ERRATUM

Tian-Shung Wu, Hiroshi Furukawa, and Chang-Sheng Kuoh: Triterpenoids from *Humata pectinata*, *J. Nat. Prod.*, **45**, 721 (1982).

The authors make the following correction:

In this paper, isolations of hopa-3 β -ol (**1**) and hopan-3 β -yl acetate (**2**) from *Humata pectinata* were reported. However, in the results of gas chromatographic analysis, the samples assigned to **1** (mp 236-238 $^{\circ}$) and **2** (mp 324-326 $^{\circ}$) were shown to be a mixture of tetrahymanol and neriifoliol (1:3), and tetrahymanyl acetate, respectively.

We thank Professor H. Ageta (Showa College of Pharmacy) for helpful discussions and the gas chromatographic analysis.
