

Correction to Sesquiterpene Lactones from *Anthemis melanolepis* and Their Antibacterial and Cytotoxic Activities. Prediction of Their Pharmacokinetic Profile

Vasiliki Saroglou, Anastasia Karioti, Ana Rancic, Kostas Dimas, Catherine Koukoulitsa, Maria Zervou, and Helen Skaltsa*

J. Nat. Prod. **2010**, *73*, *2*, 242–246. DOI: 10.1021/np9004129

Page 245: The following footnote should be included in Table 4.

^dVinblastine values as reported in Koukoulitsa et al. *Planta Med.* **2002**, *68*, 649–652.

Page 246: The formula that has been used for the calculation of the LC₅₀ values is $100 \times (T - T_0/T_0) = -50$.
