic acid: oxidation of 1,4-benzenedimethanol 147

### Binding constant

Laccase-catalyzed oxidation of syringates in presence of albumins 99

### Biocatalysis

Comparison of peroxidase activities of hemin, cytochrome *c* and microperoxidase-11 in molecular solvents and imidazolium-based ionic liquids 109

### Biocatalyst

A biocatalyst for pyruvate preparation from DL-lactate: lactate oxidase in a *Pseudomonas* sp. 299

### Biomedicine

Direct binding procedure of proteins and enzymes to fine magnetic particles 13

### Biosensors

An amperometric sensor employing glucose oxidase immobilized on nylon membranes with different pore diameter and grafted with different monomers 49

### Biotechnology

Direct binding procedure of proteins and enzymes to fine magnetic particles 13

### Brij30

Effects of mixed reverse micellar structure on stability and activity of yeast alcohol dehydrogenase 155

### $\alpha$ -Bromoacetophenone

Asymmetric reduction of aryl ketones with a new isolate *Rhodotorula* sp. AS2.2241 233

### *Burkholderia gladioli*

Functional esterase surface display by the autotransporter pathway in *Escherichia coli* 89

### *Candida* sp. 99–125 lipase

Enzymatic synthesis of 2-ethylhexyl esters of fatty acids by immobilized lipase from *Candida* sp. 99–125 333

## Catalytic Membranes

An amperometric sensor employing glucose oxidase immobilized on nylon membranes with different pore diameter and grafted with different monomers 49

Ce<sup>4+</sup>

Superoxide anion burst and taxol production induced by Ce<sup>4+</sup> in suspension cultures of *Taxus cuspidata* 251

## Cell treatment

Significantly improved esterase activity of *Trichosporon bras-sicae* cells for ketoprofen resolution by 2-propanol treatment 219

## Cellulose binding domain (CBD)

Stabilization of horseradish peroxidase in aqueous-organic media by immobilization onto cellulose using a cellulose-binding-domain 121

## Chemical modification

Increased thermostability and phenol removal efficiency by chemical modified horseradish peroxidase 225

## Chinese contributions

A mini-review of Chinese contributions to *Journal of Molecular Catalysis B: Enzymatic* 199

## Chloroperoxidase

Toward the development of a biocatalytic system for oxidation of *p*-xylene to terephthalic acid: oxidation of 1,4-benzenedimethanol 147

## Cloning

A new isolate *Bacillus stearothermophilus* JY144 expressing a novel esterase with high enantioselectivity to (*R*)-ketoprofen ethyl ester: strain selection and gene cloning 133

High expression of *Trigonopsis variabilis* D-amino acid oxidase in *Pichia pastoris* 291

## Conversion

Enzymatic synthesis of ethyl glucoside lactate in non-aqueous system 273

 $\alpha$ -Cyano-3-phenoxybenzyl alcohol

The kinetic study on lipase-catalyzed transesterification of  $\alpha$ -cyano-3-phenoxybenzyl alcohol in organic media 315

Cytochrome *c*

Comparison of peroxidase activities of hemin, cytochrome *c* and microperoxidase-11 in molecular solvents and imidazolium-based ionic liquids 109

## D-Amino acid oxidase

High expression of *Trigonopsis variabilis* D-amino acid oxidase in *Pichia pastoris* 291

## Deactivation

Kinetics of lipase deactivation in AOT/isooctane reversed micelles 279

## 2,2-Dimethylcyclopropanecarboxylic acid

Enzymatic synthesis of optically active 2-methyl- and 2,2-dimethylcyclopropanecarboxylic acids and their derivatives 267

## Dipeptide heptyl esters

The use of crude lipase in deprotection of C-terminal protecting groups 243

## Distribution

Characteristics of magnetic nanoparticles-bound YADH in water/AOT/isooctane microemulsions 81

## DL-Lactate

A biocatalyst for pyruvate preparation from DL-lactate: lactate oxidase in a *Pseudomonas* sp. 299

## DMSO

Biological changes in suspension cultures of *Taxus cuspidata* induced by dimethyl sulphoxide and ethanol 211

## DNA fragmentation

Biological changes in suspension cultures of *Taxus cuspidata* induced by dimethyl sulphoxide and ethanol 211

## Docking

Laccase-catalyzed oxidation of syringates in presence of albumins 99

## Dynamic light scattering

Effects of mixed reverse micellar structure on stability and activity of yeast alcohol dehydrogenase 155

## Enantioselectivity

Enzymatic synthesis of optically active 2-methyl- and 2,2-dimethylcyclopropanecarboxylic acids and their derivatives 267

## Entrapment

Enzymatic catalysis in gel-stabilized two-phase systems: improvement of the solvent phase 19

## Enzymatic esterification

Enzymatic synthesis of 2-ethylhexyl esters of fatty acids by immobilized lipase from *Candida* sp. 99–125 333

## Enzymatic oxidation

Toward the development of a biocatalytic system for oxidation of *p*-xylene to terephthalic acid: oxidation of 1,4-benzenedimethanol 147

## Enzymatic synthesis

Study of Vitamin C ester synthesis by immobilized lipase from *Candida* sp. 261

## Enzyme engineering in China

A mini-review of Chinese contributions to *Journal of Molecular Catalysis B: Enzymatic* 199

## Enzyme kinetics

Kinetics of glucose oxidase immobilized in p(HEMA)-hydrogel microspheres in a packed-bed bioreactor 69

## Enzymes

Direct binding procedure of proteins and enzymes to fine magnetic particles 13

## Epoxide hydrolase

Preparation of an epoxide-hydrolyzing biocatalyst: *Rhodococcus ruber* DSM 44540—an activity-growth study 163

## Esterase

Functional esterase surface display by the autotransporter pathway in *Escherichia coli* 89

A new isolate *Bacillus stearothermophilus* JY144 expressing a novel esterase with high enantioselectivity to (*R*)-ketoprofen ethyl ester: strain selection and gene cloning 133

Significantly improved esterase activity of *Trichosporon bras-sicae* cells for ketoprofen resolution by 2-propanol treatment 219

## Esterification

Biosynthesis of ethyl esters of short-chain fatty acids using whole-cell lipase from *Rhizopus chinensis* CCTCC M201021 in non-aqueous phase 29

- Ethanol  
Biological changes in suspension cultures of *Taxus cuspidata* induced by dimethyl sulphoxide and ethanol 211
- Ethyl glucoside  
Enzymatic synthesis of ethyl glucoside lactate in non-aqueous system 273
- 2-Ethylhexyl palmitate  
Enzymatic synthesis of 2-ethylhexyl esters of fatty acids by immobilized lipase from *Candida* sp. 99–125 333
- Expression  
High expression of *Trigonopsis variabilis* D-amino acid oxidase in *Pichia pastoris* 291
- Fermentation  
Preparation of an epoxide-hydrolyzing biocatalyst: *Rhodococcus ruber* DSM 44540—an activity-growth study 163  
High expression of *Trigonopsis variabilis* D-amino acid oxidase in *Pichia pastoris* 291
- Flavor ester  
Biosynthesis of ethyl esters of short-chain fatty acids using whole-cell lipase from *Rhizopus chinensis* CCTCC M201021 in non-aqueous phase 29
- Glucose determination  
An amperometric sensor employing glucose oxidase immobilized on nylon membranes with different pore diameter and grafted with different monomers 49
- Glucose oxidase  
An amperometric sensor employing glucose oxidase immobilized on nylon membranes with different pore diameter and grafted with different monomers 49  
Kinetics of glucose oxidase immobilized in p(HEMA)-hydrogel microspheres in a packed-bed bioreactor 69
- Glutamate  
Immobilization of penicillin G acylase in layered double hydroxides pillared by glutamate ions 3
- Grafting technique  
An amperometric sensor employing glucose oxidase immobilized on nylon membranes with different pore diameter and grafted with different monomers 49
- Homology modeling  
Studies on the key amino acid residues responsible for the alkali-tolerance of the xylanase by site-directed or random mutagenesis 307
- Horseradish peroxidase (HRP)  
Oxidation of ABTS by hydrogen peroxide catalyzed by horseradish peroxidase encapsulated into sol-gel glass. Effects of glass matrix on reactivity 39  
Stabilization of horseradish peroxidase in aqueous-organic media by immobilization onto cellulose using a cellulose-binding-domain 121  
Increased thermostability and phenol removal efficiency by chemical modified horseradish peroxidase 225
- Hydrodynamic diameter  
Effects of mixed reverse micellar structure on stability and activity of yeast alcohol dehydrogenase 155
- Hydrogel  
Enzymatic catalysis in gel-stabilized two-phase systems: improvement of the solvent phase 19
- Hydrogel microspheres  
Kinetics of glucose oxidase immobilized in p(HEMA)-hydrogel microspheres in a packed-bed bioreactor 69
- Hydrogen peroxide regeneration  
Toward the development of a biocatalytic system for oxidation of *p*-xylene to terephthalic acid: oxidation of 1,4-benzenedimethanol 147
- Hydrophobic chromatography  
Purification and properties of lipase from a *Bacillus* strain for catalytic resolution of (*R*)-Naproxen 205
- Hydrotalcite  
Immobilization of penicillin G acylase in layered double hydroxides pillared by glutamate ions 3
- $\alpha$ -Hydroxy acid  
Enzymatic synthesis of ethyl glucoside lactate in non-aqueous system 273
- Immobilization  
Direct binding procedure of proteins and enzymes to fine magnetic particles 13  
Enzymatic catalysis in gel-stabilized two-phase systems: improvement of the solvent phase 19  
Stabilization of horseradish peroxidase in aqueous-organic media by immobilization onto cellulose using a cellulose-binding-domain 121
- Immobilized enzyme  
Immobilization of penicillin G acylase in layered double hydroxides pillared by glutamate ions 3
- Immobilized lipase  
Enzymatic synthesis of 2-ethylhexyl esters of fatty acids by immobilized lipase from *Candida* sp. 99–125 333
- Intercalation  
Immobilization of penicillin G acylase in layered double hydroxides pillared by glutamate ions 3
- Ionic liquids  
Comparison of peroxidase activities of hemin, cytochrome *c* and microperoxidase-11 in molecular solvents and imidazolium-based ionic liquids 109
- Journal of Molecular Catalysis B: Enzymatic*  
A mini-review of Chinese contributions to *Journal of Molecular Catalysis B: Enzymatic* 199
- Ketone reductase  
Asymmetric reduction of aryl ketones with a new isolate *Rhodotorula* sp. AS2.2241 233
- (*R*)-ketoprofen  
A new isolate *Bacillus stearothermophilus* JY144 expressing a novel esterase with high enantioselectivity to (*R*)-ketoprofen ethyl ester: strain selection and gene cloning 133
- Ketoprofen  
Significantly improved esterase activity of *Trichosporon brasicae* cells for ketoprofen resolution by 2-propanol treatment 219

- Kinetic model  
Study of Vitamin C ester synthesis by immobilized lipase from *Candida* sp. 261
- Kinetic resolution  
Significantly improved esterase activity of *Trichosporon bras-sicae* cells for ketoprofen resolution by 2-propanol treatment 219
- Kinetics  
Laccase-catalyzed oxidation of syringates in presence of albumins 99  
Kinetics of lipase deactivation in AOT/isooctane reversed micelles 279
- Laccase  
Laccase-catalyzed oxidation of syringates in presence of albumins 99
- Lactate oxidase  
A biocatalyst for pyruvate preparation from DL-lactate: lactate oxidase in a *Pseudomonas* sp. 299
- Layered double hydroxide  
Immobilization of penicillin G acylase in layered double hydroxides pillared by glutamate ions 3
- Lipase  
Purification and properties of lipase from a *Bacillus* strain for catalytic resolution of (*R*)-Naproxen 205  
The use of crude lipase in deprotection of C-terminal protecting groups 243  
Study of Vitamin C ester synthesis by immobilized lipase from *Candida* sp. 261  
Enzymatic synthesis of ethyl glucoside lactate in non-aqueous system 273  
Kinetics of lipase deactivation in AOT/isooctane reversed micelles 279  
The kinetic study on lipase-catalyzed transesterification of  $\alpha$ -cyano-3-phenoxybenzyl alcohol in organic media 315  
Preparation of PVA/chitosan lipase membrane reactor and its application in synthesis of monoglyceride 325
- Magnetic nanoparticles  
Characteristics of magnetic nanoparticles-bound YADH in water/AOT/isooctane microemulsions 81
- Magnetic particles  
Direct binding procedure of proteins and enzymes to fine magnetic particles 13
- Membrane reactor  
Preparation of PVA/chitosan lipase membrane reactor and its application in synthesis of monoglyceride 325
- Methyl syringate  
Laccase-catalyzed oxidation of syringates in presence of albumins 99
- 2-Methylcyclopropanecarboxylic acid  
Enzymatic synthesis of optically active 2-methyl- and 2,2-dimethylcyclopropanecarboxylic acids and their derivatives 267
- Microemulsions  
Characteristics of magnetic nanoparticles-bound YADH in water/AOT/isooctane microemulsions 81
- Mini-review  
A mini-review of Chinese contributions to *Journal of Molecular Catalysis B: Enzymatic* 199
- Monoglyceride  
Preparation of PVA/chitosan lipase membrane reactor and its application in synthesis of monoglyceride 325
- NADPH oxidase  
Superoxide anion burst and taxol production induced by  $Ce^{4+}$  in suspension cultures of *Taxus cuspidata* 251
- (*R*)-Naproxen  
Purification and properties of lipase from a *Bacillus* strain for catalytic resolution of (*R*)-Naproxen 205
- Newlase F  
The use of crude lipase in deprotection of C-terminal protecting groups 243
- Nitrile hydratase  
Enzymatic synthesis of optically active 2-methyl- and 2,2-dimethylcyclopropanecarboxylic acids and their derivatives 267
- Non-aqueous media  
Comparison of peroxidase activities of hemin, cytochrome *c* and microperoxidase-11 in molecular solvents and imidazolium-based ionic liquids 109
- Non-aqueous phase  
Biosynthesis of ethyl esters of short-chain fatty acids using whole-cell lipase from *Rhizopus chinensis* CCTCC M201021 in non-aqueous phase 29
- Oleic acid  
Study of Vitamin C ester synthesis by immobilized lipase from *Candida* sp. 261  
Kinetics of lipase deactivation in AOT/isooctane reversed micelles 279
- Optically active  
Enzymatic synthesis of optically active 2-methyl- and 2,2-dimethylcyclopropanecarboxylic acids and their derivatives 267
- Organic media  
The kinetic study on lipase-catalyzed transesterification of  $\alpha$ -cyano-3-phenoxybenzyl alcohol in organic media 315
- Organic solvents  
Stabilization of horseradish peroxidase in aqueous-organic media by immobilization onto cellulose using a cellulose-binding-domain 121
- Oxidoreductase  
Comparison of peroxidase activities of hemin, cytochrome *c* and microperoxidase-11 in molecular solvents and imidazolium-based ionic liquids 109
- p(HEMA)  
Kinetics of glucose oxidase immobilized in p(HEMA)-hydrogel microspheres in a packed-bed bioreactor 69
- Packed-bed bioreactor  
Kinetics of glucose oxidase immobilized in p(HEMA)-hydrogel microspheres in a packed-bed bioreactor 69

- Penicillin G acylase  
 Immobilization of penicillin G acylase in layered double hydroxides pillared by glutamate ions 3  
 Rational design of a more stable penicillin G acylase against organic cosolvent 285
- Phenol removal  
 Increased thermostability and phenol removal efficiency by chemical modified horseradish peroxidase 225
- Pichia pastoris*  
 High expression of *Trigonopsis variabilis* D-amino acid oxidase in *Pichia pastoris* 291
- Protease  
 The use of crude lipase in deprotection of C-terminal protecting groups 243
- Protein engineering  
 Rational design of a more stable penicillin G acylase against organic cosolvent 285
- Protein stability  
 Rational design of a more stable penicillin G acylase against organic cosolvent 285
- Proteins  
 Direct binding procedure of proteins and enzymes to fine magnetic particles 13
- Pseudomonas*  
 A biocatalyst for pyruvate preparation from DL-lactate: lactate oxidase in a *Pseudomonas* sp. 299
- Purification  
 Purification and properties of lipase from a *Bacillus* strain for catalytic resolution of (*R*)-Naproxen 205
- Pyruvate  
 A biocatalyst for pyruvate preparation from DL-lactate: lactate oxidase in a *Pseudomonas* sp. 299
- Racemic nitriles  
 Enzymatic synthesis of optically active 2-methyl- and 2,2-dimethylcyclopropanecarboxylic acids and their derivatives 267
- Reverse micelles  
 Effects of mixed reverse micellar structure on stability and activity of yeast alcohol dehydrogenase 155
- Reversed micelles  
 Kinetics of lipase deactivation in AOT/isooctane reversed micelles 279
- Rhizopus chinensis*  
 Biosynthesis of ethyl esters of short-chain fatty acids using whole-cell lipase from *Rhizopus chinensis* CCTCC M201021 in non-aqueous phase 29
- Rhodococcus ruber*  
 Preparation of an epoxide-hydrolyzing biocatalyst: *Rhodococcus ruber* DSM 44540—an activity-growth study 163
- Rhodococcus* sp.  
 Enzymatic synthesis of optically active 2-methyl- and 2,2-dimethylcyclopropanecarboxylic acids and their derivatives 267
- Rhodotorula* sp.  
 Asymmetric reduction of aryl ketones with a new isolate *Rhodotorula* sp. AS2.2241 233
- Screening  
 A new isolate *Bacillus stearothermophilus* JY144 expressing a novel esterase with high enantioselectivity to (*R*)-ketoprofen ethyl ester: strain selection and gene cloning 133
- Serum albumin  
 Laccase-catalyzed oxidation of syringates in presence of albumins 99
- Short-chain fatty acid  
 Biosynthesis of ethyl esters of short-chain fatty acids using whole-cell lipase from *Rhizopus chinensis* CCTCC M201021 in non-aqueous phase 29
- Site-directed mutagenesis  
 Studies on the key amino acid residues responsible for the alkali-tolerance of the xylanase by site-directed or random mutagenesis 307
- Sol-gel method  
 Oxidation of ABTS by hydrogen peroxide catalyzed by horseradish peroxidase encapsulated into sol-gel glass. Effects of glass matrix on reactivity 39
- Special issue  
 A mini-review of Chinese contributions to *Journal of Molecular Catalysis B: Enzymatic* 199
- Stability  
 Characteristics of magnetic nanoparticles-bound YADH in water/AOT/isooctane microemulsions 81  
 Effects of mixed reverse micellar structure on stability and activity of yeast alcohol dehydrogenase 155
- Superoxide anion  
 Superoxide anion burst and taxol production induced by Ce<sup>4+</sup> in suspension cultures of *Taxus cuspidata* 251
- Surface display  
 Functional esterase surface display by the autotransporter pathway in *Escherichia coli* 89
- Taxol  
 Superoxide anion burst and taxol production induced by Ce<sup>4+</sup> in suspension cultures of *Taxus cuspidata* 251
- Taxus cuspidata*  
 Biological changes in suspension cultures of *Taxus cuspidata* induced by dimethyl sulphoxide and ethanol 211  
 Superoxide anion burst and taxol production induced by Ce<sup>4+</sup> in suspension cultures of *Taxus cuspidata* 251
- Thermostability  
 Stabilization of horseradish peroxidase in aqueous-organic media by immobilization onto cellulose using a cellulose-binding-domain 121  
 Increased thermostability and phenol removal efficiency by chemical modified horseradish peroxidase 225
- Transesterification  
 Enzymatic synthesis of ethyl glucoside lactate in non-aqueous system 273  
 The kinetic study on lipase-catalyzed transesterification of  $\alpha$ -cyano-3-phenoxybenzyl alcohol in organic media 315
- Trichosporon brassicae*  
 Significantly improved esterase activity of *Trichosporon*

- brassicae* cells for ketoprofen resolution by 2-propanol treatment 219
- Two-phase system
  - Enzymatic catalysis in gel-stabilized two-phase systems: improvement of the solvent phase 19
- Viability
  - Biological changes in suspension cultures of *Taxus cuspidata* induced by dimethyl sulphoxide and ethanol 211
- Whole-cell lipase
  - Biosynthesis of ethyl esters of short-chain fatty acids using whole-cell lipase from *Rhizopus chinensis* CCTCC M201021 in non-aqueous phase 29
- Xanthine oxidase
  - Toward the development of a biocatalytic system for oxidation of *p*-xylene to terephthalic acid: oxidation of 1,4-benzenedimethanol 147
- Xylanase
  - Studies on the key amino acid residues responsible for the alkali-tolerance of the xylanase by site-directed or random mutagenesis 307
- YADH
  - Characteristics of magnetic nanoparticles-bound YADH in water/AOT/isooctane microemulsions 81
- Yeast alcohol dehydrogenase
  - Effects of mixed reverse micellar structure on stability and activity of yeast alcohol dehydrogenase 155
