

James A. Marshall,* Arnaud Piettre, Mikell A. Paige, and Frederick Valeriote. Total Synthesis and Structure Confirmation of the Annonaceous Acetogenins 30(*S*)-Hydroxybullatacin, Uvarigrandin A, and 5(*R*)-Uvarigrandin A (Narumicin I?).

Page 1780. The concentration units for Table 1 were incorrectly listed as g/mL rather than $\mu\text{g/mL}$. The corrected table follows:

TABLE 1. Cytotoxicity of Annonaceous Acetogenins toward H-116 Colon Cancer Cells

compound	IC ₅₀ ($\mu\text{g/mL}$)	IC ₉₀ ($\mu\text{g/mL}$)
(3 <i>S</i>)-hydroxybullatacin ^a	2×10^{-4}	2×10^{-1}
uvarigrandin A ^a	2×10^{-4}	1.5×10^{-2}
(5 <i>R</i>)-uvarigrandin A ^a	2.5×10^{-4}	3×10^{-1}
5-fluorouracil ^b	1.5×10^{-1}	1.5

^a 1 $\mu\text{g/mL} \approx 1.5 \mu\text{M}$. ^b 1 $\mu\text{g/mL} \approx 7 \mu\text{M}$.
