

# JOC Additions and Corrections

Vol. 72, 2007

**Gonzalo Jiménez-Osés, Carlos Aydillo, Jesús H. Busto, María M. Zurbano,\* Jesús M. Peregrina, and Alberto Avenoza.\*** Role of the Countercation in Diastereoselective Alkylation of Pyramidalized Bicyclic Serine Enolates. An Easy Approach to  $\alpha$ -Benzylserine.

Page 5400. An omission has been discovered in ref 11. The corrected text is as follows: “The structural and optical properties of this compound were identical to those reported in the literature ( $[\alpha]^{25}_D +16.8$ ).<sup>11a-c</sup> It is important to note that although several synthetic methods have been reported for other chiral  $\alpha$ -alkylserines, there are only six reports on the asymmetric synthesis of enantiomerically pure (*S*)- or (*R*)- $\alpha$ -benzylserine, also commonly named (*S*)- or (*R*)- $\alpha$ -hydroxymethylphenylalanine.<sup>11</sup>”
