

Subject Index

- Acetone
Catalytic activity of *Cerrena unicolor* laccase in aqueous solutions of water-miscible organic solvents—Experimental and numerical description 53
- Acid oil
Conversion of acid oil by-produced in vegetable oil refining to biodiesel fuel by immobilized *Candida antarctica* lipase 99
- Alcohol dehydrogenase
Photochemical and enzymatic synthesis of methanol from formaldehyde with alcohol dehydrogenase from *Saccharomyces cerevisiae* and water-soluble zinc porphyrin 27
- Alkylepoxystearate
Lipase mediated simultaneous esterification and epoxidation of oleic acid for the production of alkylepoxystearates 133
- Almond meal
Facile synthesis of alkyl β -D-glucopyranosides from D-glucose and the corresponding alcohols using fruit seed meals 72
- α -Amylase
Preparation and characterization of combi-CLEAs catalyzing multiple non-cascade reactions 128
- Antioxidants
Oxidation of 8-hydroxyquinoline catalyzed by laccase from *Trametes pubescens* yields an antioxidant aromatic polymer 66
- Baeyer–Villiger monooxygenase
Microbial monooxygenases applied to fragrance compounds 78
- Banana
Deacetylation of furanosides using banana as biocatalyst 138
- Benzofuran
Enantioselective synthesis of 4,5,6,7-tetrahydro-4-oxo-benzofuran-5-yl acetate and 1-benzyl-4,5,6,7-tetrahydro-4-oxo-1(H)-indol-5-yl acetate using chemoenzymatic methods 87
- Biocatalysis
Esterification and transesterification reactions catalysed by addition of fermented solids to organic reaction media 8
- Biodegradation
An experimental and theoretical study of *Coprinus cinereus* peroxidase-catalyzed biodegradation of isoelectronic to dioxin recalcitrants 20
- Biodiesel fuel
Conversion of acid oil by-produced in vegetable oil refining to biodiesel fuel by immobilized *Candida antarctica* lipase 99
- Biotransformation
Rapid conversion of ferulic acid to 4-vinyl guaiacol and vanillin metabolites by *Debaryomyces hansenii* 48
Microbial monooxygenases applied to fragrance compounds 78
- Bisphenol A
Polymerization of bisphenol a using *Coprinus cinereus* peroxidase (CiP) and its application as a photoresist resin 149
- Burkholderia cepacia*
Esterification and transesterification reactions catalysed by addition of fermented solids to organic reaction media 8
- Candida antarctica*
Conversion of acid oil by-produced in vegetable oil refining to biodiesel fuel by immobilized *Candida antarctica* lipase 99
- Candida rugosa*
Enzymatic purification of dihomo- γ -linolenic acid from *Mortierella* single-cell oil 14
- Catalytic activity
Catalytic activity of *Cerrena unicolor* laccase in aqueous solutions of water-miscible organic solvents—Experimental and numerical description 53
- Catechins
Enzymatic galloylation of catechins in room temperature ionic liquids 60
- Cellulase
Mutation of fungal endoglucanases into glycosynthases and characterization of their acceptor substrate specificity 106
- Combi-CLEA
Preparation and characterization of combi-CLEAs catalyzing multiple non-cascade reactions 128
- Controllable selectivity
Controllable selective enzymatic synthesis of *N*-acyl and *O*-acylpropranolol vinyl esters and preparation of polymeric prodrug of propranolol 1
- Copolymer
Controllable selective enzymatic synthesis of *N*-acyl and *O*-acylpropranolol vinyl esters and preparation of polymeric prodrug of propranolol 1
- Coprinus cinereus* peroxidase
Polymerization of bisphenol a using *Coprinus cinereus* peroxidase (CiP) and its application as a photoresist resin 149
- Debaryomyces*
Rapid conversion of ferulic acid to 4-vinyl guaiacol and vanillin metabolites by *Debaryomyces hansenii* 48
- Deprotection
Deacetylation of furanosides using banana as biocatalyst 138
- Dihomo- γ -linolenic acid
Enzymatic purification of dihomo- γ -linolenic acid from *Mortierella* single-cell oil 14
- Dimethyl sulfoxide
Catalytic activity of *Cerrena unicolor* laccase in aqueous solutions of water-miscible organic solvents—Experimental and numerical description 53
- Enantioselective hydrolysis
Ionic liquid anchored substrate for enzyme catalysed kinetic resolution 93
- Enzymatic polymerization
Polymerization of bisphenol a using *Coprinus cinereus* peroxidase (CiP) and its application as a photoresist resin 149
- Enzymatic resolution
Enantioselective synthesis of 4,5,6,7-tetrahydro-4-oxo-benzofuran-5-yl acetate and 1-benzyl-4,5,6,7-tetrahydro-4-oxo-1(H)-indol-5-yl acetate using chemoenzymatic methods 87

- Enzymatic synthesis
 Controllable selective enzymatic synthesis of *N*-acyl and *O*-acylpropranolol vinyl esters and preparation of polymeric prodrug of propranolol 1
 Photochemical and enzymatic synthesis of methanol from formaldehyde with alcohol dehydrogenase from *Saccharomyces cerevisiae* and water-soluble zinc porphyrin 27
 Enzymatic galloylation of catechins in room temperature ionic liquids 60
 Mutation of fungal endoglucanases into glycosynthases and characterization of their acceptor substrate specificity 106
- Epoxidation
 Microbial monooxygenases applied to fragrance compounds 78
- Escherichia coli*
 Activity of hydroperoxide lyase under aqueous and micro-aqueous conditions 32
- Esterification
 Enzymatic purification of dihomogamma-linolenic acid from *Mortierella* single-cell oil 14
- Ethanol
 Catalytic activity of *Cerrena unicolor* laccase in aqueous solutions of water-miscible organic solvents—Experimental and numerical description 53
- Fatty acid hydroperoxide
 Activity of hydroperoxide lyase under aqueous and micro-aqueous conditions 32
- Fatty acid methyl esters
 Conversion of acid oil by-produced in vegetable oil refining to biodiesel fuel by immobilized *Candida antarctica* lipase 99
- Fatty sulfate hydroperoxide
 Activity of hydroperoxide lyase under aqueous and micro-aqueous conditions 32
- Ferulic acid
 Rapid conversion of ferulic acid to 4-vinyl guaiacol and vanillin metabolites by *Debaryomyces hansenii* 48
- Fruit seed meal
 Facile synthesis of alkyl beta-D-glucopyranosides from D-glucose and the corresponding alcohols using fruit seed meals 72
- Furanosides
 Deacetylation of furanosides using banana as biocatalyst 138
- Galloylation
 Enzymatic galloylation of catechins in room temperature ionic liquids 60
- Gel
 Immobilization of a lipoxygenase in silica gels for application in aqueous media 117
- Gelatin immobilization
 Influence of the presence of NaY zeolite on the activity of horseradish peroxidase in the oxidation of phenol 39
- beta-Glucosidase
 Facile synthesis of alkyl beta-D-glucopyranosides from D-glucose and the corresponding alcohols using fruit seed meals 72
- Glutaraldehyde cross-linking
 Preparation and characterization of combi-CLEAs catalyzing multiple non-cascade reactions 128
- Glycosynthase
 Mutation of fungal endoglucanases into glycosynthases and characterization of their acceptor substrate specificity 106
- Heme ligand binding
 Horseradish peroxidase in ionic liquids. Reactions with water insoluble phenolic substrates 144
- Heme peroxidase
 An experimental and theoretical study of *Coprinus cinereus* peroxidase-catalyzed biodegradation of isoelectronic to dioxin recalcitrants 20
- Heterogeneous catalysis
 Influence of the presence of NaY zeolite on the activity of horseradish peroxidase in the oxidation of phenol 39
- Horseradish peroxidase
 Influence of the presence of NaY zeolite on the activity of horseradish peroxidase in the oxidation of phenol 39
 Horseradish peroxidase in ionic liquids. Reactions with water insoluble phenolic substrates 144
- Hydrolases
 Deacetylation of furanosides using banana as biocatalyst 138
- Hydrolysis
 Enzymatic purification of dihomogamma-linolenic acid from *Mortierella* single-cell oil 14
- Hydroperoxide lyase
 Activity of hydroperoxide lyase under aqueous and micro-aqueous conditions 32
- Hydroxylation
 Microbial monooxygenases applied to fragrance compounds 78
- 8-Hydroxyquinoline
 Oxidation of 8-hydroxyquinoline catalyzed by laccase from *Trametes pubescens* yields an antioxidant aromatic polymer 66
- Ibuprofen
 Ionic liquid anchored substrate for enzyme catalysed kinetic resolution 93
- Immobilization
 Immobilization of a lipoxygenase in silica gels for application in aqueous media 117
- Immobilized enzyme
 Conversion of acid oil by-produced in vegetable oil refining to biodiesel fuel by immobilized *Candida antarctica* lipase 99
- Indole
 Enantioselective synthesis of 4,5,6,7-tetrahydro-4-oxo-benzofuran-5-yl acetate and 1-benzyl-4,5,6,7-tetrahydro-4-oxo-1(H)-indol-5-yl acetate using chemoenzymatic methods 87
- Ionic liquids
 Horseradish peroxidase in ionic liquids. Reactions with water insoluble phenolic substrates 144
- Kinetics
 An experimental and theoretical study of *Coprinus cinereus* peroxidase-catalyzed biodegradation of isoelectronic to dioxin recalcitrants 20
- Laccase
 Catalytic activity of *Cerrena unicolor* laccase in aqueous solutions of water-miscible organic solvents—Experimental and numerical description 53
- Lipase
 Esterification and transesterification reactions catalysed by addition of fermented solids to organic reaction media 8
 Enzymatic purification of dihomogamma-linolenic acid from *Mortierella* single-cell oil 14
 Conversion of acid oil by-produced in vegetable oil refining to biodiesel fuel by immobilized *Candida antarctica* lipase 99
 Preparation and characterization of combi-CLEAs catalyzing multiple non-cascade reactions 128
 Lipase mediated simultaneous esterification and epoxidation of oleic acid for the production of alkylepoxystearates 133
- Lipoxygenase
 Immobilization of a lipoxygenase in silica gels for application in aqueous media 117
- Manganese(III) cetate
 Enantioselective synthesis of 4,5,6,7-tetrahydro-4-oxo-benzofuran-5-yl acetate and 1-benzyl-4,5,6,7-tetrahydro-4-oxo-1(H)-indol-5-yl acetate using chemoenzymatic methods 87
- Methanolysis
 Conversion of acid oil by-produced in vegetable oil refining to biodiesel fuel by immobilized *Candida antarctica* lipase 99
- 3-Methoxy 4-hydroxystyrene
 Rapid conversion of ferulic acid to 4-vinyl guaiacol and vanillin metabolites by *Debaryomyces hansenii* 48

- Methyl esterification
Conversion of acid oil by-produced in vegetable oil refining to biodiesel fuel by immobilized *Candida antarctica* lipase 99
- Micro-aqueous conditions
Activity of hydroperoxide lyase under aqueous and micro-aqueous conditions 32
- Modeling
An experimental and theoretical study of *Coprinus cinereus* peroxidase-catalyzed biodegradation of isoelectronic to dioxin recalcitrants 20
- Monoterpenes
Microbial monooxygenases applied to fragrance compounds 78
- Oleic acid
Lipase mediated simultaneous esterification and epoxidation of oleic acid for the production of alkylepoxystearates 133
- Oligosaccharide synthesis
Mutation of fungal endoglucanases into glycosynthases and characterization of their acceptor substrate specificity 106
- Organic media
Controllable selective enzymatic synthesis of *N*-acyl and *O*-acylpropranolol vinyl esters and preparation of polymeric prodrug of propranolol 1
- Organic medium
Oxidation of 8-hydroxyquinoline catalyzed by laccase from *Trametes pubescens* yields an antioxidant aromatic polymer 66
- Oxidation of enone
Enantioselective synthesis of 4,5,6,7-tetrahydro-4-oxo-benzofuran-5-yl acetate and 1-benzyl-4,5,6,7-tetrahydro-4-oxo-1(H)-indol-5-yl acetate using chemoenzymatic methods 87
- Phenol oxidation
Influence of the presence of NaY zeolite on the activity of horseradish peroxidase in the oxidation of phenol 39
- Phenolic coupling
Horseradish peroxidase in ionic liquids. Reactions with water insoluble phenolic substrates 144
- Phenols oxidation
Horseradish peroxidase in ionic liquids. Reactions with water insoluble phenolic substrates 144
- Phospholipase A₂
Preparation and characterization of combi-CLEAs catalyzing multiple non-cascade reactions 128
- Photochemical methanol synthesis
Photochemical and enzymatic synthesis of methanol from formaldehyde with alcohol dehydrogenase from *Saccharomyces cerevisiae* and water-soluble zinc porphyrin 27
- Photoresist
Polymerization of bisphenol a using *Coprinus cinereus* peroxidase (CiP) and its application as a photoresist resin 149
- Plasticizer
Lipase mediated simultaneous esterification and epoxidation of oleic acid for the production of alkylepoxystearates 133
- Propranolol
Controllable selective enzymatic synthesis of *N*-acyl and *O*-acylpropranolol vinyl esters and preparation of polymeric prodrug of propranolol 1
- Protein engineering
Mutation of fungal endoglucanases into glycosynthases and characterization of their acceptor substrate specificity 106
- Pseudomonas aeruginosa*
Enzymatic purification of dihomo- γ -linolenic acid from *Mortierella* single-cell oil 14
- Regioselective deacetylation
Deacetylation of furanosides using banana as biocatalyst 138
- Resolution
Ionic liquid anchored substrate for enzyme catalysed kinetic resolution 93
- Reverse hydrolysis
Facile synthesis of alkyl β -D-glucopyranosides from D-glucose and the corresponding alcohols using fruit seed meals 72
- Silica
Immobilization of a lipoxygenase in silica gels for application in aqueous media 117
- Solid-state fermentation
Esterification and transesterification reactions catalysed by addition of fermented solids to organic reaction media 8
- SSF
Esterification and transesterification reactions catalysed by addition of fermented solids to organic reaction media 8
- Tannase
Enzymatic galloylation of catechins in room temperature ionic liquids 60
- Task specific ionic liquids
Ionic liquid anchored substrate for enzyme catalysed kinetic resolution 93
- 2,3,7,8-Tetrachlorodibenzo-*p*-dioxin
An experimental and theoretical study of *Coprinus cinereus* peroxidase-catalyzed biodegradation of isoelectronic to dioxin recalcitrants 20
- Thermal stability
Preparation and characterization of combi-CLEAs catalyzing multiple non-cascade reactions 128
- Trametes pubescens* laccase
Oxidation of 8-hydroxyquinoline catalyzed by laccase from *Trametes pubescens* yields an antioxidant aromatic polymer 66
- Vinyl guaiacol
Rapid conversion of ferulic acid to 4-vinyl guaiacol and vanillin metabolites by *Debaryomyces hansenii* 48
- Water media
Photochemical and enzymatic synthesis of methanol from formaldehyde with alcohol dehydrogenase from *Saccharomyces cerevisiae* and water-soluble zinc porphyrin 27
- Zeolites
Influence of the presence of NaY zeolite on the activity of horseradish peroxidase in the oxidation of phenol 39
- Zinc porphyrin
Photochemical and enzymatic synthesis of methanol from formaldehyde with alcohol dehydrogenase from *Saccharomyces cerevisiae* and water-soluble zinc porphyrin 27
