

## Enzyme Engineering XVII

Santa Fe, New Mexico

November 9–14, 2003

The Enzyme Engineering Conferences were initiated in 1971 and have been a leading international forum for the discussion of new developments in enzyme technology and biocatalysis, in both the fundamental and practical aspects of this rapidly growing field. This conference will continue the tradition of this series and will focus on new developments in the field of biocatalysis with respect to their contribution to the developments in the chemical and pharmaceutical industries.

The conference will cover subjects such as (1) Directed Evolution of Biocatalysts, (2) Industrial Biocatalysts, (3) Structure/Mechanism Approach to Enzyme Catalysis, and (4) Pathway Engineering. The program will also feature the Enzyme Engineering Award lecture. Poster sessions will be held to augment the technical program.

The Co-Chairs of the conference are Prof. Stephen Benkovic, Pennsylvania State University, Dr. Jeffrey Moore, Merck & Co., Inc., and Prof. Chi-Huey Wong, The Scripps Research Institute.

Additional information about this Conference – and a registration form – can be found at the Conference's web site: <http://www.engconfintl.org/3ae.html>.

Engineering Conferences International (ECI) is the successor to the United Engineering Foundation Conferences. ECI offices are located at 6 MetroTech Center, Brooklyn, NY 11201; Tel: 1-718-260-3743, Fax: 1-718-260-3754, E-mail: [BKHEngConfIntl@aol.com](mailto:BKHEngConfIntl@aol.com), WWW: [www.engconfintl.org](http://www.engconfintl.org).
