---

Vol. 63, 1998

**Hitoshi Okubo, Masahiko Yamaguchi,\* and Chizuko Kabuto.** Macrocyclic Amides Consisting of Helical Chiral 1,12-Dimethylbenzo[*c*]phenanthrene-5,8-dicarboxylate.

Page 9501. The statement "X-ray crystallographic analysis of **4**, a chromatographically polar diastereomer, revealed (*P*)-configuration at the helicene moiety (Figure 1)" is incorrect. The less polar diastereomer revealed the (*P*)-configuration at the helicene moiety, and (*P*) and (*M*) should be exchanged throughout the paper.
