

Phytochemical Society of Europe Symposium  
"Biologically Active Natural Products"  
University of Lausanne, Switzerland  
3-5 September 1986

The scientific program will consist of twenty-three plenary lectures and poster sessions covering the following topics: isolation and structure determination of natural products, anticancer agents, immunomodulatory substances, fungicidal and other antimicrobial activities, insecticides, molluscicides, metabolites of microorganisms, marine natural products.

Corrigendum

The authors wish to correct an erroneous statement in their Brief Report "Flavonol Diglycosides from *Melia azedarach* (Vol. 49, Jan/Feb p. 170). The original statement begins: *M. azedarach* is the only plant from the Meliaceae family . . . .

The corrected sentence should read: *M. azedarach* and *S. febrifuga* are the only plants from the Meliaceae family which comprises about 50 genera and 800 species, investigated in relation to their flavonoid content (3).

—J.A. MARCO, O. BARBERÁ, J.F. SABZ,  
and J. SÁNCHEZ-PARAREDA

Continued from back cover

Steroids Isolated from <i>Lophogorgia platycados</i> —S. Pantoja, M. Hoeneisen, J. Bacteria, M. Silva, and D.J. Faulkner . . . . .	357
Isolation of Compactin (A Hypocholesterolemic Metabolite) from a New Source: <i>Penicillium cyclospium</i> —Samia L. Doss, Chung K. Chu, Mostafa K. Mesbah, Horace G. Cutler, Patsy D. Cole, Richard F. Arrendale, and James P. Springer . . . . .	357
Polyoxygenated Xanthenes from <i>Centaureum erythraea</i> Roots—Mourad Kaouadji, Isabelle Vaillant, and Anne-Marie Mariotte . . . . .	359
New Germacranolide from <i>Gocnathia foliolosa</i> var. <i>foliolosa</i> —Maritza Hoeneisen, and Hans Becker . . . . .	360
Essential Oils from Brazilian Compositae—A.A. Craveiro, C.H.S. Andrade, F.J.A. Matos, J.W. Alencar, and M.I.L. Machado . . . . .	361
A Guaianolide from <i>Chromolaena glaberrima</i> —Ahmed A. Ahmed, Alan T. Whittemore, and Tom J. Mabry . . . . .	363
Ecdysteroids from <i>Vitex glabrata</i> —Kittipong Werawattanametin, Verapong Podimuang, and Apichart Suksamrarn . . . . .	365
Coumarinolignoids, Cleomiscosin A and Cleomiscosin B, from <i>Aesculus turbinata</i> —Hitoshi Tanaka, Ichiro Kato, Kazuhiko Ichino, and Kazuo Ito . . . . .	366
Aucubin from <i>Sutera dissecta</i> —P. Forgacs, J. Provost, and A. Jehanno . . . . .	367
Iridoid Glucosides of White-Flowered <i>Penstemon whippleanus</i> —Mark R. Roby and Frank R. Stermitz . . . . .	368
Alcaloides d' <i>Heliotropium suaveolens</i> —N. Güner . . . . .	369
Alkaloids of <i>Fumaria densiflora</i> —A.F. Aboudi, D.M. Al-Eisawi, S.S. Sabri, and M.H. Abu Zarga . . . . .	370
