Special Issue: Biocatalysis: An Important Way to Environmentally Benign and Sustainable Development of Our Common
Globe – The 11th YABEC (Young Asian Biochemical Engineering Community) Symposium 2005

Guest Editors: Tian-Wei Tan, Xin-Hui Xing and Jian-He Xu

Biocatalysis: An important way to environmentally benign and sustainable development of our common globe T. Tan, X. Xing (Beijing, PR China) and J.-H. Xu (Shanghai, PR China)	1
Development and characterization of recombinant whole-cell biocatalysts expressing epoxide hydrolase from <i>Rhodotorula glutinis</i> for enantioselective resolution of racemic epoxides H.S. Kim, S.J. Lee and E.Y. Lee (Busan, Republic of Korea and Ansan, Republic of Korea)	2
Use of response surface methodology to optimize culture medium for production of lipase with <i>Candida</i> sp. 99-125 Y.-Q. He and T.-W. Tan (Beijing, PR China)	9
Study on the effect of cultivation parameters and pretreatment on <i>Rhizopus oryzae</i> cell-catalyzed transesterification of vegetable oils for biodiesel production J. Zeng, W. Du, X. Liu, D. Liu and L. Dai (Beijing, China)	15
Effects of metal ions on myrosinase activity and the formation of sulforaphane in broccoli seed H. Liang, Q. Yuan and Q. Xiao (Beijing, China)	19
Steady-state kinetics of the oxidation of (<i>S</i>)-1-phenyl-1,2-ethanediol catalyzed by alcohol dehydrogenase from <i>Candida parapsilosis</i> CCTCC M203011 X.Q. Mu, Y. Xu, M. Yang and Z.H. Sun (Jiangsu, PR China)	23
Lipase-catalyzed biodiesel production from soybean oil deodorizer distillate with absorbent present in <i>tert</i> -butanol system L. Wang, W. Du, D. Liu, L. Li and N. Dai (Beijing, China)	29
Improved thermostability and the optimum temperature of <i>Rhizopus arrhizus</i> lipase by directed evolution W.-N. Niu, Z.-P. Li, D.-W. Zhang, M.-R. Yu and T.-W. Tan (Beijing, PR China)	33
Production enhancement of <i>Rhizopus arrhizus</i> lipase by feeding oleic acid D. Li, B. Wang and T. Tan (Beijing, PR China)	40
Visible-light photocatalytic regeneration of NADH using P-doped TiO ₂ nanoparticles Q. Shi, D. Yang, Z. Jiang and J. Li (Tianjin, PR China)	44
Effects of <i>p</i> -benzoquinone and melatonin on amyloid fibrillogenesis of hen egg-white lysozyme S.S.-S. Wang, P.-H. Chen and Y.-T. Hung (Taipei, Taiwan)	49
Lipase-catalyzed transesterification of rapeseed oils for biodiesel production with a novel organic solvent as the reaction medium L. Li, W. Du, D. Liu, L. Wang and Z. Li (Beijing, PR China)	58
Screening strains for directed biosynthesis of β-D-mono-glucuronide-glycyrrhizin and kinetics of enzyme production S. Feng (Shihezi Xinjiang, P.R.China), C. Li (Shihezi Xinjiang, P.R.China and Beijing, P.R.China), X. Xu and X. Wang (Shihezi Xinjiang, P.R.China)	63
Silica nanotubes-doped alginate gel for yeast alcohol dehydrogenase immobilization S. Xu, Y. Lu, Z. Jiang and H. Wu (Tianjin, PR China and Shanghai, PR China)	68
The immobilization of D-hydantoinase and characterization under classic condition and microwave irradiation H.-H. Jia, F. Ni, M.-J. Chen, H. Zhou, P. Wei and P.-K. Ouyang (Nanjing, PR China)	74
An over expression and high efficient mutation system of a cobalt-containing nitrile hydratase H.-M. Yu, Y. Shi, H. Luo, Z.-L. Tian, Y.-Q. Zhu and Z.-Y. Shen (Beijing, China)	80
Elevation of glucose 6-phosphate dehydrogenase activity increases xylitol production in recombinant <i>Saccharomyces cerevisiae</i> D.-H. Kwon (Seoul, Republic of Korea), M.-D. Kim (Chuncheon, Republic of Korea), T.-H. Lee, Y.-J. Oh (Seoul, Republic of Korea), Y.-W. Ryu (Suwon, Republic of Korea) and J.-H. Seo (Seoul, Republic of Korea)	86
Production of heparin oligosaccharides by fusion protein of MBP–heparinase I and the enzyme thermostability Y. Kuang, X.-H. Xing, Y. Chen, F. Ye, Y. Chen, Y. Yan, Z. Liu and R. Bi (Beijing, China)	90
Microfluidic separation of (<i>S</i>)-ibuprofen using enzymatic reaction Y.S. Huh, Y.-S. Jun (Daejeon, Republic of Korea), Y.K. Hong (Chungbuk, Republic of Korea), W.H. Hong and D.H. Kim (Daejeon, Republic of Korea)	96
Application of <i>lat</i> gene disruption to increase the clavulanic acid production of <i>Streptomyces clavuligerus</i> Z. Zhihan and W. Yanping (Tianjin, China)	102
Modification of optimal pH in L-arabinose isomerase from <i>Geobacillus stearothermophilus</i> for D-galactose isomerization D.K. Oh (Seoul, South Korea), H.J. Oh (Bucheon, South Korea), H.J. Kim (Seoul, South Korea), J. Cheon and P. Kim (Bucheon, South Korea)	108
Production, purification and properties of γ-glutamyltranspeptidase from a newly isolated <i>Bacillus subtilis</i> NX-2 Q. Wu, H. Xu, L. Zhang, J. Yao and P. Ouyang (Nanjing, PR China)	113
Simultaneous expression of glutaryl-7-aminocephalosporanic acid acylase gene and lysis genes of phage λ in a recombinant <i>E. coli</i> H.-M. Yu, H. Luo, H. Zhou, J. Hou and Z.-Y. Shen (Beijing, China)	118
Cross-linked enzyme aggregates (CLEAs) with controlled particles: Application to <i>Candida rugosa</i> lipase H.W. Yu, H. Chen, X. Wang, Y.Y. Yang and C.B. Ching (Singapore, Singapore)	124
Enhancement of sialyltransferase-catalyzed transfer of sialic acid onto glycoprotein oligosaccharides using silkworm hemolymph and its 30K protein S.S. Choi and T.H. Park (Seoul, Republic of Korea)	128

Preparation of (2 <i>S</i> , 3 <i>R</i>)-methyl-3-phenylglycidate using whole cells of <i>Pseudomonas putida</i> G. Zheng, Q. Yuan, L. Yang, X. Zhang, J. Wang and W. Sun (Beijing, China)	133
Production of trehalose by permeabilized <i>Micrococcus QS412</i> cells Y. Zhou, Q. Yuan, H. Gao and R. Ma (Beijing, PR China)	137
Lipase catalyzed methanolysis to produce biodiesel: Optimization of the biodiesel production K. Nie, F. Xie, F. Wang and T. Tan (Beijing, China)	142
Biocatalytic properties of a novel crude glycyrrhizin hydrolase from the liver of the domestic duck D.-Q. Lu, H. Li, Y. Dai and P.-K. Ouyang (Nanjing, PR China)	148
Characteristics of galactomannanase for degrading konjac gel Y.-T. Chang (Changhua, Taiwan), Y.-S. Chen (Taichung, Taiwan), K.-T. Lin (Changhua, Taiwan), I.-F. Lin (Berkeley, CA, USA), Y.-F. Chen, Y.-H. Yen (Changhua, Taiwan), B.-L. Liu (Wufong, Taiwan) and Y.-N. Chang (Changhua, Taiwan)	153
