## **ERRATUM**

For the paper by Hegde *et al.* entitled "Isolation and Structure of Two Novel Muscarinic Receptor Antagonists," *J. Nat. Prod.*, **58**, 843 (1995), the structure of compound **1** on p. 844 is incorrect, due to a printer's error. The correct structure is as follows:

$$\begin{array}{c} NH \\ H_2N \\ NH \\ \end{array}$$

$$\begin{array}{c} O \\ NH \\ NH \\ \end{array}$$

$$\begin{array}{c} NH \\ NH \\ NH \\ \end{array}$$

$$\begin{array}{c} NH \\ NH \\ NH_2 \\ \end{array}$$

$$\begin{array}{c} NH \\ NH_2 \\ \end{array}$$

## **ADDENDUM**

In the paper "Antitumor Agents, 154. Cytotoxic and Antimitotic Flavonols from *Polanisia dodecandra*" by Shi *et al.* (*J. Nat. Prod.*, **58**, 475), the authors regret that they did not cite earlier papers on flavonoids that inhibit tubulin binding, concerning centaureidin (Beutler *et al.*, *Bioorg. Med. Chem. Lett.*, **3**, 581, 1993) and 5,3'-dihydroxy-3,6,7,8,4'-pentamethoxyflavone (Lichius *et al.*, *J. Nat. Prod.*, **57**, 1012, 1994).
