

Vol. 61, 1996

Thomas R. Hoye* and **Matthew K. Renner**. MTPA (Mosher) Amides of Cyclic Secondary Amines: Conformational Aspects and a Useful Method for Assignment of Amine Configuration.

Page 2062. The structures for **15** and **16** should be interchanged in Figure 5. They are correctly described in Table 6.

Page 2062. “(R)-MTPA-Cl” should be changed to “(S)-MTPA-Cl” (18 lines from the bottom of column two). This is correctly stated 28 lines from the top of the same column.

Page 2062. “IPEA” should be changed to the more conventional “DIEA” eight lines from the bottom of column two.

Page 2063. The header “(6R)-2,6-Dimethyl-1,4,5,6-tetrahydropyridine-(R)-MTPA Amide (**12**) and -(S)-MTPA Amide (**13**)” should be changed to “(6R)- and (6S)-2,6-Dimethyl-1,4,5,6-tetrahydropyridine-(R)-MTPA Amides (**12** and **13**, Respectively)” in column two.
