Proceedings of the Symposium on Microstructural Processes in Irradiated Materials

Preface	vii	Experimental characterization of microstructural evolution	
Modelling: Cascade production, defect evolution and damage accumulation, interatomic potentials and He effects			
Mean field rate theory and object kinetic Monte Carlo: A comparison of kinetic models, <i>R.E. Stoller, S.I. Golubov, C. Domain and C.S. Becquart</i>	77	Microstructural defects in SiC neutron irradiated at very high temperatures, <i>S. Kondo, Y. Katoh and L.L. Snead</i>	160
Computer simulation of cascade damage in α -iron with carbon in solution, <i>A.F. Calder, D.J. Bacon, A.V. Barashev and Y.N. Osetsky</i>	91	Microstructures of beta-silicon carbide after irradiation creep deformation at elevated temperatures, <i>Y. Katoh, S. Kondo and L.L. Snead</i>	170
Non-linear dynamics of microstructure evolution and hyper void-lattice formation, <i>A.A. Semenov and C.H. Woo</i>	96	Changes in the mechanical properties of irradiated MgO(1 0 0) crystals investigated by nanoindentation and computer simulation, <i>A. Richter, I. Gheewala, R. Smith, S.D. Kenny, J. Valdez and K. Sickafus</i>	176
Relevancy of displacement cascades features to the long term point defect cluster growth, <i>M. Hou, A. Souidi, C.S. Becquart, C. Domain and L. Malerba</i>	103	Influence of alloying elements on grain-growth in Zr(Fe) and Cu(Fe) thin-films under in situ ion-irradiation, <i>D. Kaoumi, A.T. Motta and R.C. Birtcher</i>	184
Multiscale modelling of radiation damage and phase transformations: The challenge of FeCr alloys, <i>L. Malerba, A. Caro and J. Wallenius</i>	112	Cluster-dynamics modelling of defects in α -iron under cascade damage conditions, <i>E. Meslin, A. Barbu, L. Boulanger, B. Radigue, P. Pareige, K. Arakawa and C.C. Fu</i>	190
Formation of stable sessile interstitial complexes in reactions between glissile dislocation loops in bcc Fe, <i>D. Terentyev, L. Malerba, P. Klaver and P. Olsson</i>	126	Microstructural development in a model austenitic alloy following electron and ion irradiation, <i>N. Sakaguchi, H. Kinoshita, S. Watanabe, Y. Sueishi, N. Akasaka and H. Takahashi</i>	197
Modeling of He-defect interactions in ferritic alloys for fusion, <i>R.J. Kurtz, H.L. Heinisch and F. Gao</i>	134	Localized deformation and IASCC initiation in austenitic stainless steels, <i>Z. Jiao and G.S. Was</i>	203
Pair potential for Fe-He, <i>N. Juslin and K. Nordlund</i>	143	Analysis of high temperature deformation mechanism in ODS EUROFER97 alloy, <i>A. Ramar, P. Spätig and R. Schaublin</i>	210
Effect of interatomic potential on the behavior of dislocation-defect interaction simulation in α -Fe, <i>S.M. Hafez Haghighat, J. Fikar and R. Schaublin</i>	147	Static strain aging and dislocation-impurity interactions in irradiated mild steel, <i>K.L. Murty and I. Charit</i>	217
Microstructural evolution under high flux irradiation of dilute Fe-CuNiMnSi alloys studied by an atomic kinetic Monte Carlo model accounting for both vacancies and self interstitials, <i>E. Vincent, C.S. Becquart and C. Domain</i>	154	Formation of austenite in high Cr ferritic/martensitic steels by high fluence neutron irradiation, <i>Z. Lu, R.G. Faulkner and T.S. Morgan</i>	223
		Weldable ductile molybdenum alloy development, <i>B.V. Cockeram, E.K. Ohriner, T.S. Byun, M.K. Miller and L.L. Snead</i>	229
