Page 1679. In the  $^1\text{H}$  NMR data listing for compound **12**, the line at 2.37 ppm is a triplet, not a doublet as printed.

Page 1680, Supporting Information. The wrong  $^1\text{H}$  and  $^{13}\text{C}$  NMR spectra for compound **14** were uploaded on pages S11 and S12. The correct  $^1\text{H}$  and  $^{13}\text{C}$  NMR spectra for compound **14** appear on pages S11 and S12 in the Supporting Information included here.
