

## Subject Index

- Activity**  
Characteristics of galactomannanase for degrading konjac gel 153
- Adsorbent**  
Lipase-catalyzed biodiesel production from soybean oil deodorizer distillate with absorbent present in *tert*-butanol system 29
- Adsorption**  
Silica nanotubes-doped alginate gel for yeast alcohol dehydrogenase immobilization 68
- Aggregation**  
Effects of *p*-benzoquinone and melatonin on amyloid fibrillogenesis of hen egg-white lysozyme 49
- Alcohol dehydrogenase**  
Steady-state kinetics of the oxidation of (*S*)-1-phenyl-1,2-ethanediol catalyzed by alcohol dehydrogenase from *Candida parapsilosis* CCTCC M203011 23  
Silica nanotubes-doped alginate gel for yeast alcohol dehydrogenase immobilization 68
- Alginate**  
Silica nanotubes-doped alginate gel for yeast alcohol dehydrogenase immobilization 68
- Amyloid**  
Effects of *p*-benzoquinone and melatonin on amyloid fibrillogenesis of hen egg-white lysozyme 49
- L-Arabinose isomerase**  
Modification of optimal pH in L-arabinose isomerase from *Geobacillus stearothermophilus* for D-galactose isomerization 108
- Batch reactions**  
Production of trehalose by permeabilized *Micrococcus QS412* cells 137
- Biocatalysis**  
Biocatalytic properties of a novel crude glycyrrhizin hydrolase from the liver of the domestic duck 148
- Biodiesel**  
Study on the effect of cultivation parameters and pretreatment on *Rhizopus oryzae* cell-catalyzed transesterification of vegetable oils for biodiesel production 15  
Lipase-catalyzed biodiesel production from soybean oil deodorizer distillate with absorbent present in *tert*-butanol system 29  
Lipase-catalyzed transesterification of rapeseed oils for biodiesel production with a novel organic solvent as the reaction medium 58  
Lipase catalyzed methanolysis to produce biodiesel: Optimization of the biodiesel production 142
- Biosynthesis**  
Screening strains for directed biosynthesis of  $\beta$ -D-mono-glucuronide-glycyrrhizin and kinetics of enzyme production 63
- Broccoli seed**  
Effects of metal ions on myrosinase activity and the formation of sulforaphane in broccoli seed 19
- tert*-Butanol**  
Lipase-catalyzed biodiesel production from soybean oil deodorizer distillate with absorbent present in *tert*-butanol system 29  
Lipase-catalyzed transesterification of rapeseed oils for biodiesel production with a novel organic solvent as the reaction medium 58
- Candida parapsilosis* CCTCC M203011  
Steady-state kinetics of the oxidation of (*S*)-1-phenyl-1,2-ethanediol catalyzed by alcohol dehydrogenase from *Candida parapsilosis* CCTCC M203011 23
- Candida rugosa* lipase  
Cross-linked enzyme aggregates (CLEAs) with controlled particles: Application to *Candida rugosa* lipase 124
- Candida* sp. 99–125 lipase  
Lipase catalyzed methanolysis to produce biodiesel: Optimization of the biodiesel production 142
- Carrier-free**  
Cross-linked enzyme aggregates (CLEAs) with controlled particles: Application to *Candida rugosa* lipase 124
- Cell disruption**  
Simultaneous expression of glutaryl-7-aminocephalosporanic acid acylase gene and lysis genes of phage  $\lambda$  in a recombinant *E. coli* 118
- Clausenamide**  
Preparation of (2*S*, 3*R*)-methyl-3-phenylglycidate using whole cells of *Pseudomonas putida* 133
- Clavulanic acid**  
Application of *lat* gene disruption to increase the clavulanic acid production of *Streptomyces clavuligerus* 102
- Directed evolution**  
Improved thermostability and the optimum temperature of *Rhizopus arrhizus* lipase by directed evolution 33  
 $\beta$ -D-mono-glucuronide-glycyrrhizin  
Screening strains for directed biosynthesis of  $\beta$ -D-mono-glucuronide-glycyrrhizin and kinetics of enzyme production 63
- DNA shuffling**  
Improved thermostability and the optimum temperature of *Rhizopus arrhizus* lipase by directed evolution 33
- Doping**  
Visible-light photocatalytic regeneration of NADH using P-doped TiO<sub>2</sub> nanoparticles 44
- Enantiopure epoxides**  
Development and characterization of recombinant whole-cell biocatalysts expressing epoxide hydrolase from *Rhodotorula glutinis* for enantioselective resolution of racemic epoxides 2
- Enantioselective hydrolysis**  
Development and characterization of recombinant whole-cell biocatalysts expressing epoxide hydrolase from *Rhodotorula glutinis* for enantioselective resolution of racemic epoxides 2
- Encapsulation**  
Silica nanotubes-doped alginate gel for yeast alcohol dehydrogenase immobilization 68
- Enzymatic characteristic**  
Production, purification and properties of  $\gamma$ -glutamyltranspeptidase from a newly isolated *Bacillus subtilis* NX-2 113
- Enzymatic hydrolysis**  
Production of trehalose by permeabilized *Micrococcus QS412* cells 137

- Enzyme  
 Characteristics of galactomannanase for degrading konjac gel 153
- Enzyme kinetics  
 Steady-state kinetics of the oxidation of (*S*)-1-phenyl-1,2-ethanediol catalyzed by alcohol dehydrogenase from *Candida parapsilosis* CCTCC M203011 23
- Enzyme production  
 Screening strains for directed biosynthesis of  $\beta$ -D-mono-glucuronide-glycyrrhizin and kinetics of enzyme production 63
- Epoxide hydrolase  
 Development and characterization of recombinant whole-cell biocatalysts expressing epoxide hydrolase from *Rhodotorula glutinis* for enantioselective resolution of racemic epoxides 2
- Error-prone PCR  
 Improved thermostability and the optimum temperature of *Rhizopus arrhizus* lipase by directed evolution 33
- Feeding strategy  
 Production enhancement of *Rhizopus arrhizus* lipase by feeding oleic acid 40
- Fermentation  
 Use of response surface methodology to optimize culture medium for production of lipase with *Candida* sp. 99-125 9  
 Production enhancement of *Rhizopus arrhizus* lipase by feeding oleic acid 40
- Fibril  
 Effects of *p*-benzoquinone and melatonin on amyloid fibrillogenesis of hen egg-white lysozyme 49
- Fixed bed reactor  
 Lipase catalyzed methanolysis to produce biodiesel: Optimization of the biodiesel production 142
- Galactomannanase  
 Characteristics of galactomannanase for degrading konjac gel 153
- Galactose isomerization  
 Modification of optimal pH in L-arabinose isomerase from *Geobacillus stearothermophilus* for D-galactose isomerization 108
- Gene disruption  
 Application of *lat* gene disruption to increase the clavulanic acid production of *Streptomyces clavuligerus* 102
- Geobacillus stearothermophilus*  
 Modification of optimal pH in L-arabinose isomerase from *Geobacillus stearothermophilus* for D-galactose isomerization 108
- $\gamma$ -Glutamyltranspeptidase  
 Production, purification and properties of  $\gamma$ -glutamyltranspeptidase from a newly isolated *Bacillus subtilis* NX-2 113
- GL-7-ACA acylase  
 Simultaneous expression of glutaryl-7-aminocephalosporanic acid acylase gene and lysis genes of phage  $\lambda$  in a recombinant *E. coli* 118
- Glucose 6-phosphate dehydrogenase  
 Elevation of glucose 6-phosphate dehydrogenase activity increases xylitol production in recombinant *Saccharomyces cerevisiae* 86
- $\beta$ -Glucuronidase  
 Biocatalytic properties of a novel crude glycyrrhizin hydrolase from the liver of the domestic duck 148
- Glycoprotein  
 Enhancement of sialyltransferase-catalyzed transfer of sialic acid onto glycoprotein oligosaccharides using silkworm hemolymph and its 30K protein 128
- Glycyrrhetic acid monoglucuronide  
 Biocatalytic properties of a novel crude glycyrrhizin hydrolase from the liver of the domestic duck 148
- Glycyrrhizin  
 Biocatalytic properties of a novel crude glycyrrhizin hydrolase from the liver of the domestic duck 148
- Heparinase  
 Production of heparin oligosaccharides by fusion protein of MBP-heparinase I and the enzyme thermostability 90
- D-Hydantoinase  
 The immobilization of D-hydantoinase and characterization under classic condition and microwave irradiation 74
- (*S*)-Ibuprofen  
 Microfluidic separation of (*S*)-ibuprofen using enzymatic reaction 96
- Immobilization  
 The immobilization of D-hydantoinase and characterization under classic condition and microwave irradiation 74  
 Simultaneous expression of glutaryl-7-aminocephalosporanic acid acylase gene and lysis genes of phage  $\lambda$  in a recombinant *E. coli* 118  
 Cross-linked enzyme aggregates (CLEAs) with controlled particles: Application to *Candida rugosa* lipase 125
- Immobilized lipase  
 Lipase-catalyzed transesterification of rapeseed oils for biodiesel production with a novel organic solvent as the reaction medium 58  
 Lipase catalyzed methanolysis to produce biodiesel: Optimization of the biodiesel production 142
- Inhibitor  
 Effects of *p*-benzoquinone and melatonin on amyloid fibrillogenesis of hen egg-white lysozyme 49
- Ionic liquid  
 Microfluidic separation of (*S*)-ibuprofen using enzymatic reaction 96
- Kinetic resolution  
 Preparation of (2*S*, 3*R*)-methyl-3-phenylglycidate using whole cells of *Pseudomonas putida* 133
- Kinetics  
 Screening strains for directed biosynthesis of  $\beta$ -D-mono-glucuronide-glycyrrhizin and kinetics of enzyme production 63
- Konjac  
 Characteristics of galactomannanase for degrading konjac gel 153
- Lat*  
 Application of *lat* gene disruption to increase the clavulanic acid production of *Streptomyces clavuligerus* 102
- Lipase  
 Use of response surface methodology to optimize culture medium for production of lipase with *Candida* sp. 99-125 9  
 Study on the effect of cultivation parameters and pretreatment on *Rhizopus oryzae* cell-catalyzed transesterification of vegetable oils for biodiesel production 15  
 Lipase-catalyzed biodiesel production from soybean oil deodorizer distillate with absorbent present in *tert*-butanol system 29  
 Improved thermostability and the optimum temperature of *Rhizopus arrhizus* lipase by directed evolution 33  
 Production enhancement of *Rhizopus arrhizus* lipase by feeding oleic acid 40  
 Microfluidic separation of (*S*)-ibuprofen using enzymatic reaction 96  
 Preparation of (2*S*, 3*R*)-methyl-3-phenylglycidate using whole cells of *Pseudomonas putida* 133
- Low molecular weight heparin (LMWH)  
 Production of heparin oligosaccharides by fusion protein of MBP-heparinase I and the enzyme thermostability 90
- Lysis genes of phage  $\lambda$   
 Simultaneous expression of glutaryl-7-aminocephalosporanic acid acylase gene and lysis genes of phage  $\lambda$  in a recombinant *E. coli* 118
- Lysozyme  
 Effects of *p*-benzoquinone and melatonin on amyloid fibrillogenesis of hen egg-white lysozyme 49
- Maltose-binding protein (MBP)  
 Production of heparin oligosaccharides by fusion protein of MBP-heparinase I and the enzyme thermostability 90
- Medium optimization  
 Use of response surface methodology to optimize culture medium for production of lipase with *Candida* sp. 99-125 9
- Metal ions  
 Effects of metal ions on myrosinase activity and the formation of sulforaphane in broccoli seed 19

- Methanolysis**  
 Study on the effect of cultivation parameters and pretreatment on *Rhizopus oryzae* cell-catalyzed transesterification of vegetable oils for biodiesel production 15  
 Lipase catalyzed methanolysis to produce biodiesel: Optimization of the biodiesel production 142
- (2S, 3R)-methyl-3-phenylglycidate**  
 Preparation of (2S, 3R)-methyl-3-phenylglycidate using whole cells of *Pseudomonas putida* 133
- Microfluidic device**  
 Microfluidic separation of (S)-ibuprofen using enzymatic reaction 96
- Microwave**  
 The immobilization of D-hydantoinase and characterization under classic condition and microwave irradiation 74
- Myrosinase**  
 Effects of metal ions on myrosinase activity and the formation of sulforaphane in broccoli seed 19
- NADH**  
 Visible-light photocatalytic regeneration of NADH using P-doped TiO<sub>2</sub> nanoparticles 44
- NADPH**  
 Elevation of glucose 6-phosphate dehydrogenase activity increases xylitol production in recombinant *Saccharomyces cerevisiae* 86
- Nitrile hydratase**  
 An over expression and high efficient mutation system of a cobalt-containing nitrile hydratase 80
- Oleic acid**  
 Production enhancement of *Rhizopus arrhizus* lipase by feeding oleic acid 40
- Optimal pH shift**  
 Modification of optimal pH in L-arabinose isomerase from *Geobacillus stearothermophilus* for D-galactose isomerization 108
- Particle size**  
 Cross-linked enzyme aggregates (CLEAs) with controlled particles: Application to *Candida rugosa* lipase 124
- Permeabilized cells**  
 Production of trehalose by permeabilized *Micrococcus QS412* cells 137
- Phosphorus**  
 Visible-light photocatalytic regeneration of NADH using P-doped TiO<sub>2</sub> nanoparticles 44
- Photocatalyse**  
 Visible-light photocatalytic regeneration of NADH using P-doped TiO<sub>2</sub> nanoparticles 44
- Polystyrene anion exchange resin**  
 The immobilization of D-hydantoinase and characterization under classic condition and microwave irradiation 74
- Pretreatment**  
 Study on the effect of cultivation parameters and pretreatment on *Rhizopus oryzae* cell-catalyzed transesterification of vegetable oils for biodiesel production 15
- 30K protein**  
 Enhancement of sialyltransferase-catalyzed transfer of sialic acid onto glyco-protein oligosaccharides using silkworm hemolymph and its 30K protein 128
- Product tolerance**  
 An over expression and high efficient mutation system of a cobalt-containing nitrile hydratase 80
- Purification**  
 Production, purification and properties of  $\gamma$ -glutamyltranspeptidase from a newly isolated *Bacillus subtilis* NX-2 113
- Recombinant *E. coli***  
 Development and characterization of recombinant whole-cell biocatalysts expressing epoxide hydrolase from *Rhodotorula glutinis* for enantioselective resolution of racemic epoxides 2  
 An over expression and high efficient mutation system of a cobalt-containing nitrile hydratase 80
- Simultaneous expression of glutaryl-7-aminocephalosporanic acid acylase gene and lysis genes of phage  $\lambda$  in a recombinant *E. coli* 118
- Recombinant yeast**  
 Development and characterization of recombinant whole-cell biocatalysts expressing epoxide hydrolase from *Rhodotorula glutinis* for enantioselective resolution of racemic epoxides 2
- Response surface methodology**  
 Use of response surface methodology to optimize culture medium for production of lipase with *Candida* sp. 99-125 9
- Rhizopus arrhizus***  
 Improved thermostability and the optimum temperature of *Rhizopus arrhizus* lipase by directed evolution 33  
 Production enhancement of *Rhizopus arrhizus* lipase by feeding oleic acid 40
- Saccharomyces cerevisiae***  
 Elevation of glucose 6-phosphate dehydrogenase activity increases xylitol production in recombinant *Saccharomyces cerevisiae* 86
- Screening**  
 Screening strains for directed biosynthesis of  $\beta$ -D-mono-glucuronide-glycyrrhizin and kinetics of enzyme production 63
- Selective separation**  
 Microfluidic separation of (S)-ibuprofen using enzymatic reaction 96
- Sialic acid**  
 Enhancement of sialyltransferase-catalyzed transfer of sialic acid onto glyco-protein oligosaccharides using silkworm hemolymph and its 30K protein 128
- Sialyltransferase**  
 Enhancement of sialyltransferase-catalyzed transfer of sialic acid onto glyco-protein oligosaccharides using silkworm hemolymph and its 30K protein 128
- Silica nanotubes**  
 Silica nanotubes-doped alginate gel for yeast alcohol dehydrogenase immobilization 68
- Silkworm hemolymph**  
 Enhancement of sialyltransferase-catalyzed transfer of sialic acid onto glyco-protein oligosaccharides using silkworm hemolymph and its 30K protein 128
- Site-directed mutagenesis**  
 An over expression and high efficient mutation system of a cobalt-containing nitrile hydratase 80
- SODD**  
 Lipase-catalyzed biodiesel production from soybean oil deodorizer distillate with absorbent present in *tert*-butanol system 29
- Stability**  
 Improved thermostability and the optimum temperature of *Rhizopus arrhizus* lipase by directed evolution 33  
 Lipase-catalyzed transesterification of rapeseed oils for biodiesel production with a novel organic solvent as the reaction medium 58  
 Characteristics of galactomannanase for degrading konjac gel 153
- Starch**  
 Production of trehalose by permeabilized *Micrococcus QS412* cells 137
- Streptomyces clavuligerus***  
 Application of *lat* gene disruption to increase the clavulanic acid production of *Streptomyces clavuligerus* 102
- B. subtilis* NX-2**  
 Production, purification and properties of  $\gamma$ -glutamyltranspeptidase from a newly isolated *Bacillus subtilis* NX-2 113
- Sulforaphane**  
 Effects of metal ions on myrosinase activity and the formation of sulforaphane in broccoli seed 19
- Tagatose**  
 Modification of optimal pH in L-arabinose isomerase from *Geobacillus stearothermophilus* for D-galactose isomerization 108
- Theorell-Chance BiBi mechanism**  
 Steady-state kinetics of the oxidation of (S)-1-phenyl-1,2-ethanediol catalyzed by alcohol dehydrogenase from *Candida parapsilosis* CCTCC M203011 23
- Thermostability**  
 An over expression and high efficient mutation system of a cobalt-containing nitrile hydratase 80

- Production of heparin oligosaccharides by fusion protein of MBP–heparinase I and the enzyme thermostability 90
- TiO<sub>2</sub>  
Visible-light photocatalytic regeneration of NADH using P-doped TiO<sub>2</sub> nanoparticles 44
- Transpeptidation  
Production, purification and properties of  $\gamma$ -glutamyltranspeptidase from a newly isolated *Bacillus subtilis* NX-2 113
- Trehalose  
Production of trehalose by permeabilized *Micrococcus QS412* cells 137
- Whole-cell biocatalyst  
Study on the effect of cultivation parameters and pretreatment on *Rhizopus oryzae* cell-catalyzed transesterification of vegetable oils for biodiesel production 15
- Xylitol  
Elevation of glucose 6-phosphate dehydrogenase activity increases xylitol production in recombinant *Saccharomyces cerevisiae* 86
- Xylose reductase  
Elevation of glucose 6-phosphate dehydrogenase activity increases xylitol production in recombinant *Saccharomyces cerevisiae* 86
